VOL. 41 VICTORIA, B. C., WEDNESDAY, OCTOBER 23, 1912 NO. 97

EXHIBITS ATTRACT MANY VISITORS

THOUSANDS ATTEND LETHBRIDGE EXPOSITION

Machinery Demonstration is Given in Connection With Dry Farming Congress

Lethbridge, Alta., Oct. 23.—During the whole morning the dry farming congress in its component sections devoted its deliberations to department study and debate. At 9 o'clock meetings started simultaneously in the Baptist, Methodist and Presbyterian churches and the Majestic theatre, where the various sections took up the morning programme.

The sections in session during the forenoon were: Scientific research, crops and breeding, livestock and dairying, soils, tillage and machinery, agricultural education and colleges and experimental stations, while the farm women's congress met in Knox church both morning and afternoon.

The sections adjourned at noon and the afternoon hours were spent at the exposition grounds, where lectures were delivered at the various provincial, state and district exhibits. Over five thousand persons visited the grounds during the afternoon, interest being divided between the exhibits and the machinery demonstration. The machinery demonstrations included exhibitions of the possibilities of the power tractor on the farm and road-building and threshing machinery. Tractors, with gasoline, kerosine oil, or steam-fed lungs, puffed and panted on the spacious demonstration grounds adjacent to the exposition grounds, and weird evolutions, sometimes intentional, were performed by the tractor engines.

This evening the most important session of the congress will take place. The congress will convene in the auditorium room, when the report of the committees on credentials and nominations will be submitted, the election of officers will be carried out and the report of the committee on resolutions received. Hon. A. L. Sifton, premier of Alberta, will address the congress and will be followed by several prominent agriculturists.

The selection of the convention city for 1913 will not be decided until Friday afternoon.

The Manitoba special leaves for Winnipeg to-day, the Regina special cars travelling East on Thursday.

WEDDED AT WINDSOR.

Windsor, Que., Oct. 23.—A quiet wedding took place yesterday when Miss Greina Russell Henderson, daughter of Mr. and Mrs. E. Henderson, Windsor, became the bride of Rev. Frederick Austin P. Chadwick, rector of St. Pauls, Vancouver, B. C. Rev. Arthur Carlisle, rector of All Saints' church, and successor to Rev. Mr. Chadwick, the former rector, performed the ceremony, which was held at All Saints' church.

RULING OF BOARD WILL BE ACCEPTED

United Shoe Machinery Company Will Conform With Law of Canada

Montreal, Oct. 23.—That the United Shoe Machinery Company of Montreal, a branch of the United States concern, will abide by the ruling of the board of inquiry, which declared it a combination in restraint of trade, was the statement made yesterday by J. Knowlton, manager of the company.

"We always obey the laws of the country in which we are working," he continued, "and we will have six months in which to decide upon our course of action. Our president and directors are in Boston, of course, and it will be for them to arrive at a decision in the premises. We are, in the meantime, going on as usual, and will continue to do so until we make some readjustment in harmony with the judgment. We make machinery, not shoes. We are busy manufacturing, and shall continue to do so for the present.

"If our methods are not according to the law of the country they will have to be made to conform to that law, whatever it is. We had no idea that we were breaking any law, however."

WILL CURTAIL TRIP.

Toronto, Oct. 23.—On account of several cables received yesterday, Sir Thomas Lipton will unfortunately be forced to curtail his visit. It was originally planned to go from Toronto to Ottawa, then to Winnipeg and on to the coast. However, he will probably go direct to Chicago and thence to the coast, leaving out Seattle, Winnipeg and several other points which he intended to visit.

NAVIGATION OF HUDSON BAY

ROUTE FEASIBLE DECLARES ENGINEER

Contractor Says Line is Easier to Build Than Was the C. P. R.

LePas, Man., Oct. 23.—At a complimentary banquet tendered last night to Judge E. C. Senkler, stipendiary magistrate for the Northwest Territories since July, 1910, on the occasion of his departure from here for Vancouver, where he intends to reside in the future, J. P. Gordon, assistant to Chief Engineer Armstrong, of the Hudson Bay railway, who was with Hon. Frank Cochrane on his trip through the Hudson Bay country last summer, made the statement that as far as ice was concerned there would be no trouble. The ministerial party had found none in the Hudson Straits or on the coast of Labrador. The Straits of Belle Isle were the only places where any had been found.

Mr. Boyd, of McArthur & Boyd, contractors for the whole of the Hudson's Bay railway, was also present, having just returned from an inspection of the line in company with Assistant Engineer Gordon. In his opinion the Hudson Bay road is much easier to build than was the C. P. R., and no doubt should be as great a success as that line.

G. H. Bancroft, who has mining interests north of LePas, believes that the possibilities in the minerals in New Manitoba were very great, the indications found on his previous trip being so much worth looking into that he and several assistants were prepared to make a new start shortly.

C. Halcrew, retired factor of the Hudson's Bay Company, who has resided for forty-three years in this district, and has lived for eight years at Hudson's Bay, ridiculed the statement made by eastern papers and other interests that the navigation there is impossible for the greater part of the year. In his opinion and judging from personal observations, he believes that navigation can be kept open for eight months in the year.

OUT OF DANGER.

Hon. Clifford Sifton is Improving and Will Be Able to Leave Bed Soon.

Ottawa, Oct. 23.—Hon. Clifford Sifton, who has been confined to his rooms at the Chateau Laurier, is much improved to-day. His physicians state that he is now out of danger and will be able to leave his bed shortly.

LEGAL FIGHT LIKELY.

Big Singer Block in New York Projects 15 Inches Beyond Building Line.

New York, Oct. 22.—The department of public works of New York City has just completed a series of surveys which, it declares, shows that the Liberty street side of the big Singer building projects fifteen inches beyond the building line.

A formal legal notice will be served upon the owners that they must pare down the building or the city will do it for them.

The owners declare that no alterations will be made until after some very active litigation. Their answer to the formal note will be an injunction.

PIRATES ACTIVE.

Washington, D. C., Oct. 23.—Piracy again has broken out in Philippine waters, according to advices received from Manila. The Philippine government is taking vigorous steps to suppress it. The pirates are reported to be active in the Sulu archipelago and the government has authorized the construction of a cutter at a cost of $100,000, the plans for which have been drawn by Collector of Customs Stanley. The cutter will carry two Hotchkiss rapid-fire guns and two motor boats.

NORWEGIAN ELECTIONS.

Returns Show Radicals and Socialists Are Gaining Ground.

Christiania, Oct. 23.—The general election is going strongly against the government. Out of 123 seats, the returns for 95 are complete. In the case of 47 the results are indecisive, requiring another election. Of the others, only fourteen seats were won by the government, while the Radicals captured 29 and the Socialists 5.

NATURALIZATION LAWS.

London, Oct. 23.—The question of peculiar anomalies of the naturalization laws was raised in the House of Commons last night when Sir Edward Grey declared that persons naturalized in Canada did not thus become British subjects in the strict sense of the term; they were only naturalized as within the limits of the Dominion.

Replying to a further question Sir Edward said that those inequalities had been recognized and a measure will be introduced during the present session which will seek to make a uniform law for the whole empire.

Who Wrote This Letter?

"Victoria, B. C.,"
"October 5th, 1911."

"To The Hon. Richard McBride,"
"Prime Minister of B. C."

"Dear Mr. McBride:—"

"Will it be possible for you to arrange a settlement of the Songhees Reserve matter without further delay. I have, as you are aware, devoted nearly nine months of my time to the work and I feel safe in saying that I am responsible for the removal of the Indians. During the time I was engaged in bringing about the settlement I could have made more money with less anxiety—than I now ask—in my own business, which was absolutely neglected. To come quickly to the point I consider that I have earned one hundred thousand dollars ($100,000.00) and this is the sum I am prepared to accept to complete the work—save and except a fee of four thousand dollars ($4,000.00) to be paid by you for the services of an auctioneer for four days when the date of the sale has been decided upon. You also to pay the cost of printing, publicity and advertising necessary in connection with the said sale. For your guidance I may point out that Senator Riley told me that the Dominion government would pay one hundred and fifty thousand dollars ($150,000.00) to the man who brought about a satisfactory settlement and I do not think that I am asking more than I have justly earned. The usual 5% (five per cent) paid to real estate brokers would give me seventy-five to eighty thousand dollars ($75,000.00 to $80,000.00) to say nothing of the special work in dealing with the Songhees Indians. Many Liberals as well as Conservatives have openly stated to me that I was entitled to the sum I have asked if not more owing to the great benefit that will accrue to the city—all of which I am sure you fully appreciate. Please remember that I do not for one moment forget that the results could not have been obtained had you once failed to confirm my promises to the Chief of the bands and his tribe, all of which was strenuously and faithfully carried into effect by the Hon. W. R. Ross and your government."

"Yours faithfully,"

TURKISH TROOPS MASSACRE PEASANTS

MORE THAN HUNDRED SLAIN IN COLD BLOOD

Bulgarians Shot After Being Ordered to Lie on the Ground

Sofia, Oct. 23.—The massacre of 147 Bulgarian peasants by Turkish soldiers in the village of Girneno, near Kotschana, is reported by the correspondent of the Organ Mir. The Turks, according to the correspondent, ordered the peasants to lie on the ground and then shot them in cold blood.

The Bulgarian army crossed the frontier on the western side of Bulgaria and is operating separately from the army marching on Adrianople. The upper reaches of the Bregalnitza, Struma and Mesta rivers are now commanded by the Bulgarian troops.

During the fighting on October 13 before Djumbala the Bulgarians captured three Turkish field guns, some ammunition and took 140 prisoners. At Metomia two companies of Turkish troops surrendered.

The newspapers report that the Bulgarians have captured several important positions around Adrianople and Djumbala, after severe fighting, but official information is lacking. Those accounts report that the Turkish troops are retreating from three forts adjacent to Adrianople.

A Bulgarian force attacked the Turks retreating from Djumbala, which is due south of Sofia on the Struma river. Many Turks were killed, hundreds were taken prisoners and three guns were captured.

LEPER COLONY.

Proposal to Establish Settlement on San Clement, off the Southern California Coast.

Los Angeles, Cal., Oct. 23.—The establishment of a colony on San Clement, off the Southern California coast, for the care of all lepers in the country, according to information made public to-day, is being recommended by County Health Officer Sawyer. The plan has been referred to Dr. S. D. Brooks of the United States public health service. Dr. Sawyer said he proposed to prepare for emergencies when the Panama Canal was completed.

MORE TROUBLE IN ONTARIO SCHOOLS

Parents Instruct Children to Walk Out When English-Speaking Inspectors Appear

Toronto, Ont., Oct. 23.—Racial prejudices are strongly aroused and French-Canadians of Hawkesbury and district are lined up with their compatriots to fight the bilingual school regulations. Separate schools supporters are instructing their children to walk out when the English-speaking inspectors appear.

GOING HOME TO FIGHT AGAINST TURKS

Nearly Three Thousand Volunteers Will Sail From New York This Week

New York, Oct. 23.—Nearly four thousand Greek and Serb volunteers were quartered in New York city to-day awaiting the sailing of the ships to which they have been assigned. About 3,000 of them have been provided for on liners sailing Thursday ond Friday. The remainder will have to wait until next week.

Professor Pupin of Columbia University, who is at the head of practically all the Serb organizations, is making preparations to provide transportation for 1,000 men every ten days. If the war is prolonged he expects to send at least 12,000 of his countrymen abroad.

"The Serb reservists come mainly from the West," said Prof. Pupin, "principally from Montana, Colorado, Arizona, New Mexico, Minnesota and Michigan. Most of them are miners. Butte, Mont., will lose more Serbs than any other city."

Will Fight for Country.

Globe, Ariz., Oct. 23.—More than 150 Montenegrins and Servians, all of them miners, left on a special train yesterday to take part in the Balkan war.

Kneel on Street to Pray.

Davenport, Ia., Oct. 23.—Following a parade through the business streets, 300 Greeks knelt on the street to pray near the railroad station here before leaving for home to fight the Turks.

THRESHING IN CANADIAN WEST

RECENT STORM DELAYED OPERATIONS

With Favorable Weather Work May Be Completed in Two Weeks

Winnipeg, Oct. 23.—That two weeks will see the windup of threshing is the opinion of W. A. Matheson of the Lake of the Woods Milling Company, provided that the weather is seasonable.

Inquiry at the offices of the milling company, whose organization covers practically all the western Canadian wheat belt, would show that 75 per cent. of the threshing is now completed; that the yield of wheat, according to the threshing returns, is exceeding 18 bushels to the acre, both in Saskatchewan and Manitoba, and that not more than 30 per cent. of the crop is yet marketed.

Some districts report as high as 90 per cent. of their grain threshed, and but for Saturday's snowstorm many districts in Saskatchewan would be already wound up. The storm in question has set back threshing from the stook for a few days, but the delay is not serious as in most cases there were stacks to go on with.

The great movement of the crop is going on steadily. Of the enormous volume of moving grain now being handled, Monday's inspection totalled 1,299 cars and there were 1,800 cars on hand yesterday.

On the Winnipeg market of Monday's inspections 958 cars were wheat, of which 768 were of contract grade. Included in the inspection were 169 cars of oats, 98 of barley and 74 of flax. Oats are moving freely and 72 cars of No. 2 C. W. went through for eastern mills yesterday.

Grain Shipments.

Montreal, Oct. 23.—Thirty per cent. of the grain shipped so far this year from North America has gone through the port of Montreal. This statement is borne out by figures in the hands of James Carruthers, of James Carruthers & Co.

"Congestion is to be feared," he said, "as there is so much grain in storage at Fort William. The government authorities are alive to the situation and are doing their utmost to help by endeavoring to keep navigation open in the Great Lakes during the month of December."

HEAVY FIGHTING IS IN PROGRESS

TURKISH POSITIONS CAPTURED BY ALLIES

Greek Commander Tells of Defeat of Turks Who Are in Retreat

London, Oct. 23.—Bloody, portentious battles are being fought on every side of the Balkan peninsula to-day, military experts believe. While the allied armies of Bulgaria, Servia, Montenegro and Greece have doubtless had the best of the preliminary skirmishes and continue to take small Turkish fortresses, villages and towns, it remains to be seen which side will be more successful in the main theatre of war.

Both Turks and Bulgarians claim to be advancing in the vicinity of Adrianople. Everything seems to indicate that the Bulgarians have deployed the bulk of their main army from the Mustapha Pasha-Adrianople line to the Djumbala-Kirk-Kilisseh line, and are attacking the Turkish front between the last-named places and Adrianople, while attacking the extreme Turkish right to the east of Kirk-Kilisseh. From this latter point reports have reached here of serious conflicts, the details of which are withheld.

The Servian Advance.

The Servians, who are more free with news about their operations, continue their advance. One of their armies has taken the town of Pristina and another is at the gates of Kumanova.

An official report by the Servian commander says that the Turkish troops, after offering a desperate resistance, are falling back along the whole front, and in their precipitate retreats are leaving behind them quantities of supplies and ammunition.

Around the town of Novipazar brisk fighting has been in progress for several days, and the Servians are said to have suffered severe losses. They have captured some of the surrounding towns, although Novipazar itself is holding out.

Most of the Servian successes have been won over mixed forces of Albanian tribesmen and Turkish irregulars. They will not come into contact with the trained Turkish troops until they reach Uskup.

On Greek Frontier.

Greek reports disagree as to the situation on the Greek frontier. One of them reports heavy fighting on the road between the town of Elassona and the Turkish base at the town of Servia, while another declares that the Turks are in full retreat. A similar state of affairs existed yesterday when the Greeks gave out that the Turks were fleeing, and it turned out later that a big battle was going on which had not concluded when darkness stopped it.

All the armies in the field are hampered by their wounded, for, although they have fairly good hospital accommodations at their bases, in most cases they have to bring the wounded to the rear in slowly-moving ox-carts. This is the only transport available to the Servian armies in Novipazar, where there are many wounded.

Movements of Fleets.

A message received here from Constantinople by indirect route and dated October 22, says the Turkish fleet has left a torpedo boat flotilla to carry out the blockade of the Bulgarian coast. The Turkish battleships, it is said, are lying at the entrance to the Bosphorus, and it is expected they are about to return to Constantinople and refit, after which they will go out into the Mediterranean and engage the Greek fleet. The Greek naval forces are divided into three flotillas, one of which assisted in the landing of Greek troops at Katerina, on the Gulf of Salonica, another is holding Lemos and a third is bombarding the Turkish port of Prevesa.

The investment of Kumanova, says a Belgrade despatch to the Times, has begun. The united Servian and Bulgarian forces have occupied Kotschana and Kratova.

About 1,000 Bulgarian prisoners of war have arrived in Constantinople, according to a special dispatch from the Turkish capital.

Servian Successes.

Belgrade, Oct. 23.—News of the capitulation of the Turkish town of Kumanova is momentarily expected. The third Servian army, despite the desperate resistance of the Turkish forces, has reached within striking distance of the town.

As a result of yesterday's fighting the Servians also gained command of the river banks and marched on to the plain of Kossovo, where, later in the day, they captured Pristina.

The Turkish troops, while retiring, destroyed a number of bridges, but the Servian engineers succeeded to-day in restoring communication and supply trains are now running from Ristovats on the Servian border to the front of the Servian army.

(Concluded on page 12.)

RESIGNATION OF HON. F. D. MONK

SIR WILFRID ON MINISTER'S ACTION

Declares Withdrawal From Cabinet is "The Beginning of the End"

Sorel, Que., Oct. 23.—Before an audience of more than 7,000 persons gathered from Sorel and all parts of Richelieu county, and with a large contingent of some thousands brought in by excursions from Montreal, Three Rivers, Nicolet, Iberville, Berthier and St. Hyacinthe, Sir Wilfrid Laurier and a goodly number of his chief Liberal helpers yesterday made appeals for the election of A. P. J. Carin, the Liberal candidate in Richelieu county against E. A. D. Morgan.

The leader of the opposition expressed great confidence in the result of the election, going so far as to predict that as September 21 was spoken as a memorial date, October 24, the date of the election in Richelieu, would be another day which would be referred to.

He and all the other speakers made constant reference to the reported intention of Hon. F. D. Monk to resign on account of the navy question, Sir Wilfrid speaking hopefully of it as "the beginning of the end."

He said Mr. Monk would have deserved sympathy and respect if he were resigning to save his honor after having made conditions with Mr. Borden before accepting the portfolio he now holds. Otherwise he thought that Mr. Monk showed considerable naivette and guilelessness if he accepted the portfolio without seeing the inevitable outcome.

The train from Montreal bringing in Sir Wilfrid Laurier was met at the station by Mayor LaFreniere, and the leader of the opposition was conducted to the stand in the park, where already a large audience had gathered. After the band had played and a large number of bombs had been exploded, two young ladies, Misses Anne Lisotte and Marion Casavant, presented two bouquets of flowers.

The crowd applauded the speakers liberally and the whole afternoon passed off without incident, but some of the citizens resented the presence of the Conservative candidate, Mr. Morgan, and a remark he made toward the end of the meeting. They asked him to withdraw. He withdrew and listened to speeches in which his name was frequently mentioned.

CRUSHED TO DEATH.

Winnipeg, Oct. 23.—E. Neilson, a waiter in the C. P. R. dining car service, believed to be from Montreal, was killed in the coach yard of the C. P. R. station. He was passing between two cars when the switch engine struck them and crushed him between the buffers.

WILL SUCCEED THE LATE SIR C. MOSS

Sir William R. Meredith to Be Chief Justice of Ontario

Toronto, Oct. 23.—Announcement was made here yesterday that Sir William Ralph Meredith will receive the appointment as chief justice of Ontario to succeed the late Sir Charles Moss. Sir William, who is at present in Europe gathering data on workmen's compensation, is not expected to return to Canada before November 15. His appointment may not be announced until his return. He is 72 years of age and is regarded as a judge who has no superior in Canada.

COL. ROOSEVELT.

Physicians Declare He Must Have Absolute Rest For Few Days.

Oyster Bay, L. I., Oct. 23.—A long night's sleep largely offset the wearisome trip of Col. Roosevelt from Chicago to Oyster Bay, and he was greatly refreshed when he awoke this morning. He expected to sit up for several hours.

Word was given out that no visitors would be permitted to see the colonel to-day. His physicians told him yesterday he must see no one until Thursday, and that upon his obedience of their order for absolute rest might depend his chances of resuming the work of the campaign later.

To-morrow, if the patient continues to improve, he probably will be permitted to see George W. Perkins, Senator Dixon and William H. Hotchkiss, New York state Progressive chairman, for a short conference.

The colonel's physicians are expected at Sagamore Hill this afternoon to dress his wound.

We are prompt, we are careful, and use only the best in our work

KILNS TO BE REBUILT.

Vancouver, Oct. 23.—Before leaving yesterday for Winnipeg on important railway business, Col. A. D. Davidson announced that arrangements for the establishment of car-building works at Port Mann with an initial capacity of ten cars daily had just been completed. It is understood that the plant will be completed in time for beginning manufacturing operations next summer.

Col. Davidson spent yesterday afternoon at Fraser mills, where the dry kilns of the Canadian Western Lumber Company, of which he is president, were destroyed by fire Monday. He gave orders for the immediate rebuilding of the kilns. The fire loss is covered by insurance.

UNION OF B. C. MUNICIPALITIES

Ex-Mayor Planta, of Nanaimo, Delivers Opening Address at Winnipeg

Revelstoke, B. C., Oct. 22.—Expressing his gratification at the assistance given to the union executive by Attorney-General W. J. Bowser and H. H. Watson, M. P. P., chairman of the municipal committee of the legislature, ex-Mayor Planta, of Nanaimo, president of the Union of B. C. Municipalities, opened the eighth convention here yesterday.

In his address, delivered to some 40 delegates from all parts of the province, President Planta declared that the keen interest of the attorney-general in the union work was a great source of satisfaction. He referred in a similar manner to the legislative municipal committee, and said that the union executive was greatly pleased with its assistance, leading to many changes in regulations. Special reference was made in the address to the action of the provincial government in appointing a municipal government commission. The president noted that the executive's recommendation for a redrafting of the municipal clauses act under such a commission was accepted by the government and need not be pressed further. He said he considered the wide scope of the commission and the choice by the government of Messrs. Keary, Bull and McLean would meet with general approval. It was announced that the executive would meet this commission in Vancouver on November 13.

The following committees were appointed:

Resolutions—Mayor Lee, New Westminster; Reeve Weart, Burnaby; Mayor McNeish, North Vancouver; Reeve Dick, Mission; ex-Reeve Pound, South Vancouver.

Credentials—Mayor Shaw, Nanaimo; Mayor Jones, Kelowna; Councillor McKenzie, Surrey.

Audit—Mayor Robinson, Kamloops; Alderman Gray, New Westminster.

Letters of regret of their inability to attend the full convention sessions were received from Premier McBride, Hon. W. J. Bowser, Hon. Price Ellison, Hon. Thos. Taylor and Alderman W. S. Ross. It was suggested that possibly Messrs. Taylor and Ross might attend the closing meetings.

Reeve Harvey, Point Grey, read a paper, advocating government of cities on the same lines as parliamentary government, the mayor and executive committee of three or five salaried officers to be elected at large, the remainder of the council similar to the cabinet in parliamentary practice, and the members of the executive committee subject to control to council by two-thirds vote.

Various resolutions submitted by the resolutions committee were dealt with, the most important being a request that the government appoint a royal commission to inquire into telephone rates throughout the province, and a resolution that municipalities be given power to own, equip, purchase or carry on the business of telephone communication within their own borders or by arrangement with adjacent municipalities or districts.

At the evening session Alderman McKinnon, Revelstoke, read a paper on municipal finance, and various resolutions of minor importance were endorsed.

ALLEGED PLOT AGAINST BECKER

WITNESS RECALLED BY ORDER OF JUDGE

Takes Further Testimony Before Permitting Defence to Close Case

New York, Oct. 22.—The defence in the trial of Police Lieut. Charles F. Becker, charged with the murder of Herman Rosenthal, the gambler, rested its case a few minutes after noon yesterday without calling Becker to the stand.

Justice Goff declined to let the defence rest, and reopened the case without motion from counsel in order to take further testimony along the line of the alleged conspiracy against Becker by Rose, Webber, Vallon and Scheppes.

Justice Goff, taking matters in his own hands, said: "There were certain questions put by the defence to the witness which I excluded before. I now permit you to put those questions," he said to John McIntyre, Becker's counsel.

Mr. McIntyre said he declined to put the questions now as he preferred to let his case stand as it was.

"Then I direct the district-attorney to ask the witness these questions," said Justice Goff, "in the interest of the defence."

Mr. McIntyre's objections were disregarded.

The action of the defence in announcing that it desired to rest was unexpected. Mr. McIntyre had said less than an hour before that he expected to call Becker to the stand.

The session had been taken up mainly with testimony introduced to sustain the contention of the defence that the informers, Rose, Webber, Vallon and Scheppes, had "framed up Becker" to save themselves. Character witnesses were then called and McIntyre announced that he was through.

By the court's direction "Jack Sullivan" was recalled.

"What did Rose say to you in the council room?" asked the district-attorney of Sullivan. "He said: 'Self-preservation is the first law of nature. I had to testify against Becker to save my life.'"

"What did Webber say?" "He said: 'I'm the happiest man in the world. That d— Rosenthal is dead, and I don't have to worry about his getting me now. Now Jack, it's all been fixed up by the district-attorney for you to corroborate when we testify. We are all Jews and what do we care about that Dutch — Becker anyhow.'"

"Did Rose say anything else to you?" "Yes, he said he and Webber and Vallon and Scheppes were going to frame up Becker, and I said: 'Why you bald-headed—. What do you mean by this?' He said: 'Well, you know self-preservation is the first law of nature.'"

Sullivan said he took no part in the assassination of Rosenthal nor in the alleged conspiracy of Rose, Webber, Vallon and Scheppes to assassinate the gambler.

"Bridgie Webber said to me: 'The only way you can get out is for you to do as Mr. Whitman says and swear you saw Becker at Forty-second street and Sixth avenue a few hours after the murder. If you do that you will get out, like we all will after the trial. If you don't, you'll be indicted and spend six months in jail.'"

"Did Webber offer you money to corroborate him?" "Yes, he said: 'For God's sake, Jack, say that you saw Becker as we will testify. If you want any money I'll give you $1,000 now and when you get out we will go into the hotel business. I'll put in $25,000 and we will divide the profits evenly. All you have to do is to lie for us. If you lie, it's all right. If you don't you'll go to jail.'

"I told him I'd go to jail, and he asked me to name my price. I told him I did not have a price when it came to swearing a man's life away."

Justice Goff declared the case closed for both sides late in the afternoon.

Lloyd Stryker, of Becker's counsel, made the usual motions for a dismissal of the indictment and that the jury should be instructed to acquit the defendant.

"All your motions are denied," Justice Goff replied.

To Mr. McIntyre's request for an adjournment the judge replied he would grant it on condition that both counsel complete summing up to-day. McIntyre said he was willing to pare down his time to four hours.

"Mr. McIntyre will have until 2 o'clock to sum up," said the court. "We will then take a recess until 3.30 o'clock and the district-attorney will have until 7.30 o'clock in the evening to make his address. I shall charge the jury on Thursday morning."

NINE STITCHES IN HIS HEART.

Philadelphia, Pa., Oct. 23.—John Thompson, a negro, has just left the Pennsylvania hospital, well and strong, after surviving the operation of having nine stitches taken in his heart. Thompson was stabbed in a quarrel several days ago.

DELEGATES DISCUSS FARM PROBLEMS

Sessions of International Congress Well Attended—Women Open Meeting

Lethbridge, Alta., Oct. 23.—After the enthusiasm and opening jubilation, the International Dry Farming Congress yesterday took off its collective coat and got down to individual hard work. Throughout the day no general meetings of the congress were held, but the organization was split up into its component sections, each of which became an animated forum, busy with discussions of particular interest to dry farm work, agricultural forestry, agricultural engineering and experimental stations, farm management, scientific research, crops and breeding and agricultural education, and all found exponents and advocates and numerous discussions ensued.

A feature of the programme was the opening yesterday of the second international congress of farm women. Mrs. Leslie M. Stavert, of Winnipeg, who is president of the organization, convened the assembly. Mrs. Bulyea, wife of the lieutenant-governor of Alberta, welcomed the delegates on behalf of the Dominion. Addresses were also delivered by Mrs. Marshall, wife of the Dominion minister of agriculture; Mrs. Fred Downer, Mrs. Stavert, Miss Frigerior of Uruguay, Dr. J. H. Hamilton and Dr. Widtsoe.

At this afternoon's session of the women's congress, Dr. J. H. Worst, president of the North Dakota Agricultural College, delivered an address on "Educating the Boy For Farm Life," while Miss Matthews, superintendent of the Oklahoma Women's Institute, spoke on "Farm Homes." Other speakers were Dr. James A. McLean, president of the Idaho University, and Miss L. A. Harkens, Montana State College of Agriculture.

The gathering of women, which took place at Knox church, was said to be the largest assembly of women delegates ever gathered at a convention in Western Canada, many widely-separated districts being represented, the organization having affiliated societies in South Africa, Belgium, Uruguay and Australia, while many others are now being organized.

The Prize List.

The general remainder of the prize list of the congress was published yesterday and its completion closes one of the foremost features of the congress. The most noticeable feature of the list itself, however, is the preponderance of Canadian awards. Most of the events were open to the world and all the eastern provinces of Canada and their integral districts and towns were represented, as well as districts and communities in the northwestern states. In nearly every grain-growing class, however, the Canadian farmers came out on top and it was only in such southern grains as maize, corn, etc., that the sub-border agriculturists made any showing and in these classes the Canadians made no effort to exhibit. In the first place, a Canadian, H. Holmes, of Raymond, Alta., took the open sweepstakes for wheat; J. Lanigan, of Elfros, Sask., came out victorious with his oats; A. Woolley, of Dunmar, Alta., with his peck of flax, and N. T. Tartniger, Claresholm, displayed the best threshed grain for a district, while A. Perry, of Cardston, Alta., had a splendid exhibit, and so the list went on.

A. Perry, Cardston, Alta., wins the award for the best individual farmer's exhibit, while Cardston carries off the honors for the best district exhibit for grasses and forage crops. The best exhibit of sheaf grain goes to Pincher Creek, and Indian Head is second. Indian Head and Cardston are first and second in threshed grain. In garden and field seeds, A. Perry, Cardston, first. The Cardston board of trade captures Alberta's board of trade trophy, Indian Head taking the open board of trade trophy.

The best alfalfa prize was awarded to H. F. Maunsel, Macleod and Nelson secured the awards for the best box of fruit. All competitions save the Alberta board of trade are open to the world.

Manitoba won the grain judging competition. Other British Columbia prize winners follow:

Class 261—Jelly and fruit, Mrs. Norman, Mirror Lake, B. C., second.

Class 251—Display box fruits: First, Nelson, B. C.

Class 327—Best peck potatoes: H. Matheson, Armstrong, B. C.

Field peas, single—Third prize, F. Bernard, Notch Hill.

Celery—First, A. Buckley, Armstrong, B. C.; second, J. D. Nicholson, Salmon Arm, B. C.

Cucumbers—Second, A. Buckley, Armstrong, B. C.

Mangels—First, F. Newberry, Nanaimo, B. C.; second, J. E. Van, Salmon Arm, B. C.; third, A. Buckley, Armstrong, B. C.

Table carrots—Second, J. A. Richards, Salmon Arm, B. C.

Stock carrots—First, J. Crans, Salmon Arm, B. C.; second, D. Graham, Armstrong, B. C.; third, A. Buckley, Armstrong, B. C.

Marrows—Third, J. D. Nicholson, Salmon Arm, B. C.

Early potatoes—First, D. Graham, Armstrong, B. C.

Late potatoes—First, D. Mathewson, Armstrong, B. C.; second, A. Buckley, Armstrong, B. C.

FIRE AT TRURO.

Truro, N. S., Oct. 23.—Truro had a $40,000 fire Monday evening, when the McKay block, in the heart of the city, was wiped out. The blaze began with the upsetting of a lamp in the millinery establishment of Madame Lunn. The flames seemed to break out into the street in a moment. The stone building of the Bank of Nova Scotia on the north side stopped the progress of the fire in that direction, but it extended south, destroying the premises of half a dozen firms. The fire department had a hard fight, but by one o'clock they had the conflagration under control.

NAVIGATION ON GREAT LAKES.

Plan to Extend Season—Shippers and Insurance Men May Reach Agreement.

Ottawa, Oct. 23.—Hon. Robert Rogers has all summer been working on a plan to extend the period of navigation on the Great Lakes by a month so as to get down that much more grain by water. Arrangements for icebreakers at Port Arthur and Fort William have already been made, so that this phase of the situation has been met. The main obstacle has been the subject of insurance.

Hon. Mr. Rogers had a conference with R. J. Dale, vice-president of the Montreal Board of Trade on Monday. The question from every standpoint was thoroughly discussed and Mr. Rogers said at the close of the conference that he was very hopeful that a satisfactory arrangement would be reached between the shippers and insurance men for a prolongation of the navigation service. An announcement will be made shortly.

FOUR SERVIAN COLUMNS ADVANCE

TURKS OFFERING STUBBORN RESISTANCE

Heavy Fighting on Frontier Where Number of Blockhouses Are Captured

Belgrade, Oct. 23.—The four Servian armies are advancing slowly into Turkish territory, but are meeting with stubborn resistance from the Turkish troops, according to official reports here from the front.

The Servian army, operating in the direction of the fortress of Uskup, has reached the vicinity of Kumanova, only ten miles north of Uskup. The Servian troops captured the outlying positions around the town yesterday, and a general attack on the town itself is expected.

The Servian army had a serious engagement Monday with a strong force of Turkish troops and Arnaut irregulars, estimated by the Servian commander at 40,000 men, with ten companies of Turkish reserves and four batteries of artillery. The fight took place in the Hocstidel Pass, in the vicinity of the Servian towns of Rashka and Yenipazar, on the Servian frontier.

The Servians took the offensive and captured the entrance to the pass after some very heavy fighting. The Turkish troops then retired and the Servians were able to pass through on to the plains of the Turkish province of Kossovo. The Servian army was unable to advance farther by reason of the darkness, but the weather generally is excellent for military operations.

The losses of the Servian troops were considerable, while those of the Turks are believed to have been very heavy.

Another Servian army operating in the northern part of Novipazar has captured all the Turkish block houses and advanced positions around the town of Sienitza.

The first column of the second Servian army has captured the town of Kotschama, 45 miles east of Uskup. One report has it that before retiring the Turks massacred many Christian inhabitants.

The first convoy of wounded men reached Belgrade yesterday. It consisted of about 150 men, the majority of whom were only slightly wounded. King Peter has crossed the border in a motor car and was enthusiastically received by the troops.

Attack by Greeks.

Athens, Oct. 23.—The Greeks yesterday afternoon attacked the Turkish guards in the defiles of Sarandaporo river, on the road from Elassona to Servia. They met with vigorous resistance.

After a short engagement yesterday against the Turkish garrison, a landing party of 500 Greeks occupied Kastro, capital of the island of Lemnos. Three Turkish officers and 52 men were made prisoners.

Elections in Turkey.

Constantinople, Oct. 23.—The general election is going strongly against the government. Out of 124 seats the returns for 95 are complete. In the case of 47 of these the results are indecisive, requiring another election. Of the others, only 14 seats were won by the government, while the Radicals captured 29 and the Socialists 4.

JURY DISAGREES IN ARSON CASE

John Bradshaw, Tried at Nelson Assizes, Will Have New Trial

Nelson, B. C., Oct. 23.—The whole of yesterday was taken up at the assizes in hearing evidence in the arson case in which John Bradshaw is charged with starting a fire at Nook Ranch on Granite road.

Constable McLeod identified the candle found at the scene of the fire as one owned by Bradshaw and marked by McLeod in Bradshaw's room.

Much evidence was given by witnesses who testified to seeing Bradshaw on the evening of the fire at times which were irreconcilable with Bradshaw's own account of his doings that evening.

Bradshaw also gave evidence in his own defence, denying any knowledge of the fire and accounting for his time during the evening.

The jury disagreed, and there will be a new trial.

The case in which A. P. Balsom is accused of the murder of C. A. Barton, proprietor of the Manhattan saloon, is expected to come up to-day.

AFTER EFFECTS OF ELECTION

ANARCHICAL RULE IN MANITOBA

Political Methods of Rogers and Roblin Sure to React on Borden Government

Ottawa, Oct. 22.—It is altogether likely that the recent bye-election in Macdonald, Man., will prove a boomerang little to the taste of either the Borden administration or the Roblin government of the province, which worked hand in glove to secure the election of Alexander Morrison, the Conservative condidate. There is scarcely any doubt that the election will be protested, and that when it comes before the courts there will be such a flood of testimony as to the manner in which the campaign was fought as will not merely upset the election but reveal the Roblin and Borden administrations in a decidedly odious light.

Not merely this, but the very weight of the majority rolled up for Morrison by all sorts of devious methods has proven embarrassing to the Borden government. The manufacturers, and everybody who has an axe to grind in the way of increased protection or resisting any reduction in the tariff, have used the result in Macdonald as an argument with which to try to club the government into granting all sorts of tariff favors. They declare that the contest was fought purely on the tariff question—the wider markets policy of the Liberals against the restrictive high tariff ideas of the Conservatives, and ever since the result has been announced their representatives have been active looking for further favors at the expense of the producers and consumers. In its anxiety to cinch the election the government o'erleapt the mark and put a rod in pickle for its own back.

There was some slight idea throughout the country that extreme methods were being adopted to secure the defeat of the independent candidate when it became known that a number of his workers were being arrested and held on various quibbles without bail until after the election. The method was so drastic, and the excuses for holding the men seemed so disproportionate to their deprival of liberty that people wondered what was going on.

Then the facts started to leak out, and it became known that the Borden-Roblin combination had a big force of all sorts of "detectives" and special constables of all degrees of rascality shadowing the Richardson workers, and, under various flimsy pretexts, arresting such of them as seemed to be doing the most effective work. In fact Col. Gustave Boyer, M.P., a French speaker from Montreal, stated that he had been constantly shadowed by detectives throughout and had narrowly escaped arrest himself. He declared that the Roblin methods had reduced the country to a state of anarchy, and that to his knowledge a certain justice of the peace had filled out a number of warrants in blank, so that the name of any active Richardson worker could be inserted and an arrest made. In fact Mr. Boyer stated that one of these blank warrants had been filled in with his own name, but not executed.

A case in point, a fair sample of many similar ones, was the arrest of young Walkinshaw. He was a bright young man who had secured a good position at Winnipeg, and moved there from Ontario with his wife and children. Having a little time to spare he offered his services to the Richardson campaign for nothing, and did such excellent organization work that he was honored with arrest at the behest of the Borden-Roblin horde.

Reporting this amazing affair, the Winnipeg Free Press says:

"A warrant is secretly secured charging him—well, what is he charged with? Nobody knows. Immediately before the daily express reaches the town he is arrested, rushed on board the train and carried off in the night to Winnipeg. He is torn away from the locality where the circumstances attending his operations are known, where the witnesses, for him or against him, live. In a word he is kidnapped.

"He arrives in Winnipeg late at night in charge of a constable. A lawyer who meets him at the station is forbidden to speak to him. He is hustled to the provincial jail. The following morning his lawyer calls at the jail and is permitted to see him; but before he has passed the time of day with him the young man is rushed from the room, thrown into a taxi-cab, hurried to the station and shipped off to Portage la Prairie jail. Kidnapped again!

"At Portage la Prairie, defenceless, unknown, he is arraigned immediately upon his arrival and remanded to jail until Saturday without bail. So far as known the only incriminating evidence adduced against him to date is the discovery in his pocket of a list of voters!"

And this was not an isolated case. There were a number more, and probably others unreported, where men were arrested with no crime but that of working against the Borden-Roblin combination, and then illegally held so as to prevent them working until the election was over. Having found that their money could not ensure success the Borden-Roblin combination resorted to a system of terrorism which would have done credit to Russia, and which evidently made itself felt. Amongst the foreign element of the riding, many of whom in their home lands had been too well accustomed to such domination.

Discussing this state of affairs editorially, the Winnipeg Free Press blames the public for it, stating that it could not exist unless Sir Rodmond Roblin had been aided in it by the apathy of the public, who allowed it to go on, blinding themselves into the lazy belief that such things could not exist in a British country. It says:

"This sluggishness of public sentiment and the party madness which makes men morally color blind in political matters have made possible the steady degradation of our political methods in this province until they have reached a pass which is unspeakable. Manitoba is no longer a country in which there is a free and natural expression of public opinion; and to the extent that it is restricted by arbitrary methods, by perversions of the law and by corrupting agencies, this province has ceased to be a free democracy."

But at last the Roblin-Borden combination has overstepped the mark. Not only will the manner in which Macdonald voters were corrupted and bulldozed be shown in the election courts, but it will inevitably be enquired into at next session of parliament, and Alexander Morrison will in all probability have some unpleasant times in his seat trying to avoid an explanation as to how he contrived to usurp it.

JUDGE WIDENS SCOPE OF EVIDENCE

Over-rules Objections of Counsel for Defence in Conspiracy Case

Indianapolis, Ind., Oct. 23.—Further widening of the scope of evidence to be introduced at the dynamite conspiracy trial was ordered in rulings by Federal Judge A. B. Anderson yesterday. When the government began calling foremen of the jobs where the explosions occurred, Senator J. W. Kern, counsel for the 65 defendants, objected on the ground that the details of the explosions were not material to the government's charges of illegal interstate shipments of explosives. District Attorney Charles W. Miller held that the evidence was relevant as tending to show a motive.

Judge Anderson overruled the objection and also overruled another objection that some of the overt acts as charged were eliminated by the statute of limitations.

"Any overt act tending to show a conspiracy is competent," said Judge Anderson.

A five hundred dollar cheque was identified by Miss Mary Dye as having been issued to various defendants from the funds of the International Association of Bridge and Structural Ironworkers.

Miss Dye, who was bookkeeper for J. J. McNamara, secretary of the union when he was conducting a dynamite campaign, testified that many cheques, made payable to Eugene A. Glancey, of San Francisco, were charged up as "advance to Clancey." The government charges the money was used to promote explosions.

James L. McManigal, the father of the confessed dynamiter, was in court yesterday in readiness to hear his son testify, which probably will not be for a week.

Angus Campbell & Co., Limited, 1008-10 Government Street

Coats—Wonderful Variety

Campbell's store has proved to the women of Victoria and suburbs that its enormous stock of Fall Coats has no equal; the great variety of coats that are being sent out daily to customers who are expressing their complete satisfaction of their purchase, is evidence enough to give any woman who selects a coat here that desired feeling that she is getting value for value, no matter what the price.

The New "Johnnie" Coat

La dern iere crie—one of the smartest coats of the season, in soft reversible blanket cloth of different tones. This coat shows the new ONE-PIECE IDEA. NO SEAM AT ALL.

Navy Blue Blanket Cloth Coat

With green stripes, large fancy collar and cuffs, trimmed with green cloth and large smoked pearl buttons—exclusive style.

Heather Mixture Reversible Tweed Coat

Brown and red predominating, reversible side being large brown check and half lined with shot silk satin de chene. Very chic indeed.

Myrtle Green Botany Cheviot Coat

With large collar and cuffs, trimmed with myrtle green sedan cloth and cherry tree cloth buttons—one of the very latest models.

Esturgeon Blue Blanket Cloth Coat

Very large collar and cuffs, trimmed with black military braid and silk buttons. Coat is half silk lined with black mouselline Duchesse silk.

RIFLE ASSOCIATION.

Council of Dominion Body Makes No Recommendations.

Ottawa, Oct. 23.—The report of the Dominion Rifle Association Council for the year 1912 has been made public. It contains no recommendations, and is the first report in many years which did not submit such to the annual meeting. The reason is that the council does not know just when ranges are to be moved from Rockliffe to above Britannia, and it is useless to make recommendations until the new conditions have been ascertained. Of course, the great need is for extra space, and in all probability this will be amply provided for at the new ranges. At the new ranges the D. R. A. should be made the greatest rifle meet in America. The attendance at Rockliffe almost equals the attendance at Fort Perry, which is the corresponding meet in the United States. The reason the D. R. A. is not boosted more is that the accommodation is already unequal to the attendance. With more urging it is believed there would be an attendance of one thousand men at the annual matches.

New York state's production of bricks last year reached a value of $5,918,000.

No Suffering Yets!

The unnatural suffering of so many women at times can be relieved by a little care and proper help. Beecham's Pills give just the assistance needed. They act gently but surely; they correct faults of the system so certainly that you will find better conditions prevail

Amongst Women Who Take

this renowned and effective remedy. Beecham's Pills will help your digestion, regulate your bowels, stimulate your liver. Headaches, backaches, lassitude, and nervous depression will trouble you less and less after you take at times—whenever there is need—

THE OTTAWA CRISIS.

The Colonist, with its usual assumption of more than human knowledge, scoffs at the idea of there being a political crisis at Ottawa. But how does it account for the announcement of Mr. Borden that if his naval proposals were not accepted he would dissolve Parliament? The meaning of that threat is now clear. It was directed at his Nationalist colleagues in the cabinet and his Nationalist supporters in the House. And what of the prediction of Mr. Monk that the coming session of parliament would prove sensational? Furthermore, what about the fact that not a single prominent Conservative in the province of Quebec can be induced to accept the portfolio vacated by Mr. Monk? And, again, it is said that Mr. Nantel, the Minister of Inland Revenue, will follow the example of his leader in the province and resign his portfolio. Signs are not wanting that Mr. Borden is confronted by a serious crisis, and experience has demonstrated that he is not a man equipped with the requisite endowment to meet a crisis with statesmanlike determination. The chickens are coming home to roost quite early in the day.

TIGHT MONEY.

There is nothing surprising, unusual or in any sense alarming in the fact that every autumn season experiences what is popularly termed a spell of tight money. Generally, financial conditions are governed by world finance, upon which international relations, peace and war, stocks and bonds, play an important part. Only at long and infrequent intervals do these, however, appreciably affect the flow of everyday currency. The spasmodic financial stringencies which pinch the man whose margin of surplus over commercial necessities is narrow, and which recur most regularly with the autumn season, are attributable to an entirely different cause. In the crop-moving season it results from two causes, the increased demand for loans and the increased demand for actual currency. Anomalous as it seems, the period during which heavy crop movements are in progress is the period during which the heaviest demands are made on the banks. Having arranged in advance for the amount of loans required the grain buyer draws on his bank for the amount necessary in his business. The effect of this is to deplete the funds available for short loans and mercantile accommodation. When the banks are carrying large credits to business concerns "money," in the commercial sense of the term, is scarce.

Meanwhile the farmer has descended upon the banks in the outlying districts and withdrawn his deposits in order to pay his harvest hands. These, who are for the most part transients, prefer bills instead of cheques and the "liquid" or flowing currency of the banks is again much depleted. It takes some of this money a long time to filter back into the ordinary channels of trade, as the hired men do not spend all their money immediately on their return to their native provinces. The complications arising from such conditions are understood fully only by bankers, and it was to meet such increasingly emergent conditions that the Dominion government added the emergency note circulation clause to the Bank Act. This clause permits the banks to issue, temporarily, notes in excess by fifteen per cent. of the regularly authorized issue. The period of this "excess note" circulation has this year been extended two months, but it is agreed among bankers that a continued tendency in this direction would make for an ultimate weakening of Canada's financial system.

It is satisfactory to have responsible assurance that the bankers of Canada are conservative upon this point, but the conditions have been met, and there is now among them in no quarter the slightest apprehension that the financial needs of the country this autumn will outrun the capability of Canadian banks to take care of their own or the country's requirements.

Regret is sometimes expressed that Canadian banks place such large sums on call loans in American metropolitan centres like New York and Chicago. The explanation of this feature of the Canadian banking business absolves the bankers from the charges of disloyalty so frequently levelled against them. Call loans abroad are accessible and available at any time. For this reason the Canadian banks when they wish to keep up the earning power of their money, go to Wall Street. The money loaned "on call" there is practically a cash reserve, but much better than such because it is earning interest which it could not do as cash reserve. The "call money" which these banks have out on Canadian securities is not a quickly available cash reserve, as the calling in of many of these loans at emergency periods would seriously depreciate the value of stocks and send the normal money markets into chaos. The banks would themselves suffer by decrease in the value of their securities, and in the end the public would be the inevitable sufferer.

While the average man may feel the pinch of tight money during certain seasons of the year, these experiences are no sign whatever that the country is going to destruction or that hard times are upon the nation. They are found to be the natural and proper result of the methods of finance which are imposed upon the fiduciary concerns carrying the burdens of the nation. It may not convey much momentary relief to know these things, but the knowledge will have a tendency to steady the mind and heart in many a dark hour when the pinched and incommoded business man or everyday citizen is tempted to take the darkest view of the future.

LAVERGNE'S CASE.

Not a few of the Eastern papers in dealing with the volte face of Armand Lavergne, M. P., on the arrangement under which he was to go to Europe and engage in the Balkan war, represent Mr. Lavergne as "resisting Borden's bribe." Others say he has "withdrawn his application." Thus are the facts tossed to and fro. What is probably the case is that Lavergne did ask to be sent to the Balkans. Until the resignation of Hon. F. D. Monk the Nationalist chiefs must have felt somewhat discouraged at the stand taken by their confreres, Pelletier and Nantel, in the Borden cabinet. Instead of standing by the Nationalist colors, these former fire-eaters swallowed themselves and decided that the sweets of office were more to be desired than political consistency.

It was not so with Hon. F. D. Monk, whose love of consistency has at least partially triumphed over political expediency. He has resigned and with his resignation has revived the hope of Armand Lavergne and a few others that they will still be able to make trouble for Borden on the naval policy.

There is little doubt that Hon. Sam Hughes was only too willing to arrange for Lavergne's removal from the country. Lavergne has some ability and not a little influence. If he could have been sent to Europe a first-class demagogue would have been out of the way. With Hon. Mr. Monk out of the cabinet and still retaining his seat in the House of Commons, it must appear that an understanding has been reached between him and other Nationalist leaders which bodes ill for Mr. Borden when the naval policy is brought down.

The extreme measures taken to represent that Mr. Monk is not at variance with the government on the question of an emergency contribution and the assertion that his ground of resignation is only that he insists on a referendum tell their own tale. They cannot be verified until Mr. Monk's attitude is disclosed in the House.

AUTOMOBILE SPEEDING.

Everyone who has driven or ridden in an auto car knows the exhilarating effects of speeding. The temptation to turn on vapor on arriving at a smooth open road or a well-paved street is all but irresistible to the average man, though he may be gifted with abnormal self-control and sound common sense. What it must be to the reckless and irresponsible drivers who appear to be daily increasing in number can only be imagined. Nearly every day brings news of a fatality and some days news of many fatalities, most of them avoidable and scarcely any of them in the nature of a pure accident.

The penalties inflicted upon clearly culpable chauffeurs does not seem to be adequate; they, at least, do not seem to have much deterrent effect upon the wholesale slaughter of pedestrians who have as much right to use the streets and roads as the drivers of these swift vehicles. Not a day passes that does not record narrow escapes from probably fatal injuries, and so common is this experience that those who are the "victims" of the escapes are becoming accustomed to accept them as a part of their every-day risk.

It must be obvious that investigations will have to be more thorough and the fixing of blame more specific than is the case in many instances. When a drunken chauffeur drives over a precipice and two or three people are maimed the public opine that the fault is their own for being passengers in a car driven by an incapacitated chauffeur. But when a car full of joy riders runs down and kills an innocent victim on the highway or street it is not enough for a coroner's jury to find that he met his death "accidentally."

A drunken, incapable or uncontrollably angry man who shoots another is indicted for manslaughter. There may be a thousand mitigating circumstances in his case, but the law is very severe and the penalties exacted are calculated to restrain this form of anarchy in human society. Yet how few of the men known to be culpably responsible for grievous injury or loss of life to others from automobile concussion are ever compelled to stand trial in a criminal court for so serious an offence.

Since the automobile has come to stay laws should be enacted to adequately protect the public, and they should be rigidly enforced.

WHY DID MACDONALD?

The Hamilton Herald, an independent newspaper with strong Conservative leanings, has a thoughtful and, we think, partially adequate summing up of the result of the election in Macdonald on October 12. Omitting all reference to the iniquitous and corrupt Tammany methods of the Roblin-Rogers machine, the Herald concludes:

"Frankly, however, this Conservative victory is no indication of public sentiment in the grain-growing west on the trade question. In the first place it should be considered that the constituency is partly an urban one, a section of it being in the city of Winnipeg, and that the rural part of it is in the outskirts of the city, where agriculture takes the form of market gardening even more than grain-growing. Market gardeners as a class are as much opposed to reciprocity as the manufacturers are. Another fact which undoubtedly had an effect on the result is the fact that the Roblin government has made peace with the Roman Catholic church in relation to the long-standing school dispute, the new arrangements being satisfactory to the church authorities, as it provides for the minority what is virtually a separate school system. This arrangement must have accounted largely for the fact that the French-Canadian vote in the constituency (no inconsiderable factor) went almost solidly for the Conservative candidate. And then there was the work of the extremely efficient Roblin-Rogers political machine, with the astute minister of the interior on the spot to supervise its operation. The combination of circumstances and conditions against Mr. Richardson was too great for any opposition candidate to overcome."

The remainder of the sensational story of the Macdonald election is being told in the various criminal courts of Manitoba.

Councillor McAdam, of Esquimalt, is, in the opinion of the Reeve of that youthful municipality, a very audacious man. The councillor actually quoted the legal opinion of the Deputy Attorney-General against that of the Attorney-General on a simple question of municipal law. And the Reeve, worthy man, was properly scandalized thereat.

• • •

A California woman who was nominated for a judgeship failed to pass the qualifying examination for the bar, and is denouncing qualifying examinations as man-made obstructions to woman's rights.

With ten thousand Russian Jews coming to Canada to form a colony in Saskatchewan, there may yet be hope of seeing a New Jerusalem in the west.

FULFILLED HIS CONTRACT.

From Harper's Magazine.

When the village decided that it could afford to have its streets sprinkled, old Fritz Pfankucken was put in charge of the wagon.

One day while on his rounds he stopped to gossip with a crony. And suddenly he looked up at the sky.

"Mein Gott!" was his exclamation, as he started his horses. "It iss going to rain!"

He turned in farewell and discovered an amazed expression upon his friend's face.

"I must hurry up," he called back, "and vater dese streets. Odervise it iss no use!"

THE PROPER WAY.

From the Philadelphia Press.

"Hello, old man; how do you find business?"

"How? By judicious advertising, of course."

Women's Winter Coats Full of Style and Cannot be Excelled for Quality

About 150 Different Styles to choose from at $20 and $25

IT is rather a big statement to make, but we are well within the bounds of moderation when we make it. You will not doubt the statement if you will visit the Mantle Department on the first floor and see the enormous showing of well made and appropriate garments that are now being offered at prices truly low for stylish coats, especially in the face of the fact that the winter has hardly started. The crisp and windy weather that we have been experiencing during the past few days have reminded many women that a good, big, warm and stylish coat is not really a luxury but a positive necessity, and it has been gratifying to hear the complimentary remarks that many of our customers have made about styles and values that we have spread before them.

Prices start as low as $12.50 and even at this modest figure there are some excellent styles to choose from. However, the garments that are attracting the most attention are the chinchilla cloth, double faced blanket cloths, and substantial tweeds that range in price from $20.00 to $27.50.

They come in a splendid range of colorings and styles, including some with smartly belted backs, others with stitched effects, large collars finished with wide lapels that can be worn open or fastened close up to the neck when occasion demands, and other styles that should strongly appeal to the woman who desires a coat that combines that which is really useful with refinement and style.

Every Kind of Women's Sweaters to Meet the Chilly Weather

IS now to be seen in the Waist Department on the first floor. They are the best values that we have met with this season and embody all the essential qualities that a sweater must have to make it of real value when days are decidedly cold and unpleasant. We do not claim that our prices are unusually low, but we are confident that the superior quality of the garments will appeal to all who see them as the best that can be purchased at the price.

GOOD WORSTED SWEATERS are to be had in colors grey and navy. They are a plain knit and have a neat collar that buttons close up to the neck. They are finished with a plain band down the front, and two patch pockets. Beyond all doubt these are a quality that cannot be duplicated at the price. Per garment $2.00

ALL-WOOL SWEATERS are to be had in white or cardinal. They come in a fancy raised stitch finished with plain bands and pearl buttons. V-shaped neck is the only style in this line, but for comfort and durability these garments are by far the best of their kind All sizes at, per garment $2.75

SILK SWEATERS—Here is an entirely new and handsome line. They come in white and grey, are a fancy knit and are well finished. Description is not very satisfactory, but we shall be pleased to show the garments to you. All sizes, and the prices range from $17.50 up to $25.00

"THE SHAKER KNIT" SWEATERS are a line that is worthy of special attention. Being made of all wool, and woven in a style that shows conclusively that the garments are made to give a full degree of comfort and satisfaction to the wearer, they stand head and shoulders above the ordinary garments for quality and sterling value. They have a roll collar that can be fastened close up to the neck, worn as a V-shaped style or can be fastened in a variety of ways between these two extremes. White, grey and fawn are the colors, and all sizes are to be had. Your choice at $4.75

BEST STOCK OF BLANKETS AND EIDERDOWNS

WE HAVE EVER FACED A WINTER WITH IS now waiting for your inspection on the main floor. Now is the time when you will get the full benefit of your investment and you will never have a better opportunity to buy a staple product at a more advantageous price.

TEMPTING VALUES IN ALL-WOOL BLANKETS

You can't help liking these Blankets, they appeal to your imagination as soon as you see them, and their quality makes a distinctly good impression on your mind as soon as you feel at them. They are great, big, soft, warm, light and comfortable blankets with a soft finish, are guaranteed to be woven from pure wool, carefully carded, and each blanket is finished off separately. We have them with the ordinary pink or blue finished edges or bound with a wide band of daintily colored satin. With the ordinary edges the prices for these beautiful blankets for full sized beds range from $7.25 up to, a pair.... $9.75

Finished with satin edges the prices for full sized blankets of superior quality are from $10.25 a pair up to $15.00

EIDERDOWN COMFORTERS

Are ideal bed coverings for cold weather. Not only are they so warm and beautiful to look at, but their lightness adds a comfort that cannot be imparted by any other class of bedding. We have a larger stock than ever to choose from. Some are covered with satin and are finished with heavily embroidered designs, others have satin fronts and sateen backs, and there is quite a nice assortment that are covered entirely with sateen to meet the strong demand that exists for an inexpensive but good comforter. All are well filled with good eiderdown, are ventilated and finished in a manner that even the most exacting woman will not take exception to them. A full range of colors are here to choose from and the prices start at $45.00 and range, according to quality, down to $6.75

Wise Men Buy Underclothing That Counts

AND not merely because garments are priced at an easy figure. True economy lays in the investment that brings with it perfect comfort, plenty of warmth, and durability that gives a fair return for your money. Here is a large assortment of the best of both Old Country and American brands that have won a reputation for the qualities that we have outlined above, and we are confident that any man will find it an easy matter to find just the style of garment that will suit his taste the best.

PENMAN'S SHIRTS AND DRAWERS, made of a natural wool mixture in a light weight are garments that should please many. They are very comfortable garments that are exceptionally durable. All sizes are to be had, and the price is small, Per garment ..... 75¢

Here are a Few Interesting Items From the Lace, Collar and Ribbon Departments

What a pleasing difference a smart collar, jabot, or a few touches of well chosen ribbons make to a garment, only those women who have given them a fair trial can fully appreciate. Of course, it is necessary to make a good choice and to apply these small but very important dress accessories with a little skill and good taste to get the best effects.

Here are some very fine examples that show good taste in design, and for quality are head and shoulders over any lines that we have been marked at similar prices. See them to be convinced of these facts.

MUSLIN COLLARS in Dutch and handkerchief styles, also side frills made of good lace and muslins are to be had at prices ranging from $1.75 down to ..... 25¢

BEAUTIFUL LACE COLLARS, made in the Dutch or the coat style are to be had in a great variety of new and attractive patterns, also many different qualities. Prices start as low as 25c each and range up to $4.00

JABOTS, in laces and muslin, are here in all the newest and most attractive styles. Prices from 25c each up to..... $4.00

REAL LACE COLLARS—Here is a very fine assortment to choose from, and women who like to wear a collar that is as dainty and as richly designed as she can imagine a collar might be, will be pleased with this showing. Prices start at $4.50

ROBESPIERRE COLLARS, the newest and most popular line that has appeared this season, are to be had in a variety of different styles and different qualities. Prices start as low as 65c and range up to $5.00

FANCY RIBBONS, 6 in. wide and valued at 35c a yard are to be sold to-day at, per yard ..... 15¢

FANCY SHOT AND DRESDEN RIBBONS are to be had in a fine assortment of patterns at only, per yard, 20c and ..... 25¢

FANCY STRIPED AND DRESDEN RIBBONS, 6 and 8 in. wide are now on sale at prices starting as low as 50c and ranging, according to quality, up to, per yard $1.50

Pemberton Chapel.—Next Sunday the regular monthly celebration of holy communion will be held in the Pemberton memorial chapel at 8 a. m., to which nurses, patients and residents of the neighborhood are cordially invited.

o o o

Conservatives Travel.—The delegation from the Victoria Conservative Association to the Conservative convention at Revelstoke left Victoria last night for the scene of the convention. The convention commences to-morrow morning and will conclude Friday evening. In addition to the delegates there will be present from Victoria, Sir Richard McBride, and G. H. Barnard, M. P., and R. F. Green, M. P. F. H. Shepherd, M. P. for Nanaimo is attending.

o o o

Pleasant Evening.—At the regular monthly social of Colfax Rebekah lodge, which was held in I. O. O. F. hall, Douglas street, last evening, five hundred was indulged in, about sixty members playing. The winners of prizes were as follows: Ladies' first prize, Sister Alice Brown; ladies' consolation prize, Sister Livingston; gentlemen's first prize, Bro. S. Bowers; gentlemen's consolation prize, Bro. T. Graham. Refreshments were served during the evening.

o o o

Classes Open.—The Y. M. C. A. Bible study classes commenced last evening, about fifty men being present, and first partaking of supper, which was served at 6 o'clock in the dining room of the institution. In future the classes will meet every Tuesday throughout the winter, the meeting to be preceded by supper at 6.30. The classes drawn up last evening were conducted by four teachers, R. A. Snider conducting one with the subject "The Life of Christ"; A. M. Shannon, "The Leaders of Israel"; H. G. Beall, "Life Problems"; and C. G. Raymond, "The Acts of the Apostles." A suggestion was also considered with reference to the formation of a literary class which would take up the study of classic authors, and may be adopted.

o o o

Juveniles in Opera.—A delightful juvenile entertainment is to take place on Friday evening at the Victoria theatre, when the musical and humorous comic opera by Gilbert & Sullivan, H. M. S. "Pinafore," will be presented by sixty Victoria boys and girls under the direction of Mrs. Davis. The opera is full of good rollicking fun from first to last, and both musically and in its portrayal of certain character types is one of the best which has been ever produced. The juveniles are all quite genuinely young, the eldest being still less than sixteen years old, while one of the little folks is still scarcely of school age. A four-piece stringed orchestra will supply the orchestral music, and patrons are assured of a really delightful entertainment. The production will be repeated on Saturday afternoon and evening.

Anti-Tuberculosis Society.—A special meeting of the Anti-Tuberculosis Society will be held on Tuesday next, at 2.30 p. m., in the Friends' hall, Courtney street.

o o o

Free Tuition in Forestry.—Chief Forester McMillan reports that he has received an offer from Prof. H. Winkenwerder, dean of the faculty of forestry at the University of Washington, to give free tuition for the winter session of his school to any Canadians who are desirous of taking a course in forestry. Any young men wishing to accept this offer can obtain all details upon application to the chief forester.

o o o

Shooting Competitions. — Arrangements were made last evening at a meeting of the Fifth Regiment Rifle Association for a shoot to be held on Thanksgiving Day at the Clover Point Range commencing at 9 o'clock. Seventy-five prizes will be offered for competition, about $300 being provided for this purpose. Four classes of riflemen will be served by the prizes, offering scope both for the beginner and the expert. Among the prizes there will be trophies for the highest score at each range. Lieut. Col. A. W. Currie will act as range officer and refreshments will be served at the hut.

o o o

A Coming Event.—A coming event of great interest will be the recital to be given under the auspices of the Ladies' Aid by Cyril Hayes on Tuesday next, at 8 p. m., in the Centennial Methodist church. Mr. Hayes is a recent pupil of the renowned Prof. John Duxbury, principal of the Manchester school of elocution. It is easily worth a dollar to hear Prof. Duxbury. He has crowded houses wherever he is advertised to entertain. Prof. Duxbury says of Mr. Hayes: "His progress as a reader and reciter has been remarkable. He is capable of giving scriptural recitals, and a miscellaneous set of reading to the delight and profit of all who hear him."

o o o

Record Shoot By Regulars.—No. 5 Co., under the command of Major Mills, complete their training at Rod Hill fort to-day and will return to the barracks. The right half of the company recently took part in a record-breaking practice, firing twenty rounds with the twelve-pounder quick-firing guns at Belmont Battery in 31 seconds, every round being a hit. Afterwards, the left half of the company fired its competitive practice at a moving target. Though the shooting of the left half was good it did not compare with the record of the right half. The former fired twenty rounds in forty seconds, as compared with the 31 seconds of the right half and scored hits with 18 out of the twenty rounds.

o o o

Mme. Gadski.—As a programme maker, Mme. Gadski, who is to appear at the Victoria theatre on November 8 has few equals. The prima donna takes special pride in the selection of her numbers and lavishes great care on their arrangement. Nor does she believe in confining her recital programmes to the heavy and classical. Such songs as Taubert's "Little Kinderlieder" have always formed a favorite feature, especially the soldier song. The long roll of the drum, the trumpet blast, and the martial glory of the childish pomp, delight the singer as well as the audience. Gadski laughingly accelerated the tempo until her hearers unconsciously beat time to the baby drum. It is doubtful if the prima donna is more thoroughly satisfying in a Wagner aria.

Real Estate Transaction.—An important real estate transaction was completed yesterday when Messrs. McCutcheon Bros. secured a site in View street between Quadra and Vancouver for the sum of $20,000. The vendors of the property were George Engle, of Calgary, and E. M. Thomasson, of this city, arranged the deal.

o o o

Centennial Church Anniversary.—The anniversary of Centennial Methodist church, Gorge road, one block from the Douglas Street fountain, will take place next Sunday. At 11 a. m. the pastor will preach a sermon suitable to the occasion, and at 7.30 p. m. a musical service will be given by the choir. The church anniversary will be celebrated in conjunction with Harvest Home and Thanksgiving services. The church will be suitable decorated for a Harvest Home service. The public are cordially invited to these special services.

o o o

Hour Changed for Opening.—The secretary of Court Victoria No. 8920, A. O. F., wishes to notify all members from now on through the winter months the court will open at 7.30 p. m. The next meeting will be held on November 6. A roll call of every member in this court will be read and it is the desire of the officers to have each member present to answer the call of his name, to celebrate the ninth anniversary of the court. The social committee will have something good in store for all. Members of all other courts will kindly take note of the date and be at the Foresters' hall on November 6.

o o o

W. C. T. U. Pound Party.—The annual pound party of the W. C. T. U. Men's Mission, Store street, was held yesterday afternoon from 3 to 6 o'clock, the president, Mrs. Wellwood, presiding. A very enjoyable programme of music and recitations was rendered during the afternoon by ladies from the different churches. The programme was as follows: Mrs. McAdams, solo; recitations by Mrs. MacCanbray and Mrs. Duckworth; Mrs. Weir's Scotch songs were much enjoyed and encored; Mrs. Driver and Miss Lee, musical selections. Greetings were received from the British Women's Temperance Union by Mrs. Pedder. The committee of management wish to thank the following ladies for their generous gifts: Mesdames Williscroft, Wilson, Johnston, Norman, Pedder, McCaubray, Braike, Driver, Johnson, Morrison, Lismore, Duckworth, Few, Taylor, Wellwood, Dempster, Flett, Keyworth, J. Hall, Rev. Dr. MacRae, Weir and Miss Law. The presents were as follows: Groceries, butter, fruits, preserves and jams, flowers, cakes, bread, fruit and vegetables. The following also sent cash contributions: Mesdames H. Wilson, Jenkinson, H. Hall, Morrison, McClary and Lee.

MANY EXCELLENT POSITIONS OPEN

Many good positions are open to young men and young women in the field of "Wireless" and of commercial telegraph service. The passage of the new United States law, effective October 1, compelling all sea-going vessels to be equipped with wireless instruments and manned by two competent operators, has created a wide demand for operators in the marine wireless service. Laws now require railways to use more operators than ever before. The Morse Telegraph Company, of Seattle and Portland, works in close connection with wireless and commercial officials, and can place graduates in good positions. It will pay you to write for full particulars.—Adv.

PHYSICAL INSTRUCTION.

School Board Committee Will Report Shortly on Subject.

The physical instruction in the schools which the school board proposes to introduce shortly, and upon which a committee is working, will give effect to the field work of the past two summers at Macaulay Plains, and to the drills given at the Drill halls to lady teachers in the vacation period.

Lord Strathcona intended in the creation of the trust that the actual benefit of the work done should be put to some practical use, and now that 60 per cent. of the Victoria teachers have that instruction, the time has arrived for practical application of the methods learnt on these occasions. The board has to consider the position in so far as it affects Supervisor of Physical Drill Ian St. Clair, who has done good service, and upon whose activities the teachers capable of imparting instruction will have to base their efforts. The general proposal now is that the teachers who are able to give instruction shall do so, and the supervisor exercise general control, and in those classes where the teachers are not able to impart instruction, Mr. St. Clair will continue the classes. Meanwhile the problem of dealing with the cadet movement will be laid over till the classes have been inaugurated or at any rate until a scheme has been definitely adopted.

The Finest Home In Victoria

"Regent Junior," $200

If you will take the trouble to look it up, will be equipped, you will find, with either a "Regent" or a "Regent Junior" COLUMBIA GRAFONOLA.

"Regent," $250

The reason is obvious: no other instrument compares with these highest expressions of the art of sound reproduction. They have more power than any other type, and therefore the variation of volume is greater. They have greater tone space than other types, insuring depth and richness, and increasing the "human" note. Moreover, they are equipped with a tone shutter attachment which enables one to decrease or increase the tone volume as desired.

Such REAL pleasure as is afforded by one of these superb instruments; such keen enjoyment of ALL the music of the world, old and new; such educational advantages, bringing the BEST in music into the home circle—these are wonderful advantages that YOU should discover for yourself.

"Baby Regent," $130

Every Barber Shop Will Now Close Sundays

It means that you will either have to shave yourself or else go unshaved on the Sabbath. It requires no skill—just five minutes of your time—to shave with a safety razor. If you commence shaving yourself on Sundays, you will want to do it every day. Thus you will make quite a saving each week and get satisfaction thrown in. We have a new and complete stock of safety razors, including the Gillette, also all the leading makes of open blade razors. Make your selection to-day.

TRAVEL FROM RUPERT SOUTH IS VERY HEAVY

Prince Rupert Arrives Here With Large List—Encounters Easterly Winds

Although southbound travel from Skagway has been very heavy for the past month it has only been in the last week that business from Prince Rupert has shown a remarkable increase. As is the case at Skagway, many people are now coming out from the interior to spend the winter in warmer climes. Those who have been in the interior of the province for the past summer report having had the best season's work in the history of the north.

The Prince Rupert, Capt. Barney Johnson, of the G. T. P. S. S. Co., arrived in port this morning from Prince Rupert, and had 80 first and 50 second-class passengers. Among those who came south on the steamer included the following: Rt. Rev. Boyd-Carpenter, former Bishop of Ripon, England, who has been on a trip in the north; L. Crippen, the boneless herring expert, of Prince Rupert; Wm. Manson, M. P. P. for Skeena, who is going to Revelstoke to attend the Conservative convention; J. Hull, of the public works department, Ottawa, who has been in the north on an inspection trip; W. Broderick, of the Union Bank, Prince Rupert, and Capt. Le Blanc, one of the Nanaimo pilots, who took the big Harrison liner Crown of Galicia from Nanaimo up the inside passage to Prince Rupert in 42 hours.

Enlarging Plant.

Mr. Crippen says that his company is planning large extensions this fall, and that by next spring they will be shipping boneless herring in large quantities. He is now in the south on business and will remain here for a week or so.

The Prince Rupert encountered strong easterly winds on her way south, and has considerable rain. She leaves for the north again to-morrow morning on her last trip as the mid-week boat. On her return next week the Rupert will lie over until Sunday, when she will relieve the Prince George.

DEEP SEA FISHING INTERESTING WORK

OFFICER ON TRAWLER TELLS HOW THEY FISH

Good Haul Anywhere Between 1,000 and 2,000 Fish—Have Two Trawls

Since the new steam trawlers Canada and Triumph arrived in port from Grimsby, Eng., to start fishing in northern waters for the B. C. Fisheries, Ltd., many people have inspected them. Few, however, have had the opportunity of having the work of the trawler explained to them and probably a short description of how this kind of craft fishes will prove interesting. J. Austrin, second mate of the Canada, explained to a Times representative the other day the whole workings of a trawler.

Two sets of trawls are carried by each trawler, but only one is used at a time, the other being held in case the nets of the regular trawl are broken. On each side of the craft both fore and aft are the galises, iron arrangements which are bolted to the deck and which extend upright at an angle which brings the ends over the ship's bulwarks. From the galis is suspended the otta boards, to which the nets are fixed. To each trawl there are two otta boards, which are about eight feet long and four or five feet wide, made of wooden planks and reinforced with iron bars. At the bottom of the boards are what is known as the shoes, which are composed of heavy iron plating. The shoes act similar to the keel of a yacht and keep the otta board erect when the trawl is out.

"Shoot Away."

As soon as all the gear is set in place the trawler is stopped and the order "Lower away the trawl," is given. The trawl sinks rapidly and owing to the weight of the shoes of the otta boards, and when at 15 fathoms it is held. From the bridge then comes the order of "Shoot Away," and the trawl is let go. The trawler then steams slowly away and the inch and a half cable, to which the net is fastened, spins off the drum of the [illegible] forward until about 175 fathoms has been run off, when the speed of the trawler is checked. The cable is then made fast on the after quarter, the net is on the bottom and the trawler is ready to fish.

The trawl, it may be explained, is about 130 feet long and the width of the otta boards about five feet. The trawl consists of the wings, belly and batenings, flopper and cod. The flopper is a very small mesh netting and prevents the fish from getting out of the net.

Steam For Two Hours.

After steaming for about two hours with the nets down the trawler is stopped and the order give, "Let go aft." The fastenings of the cable parted, the otta boards are heaved up to the galises and the fore and aft quarter ropes taken to the winch and the bosom of the trawl hauled up. All hands set to hauling in the net, till it becomes too heavy, when rope brackets are placed around the cod end and the net is heaved up forward. While the trawl is suspended it is the duty of the second mate to untie the cod end, when the fish tumble out on deck, all alive and kicking. The fish are then gutted, washed and placed in the fish locker, among the ice.

Austrim says he has seen the net come to the surface of the water, after the trawler had been stopped, by the efforts of the fish alone. He has also seen the trawl so full of fish that in order to get them aboard it was necessary to make as many as three rope buckets. A good haul is anywhere from 1,000 to 2,000 fish.

Superstition follows in fishing the same as in any other trade or profession. Some fishing captains will never shoot the starboard trawl, while others will never let go the port one. They also have many other little fads, which to the landlubber seem absurd.

AIDS TO NAVIGATION

The fixed red light shown from the Hospital Rock buoy in Victoria harbor during the winter months will be again established on the 1st of November, 1912. Mariners making use of this light must do so with caution as the buoy on which the light is exhibited is liable to be dragged out of position by passing booms of logs.

The floating light shown on the Burnaby Shoal, Vancouver Harbor, lately established, has been accidentally carried away and is missing from its station.

Mariners must govern themselves accordingly.

ANOTHER OPIUM FIND.

Seattle, Oct. 23.—Seventy-five five-tael tins of opium, with an American value of about $1,500, were found in a suitcase on board the steamship Albion when she docked here yesterday from Port Angeles. A search of all her baggage was followed by the arrest of S. H. Johnson, a fireman aboard the Albion, who denies ownership of the baggage or any connection with the smuggling.

WEPT AND PRAYED AS BOAT LAY HELPLESS

Distressing Scenes on Carino After She Dropped Propeller Off Coast

San Francisco, Oct. 23.—Once more the value of the wireless equipment at sea has been proved. In tow of the steamer Watson the coastwise steamer Camino arrived here to-day, six days out from Portland, with a story of furious weather, danger and disablement. Thanks to the wireless, the period of suspense was only momentary. With 80 passengers on board, many of whom had never been to sea before, the Camino cleared from Portland a week ago to-day.

About 100 miles off Astoria she ran into a stiff southeast gale which increased in velocity until it touched 80 miles an hour. Heavy seas swept the decks, smashed in doors and flooded the staterooms. The terrified passengers gathered in the saloon, many of them praying and weeping. The gale raged all night. Every plunge forward lifted the ship's keel high out of the water and the engines raced furiously.

At half-past five Saturday morning, there was one particularly violent flurry and the propellor dropped to the bottom of the sea. At that moment the Camino was 15 miles off shore with the wind carrying her farther to sea.

Watson Answers Call.

"S. O. S., S. O. S.," the wireless began to splutter, calling for help. In but a moment came an answer from the Watson. In three hours the Watson was standing by, but the sea was still so heavy that it took two hours longer to pass a cable on board. After that the voyage was uneventful.

Bearing the marks of the same gale, the lumber steamer Temple E. Dorr, bound from Los Angeles harbor, also put in here yesterday.

HELD IN PORT BY GALES LEEBRO AT LAST SAILS

After being held in port for two days owing to the strong southeasters which have been blowing, the steamer Leebro, Capt. Hunter, of the marine department, left port this morning. She had stores aboard for Race Rocks and owing to the bad seas which were running in the Straits it would have been impossible to land the supplies at the lighthouse. The Leebro is to go down the west coast as far as Estevan.

The steamer Quadra, Capt. Macpherson, left port yesterday morning for the Gulf to do some work. She will replace the Sandheads buoy and recharge a number of other beacons. It is expected that she will be back in port by the end of the week.

HEAD LIGHTS

MARINE MINISTER PLEDGES SUPPORT

NAVAL RESERVE WILL NO DOUBT BE FORMED

Something Definite Expected Shortly in Regard to Formation of Reserve

It is now practically an assured fact that the Naval Reserve, of which mention was made some time ago, will be formed on this coast within a very short time. Capt. Jarvis, secretary of the Merchant Service Guild of British Columbia, who is promoting the proposition, has received a letter from Hon. J. D. Hazen, Minister of Marine and Fisheries at Ottawa, in which he states that he is well pleased with the action of the seafaring men of this coast. He has promised to back up the proposition, and it is expected that something definite will be announced shortly.

Before any steps can be taken here in the formation of the reserve the Dominion government will have to give its consent. The government will have to provide for the training of the masters, officers and seamen who join the reserve, and it will take much of the time of the Ottawa officials before any policy is announced in regard to the scheme.

Would Be Fine Thing.

When the movement was launched considerable opposition was met with, but since the Duke of Connaught and a number of prominent shipping men in this province have pledged their support the promoters have found their task somewhat easier. The Naval Reserve on this coast would be an excellent institution and give British Columbia a great deal of prominence.

It is intended to have those who enlist in the reserve to spend a certain period of the year—probably two weeks—in training. The captains and officers will be depended upon to take the warships up through the inside passage and act as navigation officers on the coast if war should break out and British Columbia be endangered, and the seamen will reinforce the crews of the ships.

GALE SPRINGS UP AND PILOT HAS TO GO TO SEA ON SHIP

Astoria, Ore., Oct. 23.—The Peruvian barque Cavour encountered the full force of the recent storm, narrowly escaping being wrecked and sustained some damage.

The Cavour, bound for the West Coast with lumber, crossed out at 6 o'clock Friday evening in tow of the tug Wallula, and with Pilot Wood on board. As she was on the shoal the gale broke and before she could be taken far enough out to slip the hawser the seas were rolling so high a small boat could not be lowered, and Pilot Wood had to remain on board. During the night the wind attained great velocity and the vessel's sails were torn to ribbons.

Under bare poles the barque was driven to the north, and for a time it was feared she would go ashore, but by hard work she was kept outside the line of breakers. The Wallula stood by all night, but was unable to get a line on board until Saturday morning, when the craft was towed thirty miles off shore. New sails were bent and the craft proceeded on her way.

FIREMEN STRUCK FOR NEW MATTRESSES AND GOT THEM

San Francisco, Cal., Oct. 23.—The departure of the steamship President for Seattle was delayed for three hours Monday by a strike against the Pacific Coast S. S. Company by the Marine Firemen and Watertenders' Union of the Pacific.

Thirty-five policemen patrolled the wharf, while 425 passengers waited until the company could reach an agreement with Secretary Patrick Flynn of the union, permitting the thirty-nine men to return to work. The disagreement arose after a demand made by the men for new mattresses had been refused. Objections also were made to other accommodations for the men, who returned to work after new mattresses had been provided.

WORKMAN STEAMING HERE FROM 'FRISCO

Harrison Liner May Be in Friday Night — Monteagle Leaves Day Late

Advices were received here to-day stating that the big Harrison steamship Workman, 6116 tons, left San Francisco for this port last evening. She should arrive here late Friday night or early Saturday morning, and will remain in port for a day or two putting off several hundred tons of general cargo. The Workman brought a huge cargo around from the United Kingdom, but has discharged most of it at San Pedro and San Francisco. She also has considerable cargo for Vancouver. Her return cargo to Europe will be loaded at the Golden Gate and will consist principally of canned goods.

It was learned this morning that the R. M. S. Monteagle, Capt. Davison, which is steaming across the Pacific from the Orient, was a day late leaving Yokohama, which will more than likely bring her in here on Sunday morning. The C. P. R. steamship has a large list of passengers, including several hundred Orientals as steerage.

Orteric to Take Fish.

The Weir liner Orteric will load 2,000 tons of salt fish at Vancouver for the Orient, according to arrangements completed yesterday. The liner is now on passage from Yokohama, having sailed from the Japanese port on October 15, and is due in here on Oct. 31. She will call here with 500 tons of cargo on her way to the Sound and will later proceed to Vancouver to load.

TAMBA SHOULD MAKE THIS PORT TO-NIGHT

Maru Has Been Steaming Hard and Will Be at William Head at 6 o'Clock

Agents for the Nippon Yusen Kaisha expect that the steamship Tamba Maru, Capt. Wada, will arrive at William Head this evening before sundown and will be passed by the quarantine officials. In a wireless from the master of the ship this morning he said that he would be at the station by 6 o'clock, but as it is dark before that hour some doubt was expressed to-day as to whether she would be passed at the Head or not. No doubt Capt. Wada will drive his command up the straits at increased speed and run no chance of being shut out at the station and forced to remain there until early to-morrow morning, thereby holding her silk shipment 12 hours.

The Tamba is making a fast run across the Pacific for this time of the year. She is out just over 14 days from Yokohama. The Tamba will put off 500 tons of cargo and should be away and at Port Townsend to-morrow morning by sunrise. She has a silk cargo valued at $750,000 and also a large cargo of general merchandise for Seattle and Tacoma.

The R.M.S. Empress of Japan, Capt. Robinson, bound from Victoria to the Orient, was spoken last night by Triangle 2,000 miles from Vancouver. The white liner did not report the Monteagle, which she should have have passed before this.

COMAL HITS HARD; FLOATS OFF AGAIN

Mobile, Ala., Oct. 23.—The Mallory Line steamship Comal, which left Mobile yesterday afternoon with a cargo and passengers for New York, was reported to-day hard aground on Sand Island, near the entrance to Mobile Bay. Tugs were sent to her assistance.

The steamship was floated by tugs to-day and resumed her voyage. A wireless report says the vessel was not damaged.

IKALIS IS NEARLY WRECKED IN STORM

Puts Into 'Frisco—Loses Two Boats, Engineroom Flooded and Upperworks Torn

San Francisco, Oct. 23.—Caught in the same southeast gale that played such mischief last week with the steamers Camino and the Temple E. Dorr, the British steamer Ikalis, Capt. Clarkson, from Victoria and Portland for Melbourne, was driven off her course, severely buffeted and put in here to-day for extensive repairs.

The Ikalis ran into the gale 700 miles off the coast of Washington on October 16. Her deckload of lumber was shifted by her violent tossing, she lost two boats, her engine room was flooded and her superstructure torn and wrenched.

FULL LIST OF PASSENGERS SAILS SOUTH ON PUEBLA

Again the Wednesday morning boat for San Francisco was filled to her limit with passengers. The Pacific Coast steamship City of Puebla, Capt. Paulsen, left port this morning with her first, second and steerage accommodation taxed to its capacity. Among those who joined the steamship here were the following: Mr. and Mrs. W. H. Rowlands, J. Mitchell, W. H. Johnson, C. H. Hornsy, C. Gossip, H. H. Lewis, H. Ferris, G. H. Lipsitt, C. Fair, F. W. Morris, Mr. and Mrs. H. Stagthagen, Mr. and Mrs. Geo. Lloyd, L. G. Lipsitt and M. M. Crotter.

The Puebla had a large cargo of general freight and took on a small shipment at this port.

The Umatilla, Capt. Reilly, of the same line, is due in port to-morrow night from the Golden Gate and has 190 tons of cargo for Victoria.

HELM FAILS TO ANSWER; TIVERTON GOES ASHORE

While being piloted out of the harbor yesterday afternoon the steam schooner Tiverton, which had been in port all day discharging cement at Raymond's wharf, struck on Hospital Point when she failed to answer her helm. She only remained ashore a short time, as the tugs Petrel and Point Ellice went to her assistance immediately and pulled her off. She was slightly damaged under the forefoot. The Tiverton proceeded on to the Sound.

IS NOW SUNKEN HULK.

Norfolk, Va., Oct. 23.—The steamship Berkshire, which raced into Lookout Cove, N. C., Sunday, with her cargo of cotton afire last night, is a sunken hulk in shallow water. The fire is virtually extinguished. The passengers proceeded to their destinations.

Toronto, Oct. 23.—To-day the harbor commissioners of Toronto were asked to try and locate the motor boat "Go Soon," in which Elswood and Charles Ross left Smith's Falls for Toronto two weeks ago. Nothing has been heard from them since their arrival at Trenton a week ago on Monday, and it is feared that they have been lost.

TWO MONTHS FOR SUICIDE ATTEMPT

HARRY LA CROIX DID NOT REMEMBER

Knocked on Sweetheart's Door With Knife Saying "Here It Goes, Belle"

"Here it goes, Belle," were the words with which Harry LeCroix prefaced his attempt at suicide, while standing outside the door of the room of Miss Belle Lehmann, his sweetheart, in the Pulman rooming house the night of Friday last, grasping in his hand a dainty little pocketknife, the blades of which Miss Lehmann could not to-day remember to have seen opened. Instead of allowing her lover to commit suicide Miss Lehmann closed the door and called quickly to a young man, the friend of Miss Sophie Nicholson, who was in the room. The young man went to the door and took care of LaCroix until Constable Allison arrived and conducted him to the police station.

LaCroix this morning protested that he should not be sent to jail for having attempted to commit suicide, because he had no desire to take his life; in fact, he expressed a strong desire to live. Magistrate Jay, having heard the youth ha i made three attempts, two of them in the city jail, to take his own life, thought he would be better for detention and medical supervision, and ordered him to jail for two months. LaCroix said he knew nothing whatever of an attempt to take his life. It was news to him when he learned what he had been charged with, and if it were true it must have been due to the fact that he did not know what he was doing because he was drunk, and had been drinking for three days before he called on Miss Lehmann at the Pulman rooms.

They had been sweethearts for nine months, said Miss Lehmann, who is a waitress at a local restaurant, this morning, when she took the witness box to tell what she knew of the matter. She told the court that LaCroix had come to her room, which she shared with Miss Nicholson, in the Pulman block, and exhibiting the pocketknife had said: "Here it goes, Belle." As he was intoxicated and did not appear responsible, she had called the friend of Miss Nicholson, and he had gone to the door and taken care of LaCroix. She had no quarrel with him, which was borne out by the youth when he made his statement.

When LaCroix was in the city prison he attempted to hang himself with his necktie and afterwards tore up his shirt to make a rope for the same purpose. Each attempt was frustrated by Constable Allison and by prisoners in the jail. LaCroix has been in jail since Friday night last, awaiting trial, and when given the opportunity to elect a trial before the police magistrate or before a higher court, he said it did not matter to him because he did not know anything about it. Eventually he decided to take his trial at once.

NEW BRICK BLOCK FOR BROUGHTON ST.

Mellor Brothers Will Build Stores and Apartment House —Building Permits

Another business block is to be constructed by Luney Brothers on Broughton street, near the new opera house, at a cost of $30,000. It will occupy a site east of the theatre, and will consist of stores and apartments above.

Mellor Brothers, painters and glaziers, are the firm placing the order, and when the building is finished they will move from their present quarters on View street. C. Elwood Watkins is the architect for the building.

Building permits have been taken out by the following: R. C. Trew, five-roomed residence on Fourth street, costing $2,000; E. W. Vinall, five-roomed house on Robertson street, costing $2,000; Brock Robertson, seven-roomed house on Pembroke street, costing $1,900; D. C. McDowell, five-roomed house on Denman street, costing $2,300; S. Jennings, nine-roomed house on Dallas road, costing $5,000, and Dr. Riddell for a five-roomed house on Chester street, costing $5,000.

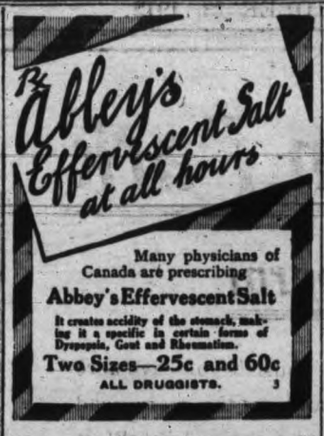
MOVING FRAME BUILDINGS.

Engineering Department's Attention Called to Store in James Bay.

Attention has been drawn to the moving of buildings by a case at the corner of Niagara and Menzies streets, where a store is being transferred to another part of James Bay.

The attention of the city engineering department having been called to the question, Assistant Engineer Foreman went out yesterday and found that the city had no power to interfere, as the trees which are being removed for the passage of the building are on private property, and the sanction of the owners adjacent is all that is required.

The building is a long way outside the limits, but the practice has been during the present year to discourage the re-erection of any wooden buildings within the fire limits, so that the perpetuation of this class of structure shall not be permitted. A case recently arose at the corner of Broughton street and Blanchard avenue, and it was laid down clearly that the council would only allow such alterations to be made as would be necessary to place the building in a safe position for occupation.



TENANT DEPARTED BUT TOOK THE KEY

Confectioners Disputed Accounts Before Judge Lampman for a Settlement

In the event of a tenant vacating premises and taking away the key after locking the door behind him, he is held by the judgment of Judge Lampman given this morning not to have vacated, even though he bought the lock and the key and attached the lock during his tenancy. Nor did it alter the result of the action when it became known that the tenant had sent word to the landlord that he might come and get the key, and also the rent. The action was that of Hodgson against Davis, in which the plaintiff claimed a month's rent and a similar amount for damages. Eventually he had taken possession of the premises by breaking a window and gaining an entrance.

The defendant disagreed on the point of entrance, denying that the landlord had broken the window. It was always broken, he said, and as far as entrance was concerned the front door of the store was never unlocked. All the business was done by means of the rear entrance. When the tenant took possession there was no lock on the back door, so he bought one, and on leaving believed he owned the key, and therefore took it away with him. He did not value the business position greatly, for, he said, it was on a back street, and since moving to a new location his business had doubled.

Judge Lampman did not think the plaintiff was entitled to two months' rent, and gave judgment for $40 with costs. Mr. Harrison appeared for the plaintiff and Mr. Mills for the defence.

Claiming $457, money alleged to be due on a statement of accounts between himself and P. Bancroft, Government street, James Christie, a confectioner on Yates street, this morning told Judge Lampman of the business dealings the parties had. The plaintiff wished to start in business and had only a little money. He applied to the defendant for a loan, but Mr. Bancroft was unable to oblige him. They arranged the matter by means of a draft which Mr. Bancroft put through the bank, giving the plaintiff part of the money. When the draft became due the plaintiff said he paid the full amount, the difference between what he received and paid being $50 in favor of Mr. Bancroft. There were a number of other drafts operated in the same way, and on each occasion the plaintiff paid more to the bank than Mr. Bancroft gave him on making the draft. There was one occasion, he said, when a draft was duplicated.

The defendant had set off a considerable sum of money, $283, for goods sold and delivered, but the plaintiff held that some of the goods had been received in August, 1911, paid for, and then recharged to him in August, 1912. There were a number of other amounts which he challenged, saying that he had never received the articles. The case is continuing. Frank Higgins is appearing for the plaintiff and J. A. Aikman for the defendant.

CRICKET MEETINGS.

Held Yesterday to Make Final Arrangements for Coming of Australians.

An enthusiastic meeting of cricketers of the city was held last evening in the J. B. A. A. hall when Q. M. S. Roberson presided. The coming of the Australians was discussed and everyone at the meeting was invited to offer suggestions. One proposal forthcoming was to present caps to the members of the representative provincial team as a memento of their playing against the distinguished visitors, while other suggestions embodied arrangements for the entertainment for the visitors while in this city. Reservations have already been made for Syd Gregory and his men at the Empress hotel where the party will stay during their five days' sojourn in this city.

Last night a long committee meeting was held to make the final preparations for the reception of the Australians and arrange the last details in connection with the three days' match which begins next Saturday morning. Another added feature to the programme which has already appeared in these columns is a dinner and smoker which is to take place in the Balmoral Cafe on Tuesday evening next at 8 o'clock. Dinner will be on the table at 8 o'clock, and the tickets will be $2 apiece.

A special reception body was chosen to meet the Australians at the boat when they arrive either on Friday afternoon or evening.

House agents letting furnished houses at a rent exceeding £25 a year in the United Kingdom must take out an annual license costing £2.

You'll Soon Need Lots of Weiler Bros. Ltd. Blankets and Down Quilts

SPORTING NEWS

QUERRIE PLANS TO STEAL COAST LACROSSE PLAYERS

Big Four Clubs Again Willing to Lose Money in "War" With B. C. L. A.—N. L. U. Will Probably Drop Out of Professional Game

Apparently the Eastern lacrosse moguls are not satisfied with losing a huge bank roll by their "war" last season. Reports from the East indicate a renewal of hostilities next spring, and the Eastern magnates are threatening to invade the Coast clubs and cop off all the gutted stick stars. The Big Four will again be doing business at the old stand, though the fate of the National Lacrosse Union is problematical. It is a certainty that two leagues can never exist in the East, and with the Big Four carrying round all the cash, from this distance it looks as if the N. L. U. will be the organization that will be casting out life lines very shortly.

Querrie Dreaming.

Charlie Querrie, the Muggsy McGraw of Lacrosse, and playing manager of the Tecumsehs, has tipped it off to his Eastern friends that he has rounded up three of the Coast players for next year. He figures on having McDougall and McGregor playing at the Island again, and is telling the Toronto lacrosse fans that Micky Ions is willing to return East. He also says that he will have Nick Neville who played with the Irish Canadians last summer. It is a rather pleasant prospect that Manager Querrie pictures, but wait until the time comes round and see if there is anything in Querrie's dream.

Jones Confident.

Con. Jones says that he will have every man of his team in line next year, and can any one imagine for a minute Micky Ions going back East for more than a visit? Ions likes the Coast too much to contemplate living in Toronto again, if only for the summer months. As for the two Mac's, they will be ready to hike westwards when Jones sends forth his orders next spring.

MARTY WALSH A POSSIBILITY FOR COAST HOCKEY LEAGUE

Manager Patrick Has Corralled Grand Bunch of Hockey Stars —No Truth in Story That New Westminster Players Will Remain in the East

Unless Ernie Johnson and Jimmie Gardner go back on the promise that they gave Lester Patrick in Montreal, last week, the pair will again perform before the coast hockey fans this season, despite the declaration of Sammy Lichtenhein, of Montreal, that he has come to terms with both players. Lichtenhein goes further and says that Harry Hyland may also be seen on the Wanderer lineup, but when one takes the "hop" shooting ability of the Wanderer magnate into consideration, there is little fear that all three will remain in the east.

N. H. A. to Meet.

Lichtenhein has thrown the National Hockey Association clubs into a furore over his assertion, and a special meeting has been called to deal with the matter. All the players who took part in the coast series last year were "outlawed" by the N. H. A., and these players must be reinstated before they can again play in the west. So far as Johnson, Gardner and Hyland are concerned, there is no need for the white washing. They will continue to play in the east. All three are booked to leave shortly for New Westminster.

Walsh May Come West.

It is rumored that Marty Walsh will accompany Dubbie Kerr to the coast. Walsh and Kerr were inseparable companions in the east, and as both intend going in for farming next spring, the boys may decide to spend the winter on the coast together. Kerr is coming for certain, while Walsh may also be induced to sign a B. C. H. A. contract. News that Donnie Smith is coming back will be welcomed by local fans with whom he was a big favorite. While in the east, Manager Patrick started a trade of Newsy Lalonde for Didier Pitre, which may be brought about. Pitre will be a more valuable man to Vancouver than Lalonde, seeing that he is a defence man, while Lalonde was a forward. If Marty Walsh can be secured, he will be alloted to Vancouver to fill the gap in centre ice, while Pitre and Frank Patrick will work in front of the nets.

Trip a Big Success.

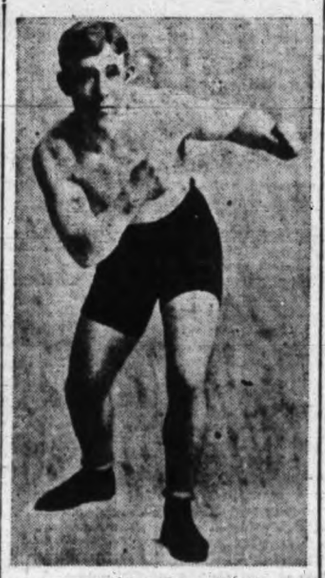
There is absolutely no chance of Art. Ross making the jump to the Coast League, his business interests in Montreal being too extensive to allow of his getting leave. Fred Taylor is a strong probability, and it is known that he and Lester Patrick have come to terms. It will be seen from that above, that the Victoria magnate has been highly successful in his effort to land the choicest hockey stars in the east. Some of the players he wished had already signed contracts, and he refused to act as a go-between to secure a boost in salary for such men. Taking everything into consideration, however, it will be seen that the real stars are headed for the coast where the best hockey in the world will again be provided for the enthusiasts.

GOOD ISSUES DEFI.

"On behalf of 'Sammy' Good, I challenge Barrieau or Bayley to meet him in a limited contest," declared 'Johnny' Leonard, Good's manager, at Vancouver. "We are willing to deposit $500 to go as a side bet. The boxers to make the lightweight limit at 8 o'clock on the day of the match."

MIKE DONLIN'S WIFE IS DEAD.

New York, Oct. 23.—Mabel Hite, actress, in private life Mrs. Michael J. Donlin, wife of the baseball player, died yesterday in her home in this city. Last June she underwent an operation for cancer. She was 28 years old.



FIGHTING DICK HYLAND

California lightweight, who will oppose Joe Bayley, at Calgary on Thanksgiving Day.

AUSTRALIAN ELEVEN SCORED EASY VICTORY

FOUND LITTLE TROUBLE IN DEFEATING WINNIPEG

Were Superior in All Departments — Totalled 108 for 3 Wickets

Winnipeg, Man., Oct. 23.—The famous Australian cricketers completed their visit to Winnipeg last night after defeating the local fifteen here to-day by seven wickets. As was expected, they proved themselves to be the superior team in every department of the game. Their bowling was magnificent, their fielding was as good as could be expected under the conditions, and their batsmen showed themselves capable of doing what they liked with the local bowling.

The Winnipeg team completed their second innings with a score of 132. Langton and McFarlane starred with the bat, the former scoring 20 runs and the latter 18. Jack Wright also contributed 20 runs.

The runs came fast when the Australians went to bat, Mayne being the big scorer with 45. They ran up 108 runs for three wickets. The weather was bright, and, though a cold breeze was in evidence, it was remarkable for Manitoba to play a cricket match so late in the season. After a banquet in the evening the visitors left for Victoria.

PITRE FOR LALONDE.

Pitre has written George Kennedy from the Sault asking what sort of an offer the Canadians are willing to make him this year, and declaring also that he has had a bid from Lester Patrick to go West. George Kennedy declares that he is willing to make a trade with Patrick, exchanging Pitre for Lalonde.

SOME FINISH.

At the last minute of play the Ottawa club pulled off a sensational victory over the Hamilton Tigers in the Inter-Provincial Football union Saturday, the final score being 7 to 6.

COAST OFFICIALS READY TO BLOCK NORTHWESTERN PLANS

Appeal to the National Baseball Commission for Class "A" Classification Will Fail According to Portland Baseball Expert — Talks of Club's Prospects

That the Northwestern League will be unsuccessful in its effort to secure Class "A" classification, is the statement that Doc Ackerman, the well-known Portland trainer, made to the Times this morning. "Doc," as he is popularly known, handled the Portland team during the past season, and is slated to handle the Victoria Hockey Club in the British Columbia Hockey Association this winter. Speaking of the attempt to secure higher rating for the Northwestern League, he says that the Coast League Club owners will never submit to such a concession being granted.

Will Block Any Deal.

"The coast clubs will block the deal by the simple method of claiming Portland as the territory of the Coast League. This will put a stumbling block in the way of the Northwestern officials, that nothing can overcome," is the way Ackerman figures the situation out. Portland originally belonged to the Northwestern League, but that was before the Coast League joined organized ball. Since then, Portland has been loaned, as it were, to the Northwestern, and any effort to secure Class A rating is likely to result in the cancellation of the "loan."

Likes Portland Kids.

Speaking of the prospects of the Portland Club, Doc, states that Williams has several promising recruits in view for 1913. He has a swell young catcher by the name of Murray, on his string, and expects a couple of other good kids. In the Coast League, the Portland team has a phenom in Cunningham, a nineteen-year-old third sacker, who is hitting about .400 and fielding a la Eddie Collins. He is a natural hitter, and appears sure to go up this winter. Norton a new first baseman, is also a sweet ball player. Ackerman also speaks well of Maymeyer, a huge south paw, of the Rube variety, who is twirling for Portland. This fellow pitched a no hit and no run game on Sunday against the Estacado nine for an all-star team, and won his game easily.

WELSH TO MEET.

A meeting of the Victoria Welsh Rugby Club will be held this evening at eight o'clock in the clubroom adjoining Rendall's poolroom. All members are requested to be present as important business will come up for discussion.

TROUBLE IN PRO. SOCCER.

All Is Not Harmony in Ranks of Victoria Professional Eleven According to Reports.

Rumors are current regarding internal trouble amongst the members of Victoria's professional soccer players. From one who is on the inside of affairs, the Times learns that all is not harmony in local pro. circles and unless a change is brought about the game is in danger. Saturday's match at the Royal Athletic grounds did not draw the crowd expected, and the result was not pleasing to the local players.

The withdrawal of the Ladysmith Club has affected the Island professional clubs to a great extent, and the Nanaimo elevens are now endeavoring to secure games with Vancouver clubs to fill out the season. Professional soccer is having a hard time to make ends meet in Victoria and elsewhere, and unless steps are taken to mend matters the game may disappear.

NAVY BEAT ARMY.

Won Every Bout at Chicago Tourney—Three Soldiers Knocked Out.

Chicago, Oct. 23.—The Navy was victorious over the Army in a boxing exhibition held last night at Fort Sheridan.

In four or five matches sailors from the naval training station at North Chicago were pitted against "regulars" and were victors in all of them, three of which were knockouts. The fifth contest between two soldiers was decided a draw. The boxing matches were held with the permission of the officers of the Fort and were a part of a series which have been arranged for the winter.

BAYLEY'S WORK IMPRESSES FANS

Calgary, Alta., Oct. 23.—Joe Bayley held his first work-out yesterday for the Thanksgiving day bout with "Fighting Dick" Hyland, and a big crowd watched him. The Victorian appears in good condition and a bit heavier than when he met Billy Allen here. The seat sale opened yesterday and is the heaviest for any bout thus far in advance. Edmonton fans took one hundred and seventy seats.

REMARKED ON THE SIDE

Need of Capable Officials.

In all sports, but more especially football, there is a dearth of capable officials. In the East to-day a situation exists which would have been prevented had a well-posted referee had charge of the game. The withdrawal of the Ottawa College team from the Inter-collegiate Rugby Football Union is due to no other cause than the incompetent officials who were appointed to handle the Queens-Ottawa College match at Ottawa two weeks ago. These men, with but a meagre knowledge of Rugby, went out and tried to please both teams. The inevitable happened, and the game broke up in a row. No one knew what the score was, and until the referee sent in his report to the league a week later, the teams did not know which had won. The league met and gave the game to Queens, and now Ottawa College, claiming unfair treatment, has withdrawn from the league. The remaining three clubs—McGill, Toronto Varsity and Queens—will finish out the season, but the absence of a fourth club will no doubt put a damper on intercollegiate football.

This Amateur is a Real Simon Pure.

According to a Winnipeg dispatch, Hammy Baker, a member of the Winnipeg Victorias, amateur hockey champions of the world, has turned down an offer of $2,500 to play in the Coast League. While doubting the truth of the amount offered, for Manager Patrick is too wise to offer twenty-five hundred dollars to any amateur, it is only fair to Baker to state that double the amount would scarcely have tempted him to make the jump. The members of the Winnipeg Victorias are all well to do, and there is not a member of that team who could be induced to turn professional. The team is a unique as well as a powerful combination, and will probably retain the Allan Cup for years. Speaking of big offers to amateurs it might be well to mention the name of Russell Bowie, of Montreal. This player, one of the finest that ever handled a stick, repeatedly turned down offers that ran up into the thousands to join the professional ranks. Our own Frank Patrick probably holds the record for a player jumping to the pro. ranks, he getting $1,800 when he accompanied his brother Lester to Renfrew three years ago, when Millionaire O'Brien of that town got the idea into his head that he would like to own a real pro. team. Well, he gathered up the most expensive team that ever wore the blades, but dropped something like $14,000 in a single season.

Claims That Hyland is All In.

That Joe Bayley will have an easy time disposing of Fighting Dick Hyland in their fight at Calgary on Thanksgiving Day is the prediction of a well-known local bettor, who has followed the fortunes of the padded mit artists for some years. The local dopester figures that Hyland has reached that stage where he is rapidly going back. He points out the fact that Hyland has not won a bout since 1909, also that he must surely have slowed up considerably since that date. If his dope runs true and Hyland is not the slippery customer that gave Packey McFarland and the other lightweight stars all they could handle a couple of years ago, Bayley will not find it hard to put him away. On the other hand, however, with Hyland going at top speed, Bayley will have a bunch of trouble on his hands getting the decision. Hyland has been noted for his speed and elusiveness, and unless he is a decrepit figure in the ring these days, he will put up a merry battle before going to the canvas.

A Difference in Chicago's Baseball Leaders.

One need not look farther than the Windy City to get a comparison on baseball magnates as they really exist. In Chubby Charlie Murphy, the scrappy leader of the Cubs, the Chicago fans have a club owner who cares not a whit for friendship, to whom the iron men are the chief objects in life. His recent dealings have brought his inner traits to the surface, and if one can imagine a more tactless deal than that which sent Three-Fingered Brown to the minors, the writer cannot. Here is one of the original Cubs. One of the men who helped Chicago to three championships and who was considered the pitching phenom of the age a few years back. Simply because he injured his knee stealing a base, the Cub owner figures that he has outlived his usefulness, and ties the can to him. Then there is the case of Manager Frank Chance. The latter, undoubtedly one of the brainiest men in baseball to-day, is let go simply because some of his veterans did not deliver during the past season as Chance expected they would.

No compare this mortal with Charlie Comiskey, the owner of the White Sox. It is not going too far to state that Comiskey is one of he most popular men in baseball to-day. He presented Ed. Walsh with a cheque for $1,500 for winning the Chicago City Championship, and now he has taken a party of fifty friends on a hunting and fishing trip that will stand him a small fortune. Comiskey does not make any rash statements when his team gets beaten, and the fact that he has spent over $35,000 on drafts for new players shows that he is determined to get a winner for the Sox supporters. To compare the two men is useless, for beside Comiskey, Murphy is nowhere.

COMING—SOME SPORTING ECLIPSES

SPORTING NEWS (CONTINUED)

PLAYERS LAUD WORK OF ROGER BRESNAHAN

St. Louis Manager Will Fight Steps to Oust Him—Contract Has Three Years Yet

Lacrosse, Wis., Oct. 23.—Eight St. Louis National League ball players, who are guests at the home of Edward Konetchy here, joined yesterday, on receipt of the Associated Press dispatch announcing the discharge of Manager Bresnahan, in a statement in which they expressed sympathy with Bresnahan and lauded his work as manager. The report of Bresnahan's discharge came to the players as a complete surprise. Rumor that there might be a sympathetic strike in Bresnahan's interest was denied by the players.

Mrs. Helene Hathaway-Britton, the owner of the majority interest in the club; J. C. Jones, president, and Lon O. Hooker, attorney, were present when Bresnahan was discharged. A man close to those in control of the team declared Bresnahan would not step out and would make a fight in the courts to compel the club to respect his contract, which calls for a salary of $10,000 a year and ten per cent. of the net profits.

LITTLE BITS OF SPORT GOSSIP

Mrs. Bell wishes to correct the statement that she was a professional swimmer more than one year. The B. C. branch of the C. A. S. A. reinstated Mrs. Bell without discussion.

• • •

Under Birmingham the Naps have played 28 games, winning 21 and losing seven for a percentage of .750. The world's series might have been staged in Cleveland had Harry Davis been convinced earlier that it was time for him to quit.

• • •

Amalgamation negotiations between the two syndicates which proposed to build new rinks in Ottawa have been broken off. Two independent rinks will now be built, according to present plans.

• • •

Ernie Johnson and Jimmie Gardner, according to present indications, will again be found in the West during the coming winter.

• • •

Joe Birmingham has signed his contract as manager of the Cleveland Naps for 1911. For once President Somers seems to have made a choice with luck breaking his way. Now if he will let Birmingham have a free hand in swinging the ax and smashing a few idols the Clevelanders may be made to count.

• • •

The post-season series between Seattle and Spokane was not a fair test for either club. Rain interfered so that only four games were played and several of the players of both teams left for their homes so that substitutes had to be picked up.

• • •

Everlasting statistics show that Christy Mathewson has worked in 16 games against the other three first division teams, with only an even break on the campaign. His record against Chicago is 3-2; against Pittsburg, one win and three defeats, against Cincinnati, 4-2.

• • •

The players of Connie Mack's team made about as much money out of a couple of exhibition games as they did from their series with the Phillies.

• • •

Big Ed Walsh again hops into view as a perennial wonder. Ed always does something, but delayed this year until the Chicago city championship. He held the Cubs to one hit, a single by Tinker, and that busy individual was the only Cub to attain second base.

• • •

Connie Mack's forgiveness extended to Rube Oldring as well as Chief Bender and both were taken back into the fold by the Athletic manager. It was specifically understood between players and manager that joy riding and all efforts to diminish the wine crop should cease.

• • •

Forrest Cady is the modest violet. He was asked why he had been selected to catch Joe Wood. His reply was that he supposed Wood picked him out because he was pretty tall and had the reach and the weight also to stop Joe's speed. Cady gave the impression that Joe is the boosing end of the battery and that all he has to do is to hold on to what Wood decides to serve.

• • •

Marquard announces that in his vaudeville contract it is stipulated that for each winning game he pitched against the Bostons he would receive $500 raise in his weekly salary. McGraw, who is also going into vaudeville, says that he has a contract calling for twenty weeks at $2,500 a week.

• • •

John Kling says his showing with the Boston Nationals would have been much better had John M. Ward gone and buried his head in a tub and kept it there. Kling points out that up to the time Ward quit the club it had won 25 and lost 65 games for a percentage of .271. From August 1 on, after Ward resigned, Boston won 27 and lost 36, a percentage of 429. Kling presents a good argument and it must be considered also that he had nothing to work with.

• • •

Mark October, 1912, in your dope book and recall it was one of the greatest days in baseball. The Giants and Red Sox played to an 11-inning tie, 6 to 6; the White Sox and Cubs battled nine innings, 0 to 0; while the Cardinals required 10 rounds for beating the Browns, 7 to 6. One pitched ball stood in the way of an unparalleled record. If Mack Allison could have performed a Joe Wood on Jack Bliss three of four post-season battles would have resulted in ties.

• • •

Having finished the American League season with a batting average of .411, Tyrus Cobb predicts that he will beat the .400 mark again next season. "At the beginning of the season," he said, "I declared I did not expect to reach the .400 mark, as I had the year before, considering two straight years too much for any man, but having done so again it seems nothing wonderful, and I now believe fully that I will do so again next year." Cobb led Jackson, of Cleveland, by .015 points and Speaker, of the Red Sox, by .029. Also he stole 61 bases.

MILITIA STOPS RACES IN INDIANA

Company of Soldiers Drive Horses With Their Jockeys Into Stables

Porter, Ind., Oct. 23.—Two companies of Indiana soldiers took possession of the Mineral Springs race track this afternoon under orders from Gov. Marshall to stop gambling and prevent races from being run. The soldiers kept everyone from entering and those who were within the enclosure, they held. This was "ladies' day" and more than fifty women were permitted to leave the track. The owners and promoters of the course also were within the enclosure.

When preparations were made for the first race Captain Kimball of a South Bend company ordered his men to fix bayonets and the horses with their jockeys, were driven back into the stables.

CALGARY FIFTEEN HOLD FINAL PRACTICE

Calgary, Alta., Oct. 22.—Calgary's All-Star English Rugby team last night held a final practice before starting for the Coast to play Vancouver and Victoria teams. New formations in scrum worked good and the players believe it will over-balance the weight of Coast teams.

WELSH RUGBY FOOTBALL CLUB.

A meeting of this club will be held this (Wednesday) evening at 8 o'clock at Rendell's Pool Rooms. Important business will be discussed.

All aboard for Sidney Friday night.

JOE TINKER IS BOSS OF CHICAGO CUBS

Chance Will Probably Handle the Cincinnati Reds Next Season

Chicago, Oct. 23.—Joe Tinker has succeeded Frank Chance as manager of the Chicago Cubs. The appointment was announced by owner Murphy in the Windy City yesterday, after he had notified Chance that his services were no longer required. The latter is now slated for the leadership of the Cincinnati Reds and may oppose his team mates on the diamond next summer.

Billy Papke and Georges Carpentier will meet in Paris to-day. Carpentier is favorite over the former American champion.

BETTING AT EVENS.

Betting on the Bayley-Hyland fight at Calgary on Monday has dropped to evens, according to a wire which was received from Calgary this morning. The arrival of Bayley and the splendid form that he showed in yesterday's workout no doubt influenced the bettors to make the pair split favorites.

JAMES BAY LINE-UP IS STRENGTHENED

McGill Rugby Club Will Play Exhibition Match on Oak Bay Grounds

Preparations have been completed for the big exhibition Rugby game that will take place on Thanksgiving Day at the Oak Bay athletic grounds between the Vancouver McGill Club and the James Bay Athletic Association fifteen. This match, between such well matched teams, promises to be the sporting tit-bit of the holiday. The Bays have been strengthened by the addition of several stars from other clubs in the city, and the black and white intend putting forth a big effort to win.

Monday night the McGill Club will be tendered a banquet at the Balmoral Grill, at which the players of both teams will attend. Capt. Al. Jeffs of the James Bay Club has picked the following team to oppose the McGill selection:

Ken. MacDonald, C. Vincent, P. Ogden, Mat. Scott, Wm. Ross, Billy Newcombe, Wm. Newitt, Al. Jeffs, C. Brown, J. M. Simpson, C. E. Straker, Tuck, B. Scott, J. Houston, Dennis-ton. Subs.—A. R. Morton, J. Newmarsh.

HAVE DISBANDED.

Beacon Hill Management Will Not Consider Further Challenges.

Manager Walter Lorimer, of the Champion Beacon Hill team, says that his team have disbanded for the year, and will not consider further, any challenges that may be sent to his club for games against All-Star clubs. "We gave this team every opportunity to secure a game if they so wished," said Mr. Lorimer to the Times yesterday, "but they appear to have fallen down."

Mr. Lorimer, who is the man that secured Bobby Steele's tryout by the Bees, says that he has a couple of more youngsters whom he will send to the pro. ranks next season. "The success of Steele has encouraged several local stars and Victoria will be well represented in professional baseball next summer."

CHAMPION KILBANE HAS MANY MATCHES IN SIGHT

New York, Oct. 23.—Johnny Kilbane, champion featherweight boxer of the world, is preparing here for some strenuous work, his manager, Jimmy Dunn, of Cleveland, having signed him up for three bouts.

The first fight will be with Johnny Albanez, ten rounds, at Columbus, O., October 24; the second with Tommy Dugan, ten rounds, at Johnstown, Pa., October 30, and the third against Oliver Kirks, eight rounds at St. Louis, November 4.

The Art of Cooking Revolutionized

The Copeman Automatic Electric Cooking Stove is more satisfactory and cheaper to operate than any other similar device on the market.

IF A POLO PONY SITS ON YOU WHY HIT HIM WITH YOUR MALLET

San Francisco, Cal., Oct. 23.—If a polo pony unseats its rider and then rolls over him three times as he lies prostrate on a muddy field, the rider may resent the indignity by striking the pony with his mallet. This was the momentous finding of the San Mateo Polo Club to-day in the case of George Garritt, clubman and financier, accused of having broken rule 29 of the American Polo Association, which forbids a player striking an adversary or pony with hands or mallet. The board of governors of the club found "that said pony did then and there roll on said Garritt three times on the muddy field, justifying a liberal construction of rule 29 on Garritt's part in rebuking the pony."

WANDERERS MAY LOSE THEIR STAR FULLBACK

Williams Considering Offer to Make Chicago His Home—Welsh Team to Strengthen

A meeting of the Victoria Rugby Union will be held at the Balmoral hotel this evening, when plans will be perfected for the visit of the Calgary Rugby team next week. Referees will also be appointed for the week-end Rugby matches at Oak Bay.

Capt. Dai Thomas announces that he will have three new forwards in line when the Green and White again take the field. He realizes that the Wanderers defeated his team mainly through their superiority on the forward line, and he proposes to strengthen his club by adding weight to the Welsh forward line. Wanderers may lose their star full back, Williams, who is considering a proposition to go to Chicago. Should he go east, the Wanderers' chances of carrying off the Barnard cup will be seriously impaired.

Harry Watkins, the famous Welsh international, who is now a member of the Calgary Rugby Club, will be given a warm welcome by local Rugby fans. Watkins is one of the cleverest Rugby players that ever played for Wales.

NEW CLUB HOUSE TO BE READY NEXT YEAR

Plans Accepted for New Building at Cadboro Bay to Cost Nearly $20,000

Plans were accepted at last night's meeting of the Royal Victoria Yacht Club, for the new club house which is to be erected at Cadboro Bay. The building, which will cost from $18,000 to $20,000, will be finished before next spring, and the contracts will be let within a couple of days. The building will be a two-story structure, bungalow style, and a garage for the accommodation of the members who own autos will also be erected. Messrs. Rochfort & Shankey have prepared the plans for the club house, and the new club house is an assured fact for 1913.

Take your girl to the Sidney dance Friday night.

Personal

The friends of Mrs. V. A. Wolfenden will be glad to hear that she is rapidly recovering from her recent operation at St. Joseph's hospital.

• • •

Mr. Garver, supreme instructor Loyal Order of Moose, is in the city visiting the local lodge of Moose. He will be tendered a reception by Victoria Moose this evening at their club rooms on Government street. All Moose are requested to attend.

You can't Freeze Corby's Special Selected Whisky

That's one reason why it makes the best highball

Another is because of its unusual sweetness and bouquet as compared to the flat, insipid taste of ordinary whisky

B. P. O. ELKS

NOW ORGANIZING IN THIS CITY.

The Benevolent Protective Order of Elks of the Dominion of Canada, through representatives of the Grand Lodge, have opened offices in the Sayward Block, and are pushing the work of organization in this city. The organizers, under the direction of Jacob S. Wood, the well known automobile dealer, are exercising every care in the selection of its members, and none but the very best are admitted to membership, thus making it an order of the highest possible standard.

JACOB S. WOOD
Local Organizer.

Until such time as the lodge shall be regularly instituted by the Grand Lodge, the initiation fee will be but $20. After installation the fee will no doubt be increased to $50 or $100. The organizers are to be congratulated upon their early success, having already secured the application of a large number of the leading business and professional men of the city.

The Grand Lodge is located in Vancouver, B. C., and the following are its officers:

Grand Exalted Ruler ..... Charles E. Redeker
Grand Esteemed Leading Knight ..... Dr. A. W. Hunter
Grand Esteemed Loyal Knight ..... W. C. Watrous
Grand Esteemed Lecturing Knight ..... Dr. D. H. Weaver
Grand Secretary.... Charles L. Barnett
Grand Treasurer..... J. F. Bennett
Grand Esquire..... Frank McAlpine
Grand Chaplain..... A. G. Brown
Grand Tyler..... Joseph F. Morris
Grand Inner Guard..... H. Freund
Grand Trustee..... E. W. Hachmuth
Grand Trustee..... W. H. Morrow
Grand Trustee..... John H. Sears
Grand Trustee..... E. A. Webb

FORMER BISHOP OF RIPON IS HERE

DR. BOYD-CARPENTER AND PARTY ARRIVE

Distinguished English Divine Has Been Visiting Up Coast

The Rt. Reverend Dr. Boyd-Carpenter, former Bishop of Ripon, arrived in Victoria this morning on the boat from Prince Rupert, after what His Lordship defined as a most enjoyable trip. He is accompanied by Mrs. Boyd-Carpenter, his son Douglas, and his daughter, Miss Hester Boyd-Carpenter, to all of whom the trip through Canada, across the splendid Rockies, and up the straits to Prince Rupert has been a unique and delightful experience. The party landed in Montreal on September 28, and will be remaining on this side of the Atlantic until early in April, the last few weeks of His Lordship's time being occupied in part with the series of six "Noble" lectures, which he will deliver at Harvard in February.

At Montreal Dr. Boyd-Carpenter had a good deal of work to do in connection with a movement initiated at that place for the co-operation of four theological colleges — Congregational, Episcopalian, Presbyterian, and Wesleyan—in which young men are being trained for the Christian ministry. The scheme was, said His Lordship, to arrange the lectures so that the students might study certain subjects in common, the colleges still remaining independent and attached to their own denomination, but in this manner deriving the undoubted economic advantages of the system. Dr. Boyd-Carpenter gave the inaugural address at the initiation of the scheme, giving also three subsequent lectures to the students and citizens, and attending a banquet which was arranged by the leading men of Montreal to celebrate the initial inauguration of this movement. The conclusion of his work in the first city which he visited in the Dominion came on the following Sunday when he preached in the cathedral there, the party afterwards traveling to the quaint old city of Quebec, where a two days' visit was spent looking at places of historic interest.

Proceeding westwards by the Canadian Pacific Railway the party came through with few stops to Winnipeg, leaving there after a few hours for Glacier, where they spent one night. From Vancouver, where they arrived about two weeks ago, the visitors proceeded last Thursday to Prince Rupert—a stage in their travels which His Lordship thinks perhaps the most enjoyable of the whole trip through Canada.

"We visited Metlakatla," said Dr. Body-Carpenter in describing his short trip in the more northerly part of the province, "the scene of the labors of the good Mr. Duncan who went in there and worked so faithfully and devotedly in the middle of the last century. As a child I remember well hearing of his work in what we know as the 'Good Indian Village,' and he really did wonderfully well there. In fact, so beloved was he by his people that when he went to Alaska he was followed by six or seven hundred of the Indians whom he had the wit to civilize as well as Christianize. Naturally I was interested in the scene of his labors, and found it quite fascinating to visit the place."

At Prince Rupert His Lordship preached twice during his visit there, and expressed himself as very much interested and struck by the energy of the people and the devotion of the Christian folk whom he had met there. This attribute he had found, he said, to be very general among the people of the West, who seemed to have the spirit of brotherhood and co-operation developed to an unusual degree.

His Lordship will preach in Christ Church cathedral next Sunday, and on Monday will leave for Vancouver, whence he will make his way eastward to Calgary, where he will preach the following Sunday, on Sunday fortnight having an arrangement to preach in Toronto and a week later at New York. This is not his first visit to North America, as eight years ago he delivered a series of six Noble lectures at Harvard, this foundation being endowed by Mrs. Noble in memory of her husband who was greatly attached to Phillips Brooks, Bishop of Massachusets.

Bishop Boyd-Carpenter is intensely interested in the great labor and social questions which are disturbing England at the present time, and says that the great call of this country for men seems strange when such multitudes in England are without work, but that in this respect he saw the force of Professor Marshall's statement anent the labor problem that there was no question of want of employment, the whole point being that the employment was in one place and the men in another. This he had seen for himself in this country; in Winnipeg he had seen a startling sign calling for two hundred men to work on a certain farm, while in England there were thousands of employees willing to present themselves for every job.

As to the position of Socialism in the church to-day, there was no question, His Losdship said, that the Christian Social Union in England numbered among its members many that would be called Socialists, but, while with Lord Salisbury he agreed that everyone held some sort of Socialism in his creed, the rank and file of church opinion would be against extreme Socialism even while avowedly supporters of social amelioration. "The good sense of the English people is a great asset in this matter," said he, "and the Church of England reflects this attitude. The Church of England really incorporates within herself that double tendency of the English people towards freedom, and at the same time a reverent hesitation concerning rapid changes, so that while there will always be a progressive movement toward general improvement yet there will be prudence enough not to sacrifice great moral considerations while promoting material advantage. Many people think that if we go too fast we will weaken the national character, and I myself think that if charity is given too liberally the self-reliance of the people is taken away from them. There is a great incentive to moral exertion in the success which awaits the worker in this country."

When questioned as to his ideas on the sending out of England's poor to this country, His Lordship said that he thought it would be unfair to Canada to dump down a great stream of ineffectives from the Old Land, but that some systematic handling of the matter might make it possible to send out trained men. The educational system in England to-day was ineffective in that it did not devote enough thought to training men in useful professions and occupations which would make them more self-reliant and self-supporting, and there was also too indiscriminate a selection of men for their occupations. Some better supervision, both medical and otherwise, would undoubtedly lead to better and more effective results.

In addition to the numerous publications with which most of the public here are familiar, Dr. Boyd-Carpenter last year, during an enforced holiday, wrote a volume of reminiscences entitled "Some Pages of My Life," which gave him much pleasure in the writing, and which, by the success it has met at the hands of the publishers, Messrs. Williams & Norgate, has given the public even greater pleasure in the reading.

RT. REV. DR. BOYD-CARPENTER.

WELL-KNOWN CIVIL ENGINEER DIED TO-DAY

Edward Mohun, C. E., Pioneer, Who Carried Out Many Important Public Works

The death took place to-day of one of the pioneer civil engineers of British Columbia, Edward Mohun, of 618 Blanchard street, at the age of 74 years. To the older generation of British Columbians he will be remembered as one of those who had a large share in the public works here some years ago.

He was born at Chigwell, England, on September 3, 1838, and educated at Blackheath, England. He commenced his career as assistant engineer in 1858, came to British Columbia in 1863, and for over 50 years has been engaged in engineering, principally for the government.

At the meeting of the road superintendents held here in the spring he was regarded as the Nestor of road builders, and was accorded a warm welcome.

The late Mr. Mohun was the engineer who was successful in planning and carrying out the sewerage system for the city of Victoria. About twenty-one years ago the council called for competitive bids for a sewerage plan for the city. Mr. Mohun's plans were submitted and were accepted from among others in the competition. There was a condition in the acceptance of the plans that the work should be carried out in two years. The late Mr. Mohun fulfilled the contract to the letter. It is his system under which the greater part of the sewerage of Victoria is at present carried out.

Mr. Mohun was a member of the Canadian Society of Engineers and of the Royal Sanitary Institute, also of the American Society of Civil Engineers. He was associated with the American Forestry Association. He was a member of the Union Club and of the Canadian Club of this city.

He passed peacefully away at his residence after a brief illness. He leaves no relatives in this province, but is survived by three brothers and one sister resident in England. The funeral arrangements have not yet been made.

LOCAL NEWS

Grant to Seaman's Institute.—The city council will contribute $100 to the building fund of the Connaught Seaman's Institute, now in course of construction at the corner of Superior and St. Lawrence streets.

o o o

Victoria Spiritualist Society.—The Victoria Spiritualist Society will hold a meeting to-morrow at 8 o'clock. All those wishing to develop their psychic powers are welcome. Meetings are held at the K. of P. Hall.

o o o

Will See Cricket Match.—Rt. Rev. Boyd Carpenter, late bishop of Ripon, who arrived in the city this morning, expressed his intention of attending the cricket match on Saturday between the representative British Columbia eleven and the Australians. The bishop has an added interest in the play in the fact that his nephew, W. J. Peers, of Vancouver, is one of the provincial team.

o o o

School Buildings.—The excavation at the Oaklands school, where rock was encountered, has been completed, and the foundations have been commenced. At Burnside school good progress has been made by Luney Brothers, while at the new High school there is delay anticipated over the delivery of pressed brick. This will cause some handicap to the contractors, Dinsdale and Malcolm, who have already a large share of the work finished.

o o o

To Register Property Owners.—This morning, Mr. Tripp, who is acting local manager in the absence of A. T. Goward, received from the Oak Bay municipality a communication asking that the names of all the property owners on Dunlevy street which is included in the route of the Cadboro Bay car line, the plans for which came before the council on Monday last, be inscribed in a book and sent to the council.

o o o

New Clock Tower.—A new clock tower graces the corner of View and Broad streets to-day. Of graceful proportions and built of dark green metal with excellent ornamental work surrounding the dial, the clock will be a distinct asset in the beautifying of the street, besides serving a very useful purpose. The clock and tower are being set up by Messrs. Shortt, Hill & Duncan, and it stands just outside the door of their large new premises in the Central building.

o o o

The Mecca of the Fruit Grower.—Vancouver Island is the Mecca of the fruit-grower. The suitability of the soil of certain portions of the Island and the excellent results which have been obtained therefrom have attracted people here from all parts of the world. In making these virtues of the soil known no institution has done more than the Vancouver Island Development League, which by means of its excellent booklets has sent out the message to practically every country. Indications of the results attained by this form of advertising are often forthcoming in the shape of letters to the office of the League in the form of applications for particular information, and the fashion of taking up land for the purpose. This morning a communication was received from an English writer who is a practical fruit-grower in the county of Essex who intends coming to Victoria this month to take up land.

Official Visit.—Grand Master Workman Anderson, of Vancouver, will visit Vancouver Lodge, No. 5, A. O. U. W. of British Columbia, at its regular meeting next Friday night. It is expected that there will be a record attendance of members of the three city lodges to welcome the grand master and to hear reports of the progress of the order throughout the province. Special interest attaches to this gathering because it will be the 44th anniversary of the order. There will be 5 or 6 candidates to initiate and the newly-organized degree team of Western Star Lodge will officiate by request.

HEALTH COMMITTEE INSPECTS OFFICES

Looks Over Situation at the Fairfield Block—No Answer From Revelstoke Yet

As soon as the health committee came to order to-day an adjournment was taken to the Fairfield block, in order to look over the property for accommodation of the health department. Aldermen Gleason, acting chairman; Anderson, Dilworth and Baker, the medical officer (Dr. Hall) and Sanitary Inspector Lancaster made the examination, and will report to the city council next Tuesday. The water department has also to be accommodated outside the city hall.

Other matters before the committee was the acceptance of the Velie truck, of which tests were made last week, and some details requiring immediate attention.

The lettergram sent to City Solicitor Robertson on Monday night after the council adjourned, in connection with the registration of agreement holders for the municipal franchise, did not reach him yesterday, and another message was forwarded to-day to Revelstoke.

Notice is published in the press today of the opening of the assessor's office from seven to nine o'clock nightly till the end of the month, in order to receive the registration of householders.

A recent parliamentary census of England and Wales shows that, exclusive of the Universities, there are 468 parliamentary areas.

YOUR WINTER FOOT-WEAR

IDEAS OF A PLAIN MAN

BY DR. FRANK CRANE

There are those who are willing enough to admit democracy in politics, but whose notion of the intellectual life is one of rigid caste.

There are intellectual snobs.

They look upon a cultured person as a distinct order of creation from the unlettered; just as in certain countries a duke is considered to be of wholly different clay from that of a day-laborer.

There are scientists with an unveiled contempt for any idea of an untrained mind, college men who seem to imagine that one who has not taken a degree in mathematics and Latin has no right to think at all, artists who sneer at common tastes, and literary gentlefolk who conceive the unlibraried mind to be wholly negligible.

Now, when a really great man comes along it is noticeable that he turns to the common people; he passes by the experts and appeals to the vulgar crowd. Socrates conversed with the harness-maker and the courtesan as willingly as with the sophist. Jesus ignored the scholars and directed his message to fishermen. Lincoln preferred the judgment of the people to that of the statesmen.

For wisdom, in the end, is not tested by the arts of the learned but by the instincts of men. The farmer and the blacksmith are quite as apt to be sound and clear upon the great issues of life and destiny as the college professor.

The principle of democracy is as true in thought as in action.

Could snobbery go farther than the remark in Stuart Mill's autobiography, that "a person of high intellect should never go into unintellectual society unless he can enter it as an apostle?"

An old woman was burying her fourth husband. When the grave-digger asked her to choose a spot in the burial ground she said: "Oh, I have been accustomed to lay them in that corner over there."

The Evening Chit-Chat

By Ruth Cameron

How very, very large are the little things of life!

We were talking the other day about a woman who had carried herself wonderfully through a terrible ordeal of threatened disgrace imminent to the one she loved most dearly, and then had utterly failed in forbearance and graciousness towards a thoughtless but repentant friend, and some one said:

"She is one of those people who are splendid when there is any big occasion to be met but failures in the little relations of life."

Let some big trial, some great test demand their energies, and they immediately rise to the height of the need. But when the great moment is past, and it's just a case of enduring and forgiving the little pin pricks of everyday life, they fail ignominiously.

They are big enough for the big things but not for the little things.

And yet after all who can blame them? For who does not know how very, very large are the little things of life?

How the little annoyances sting us! How the little disappointments loom like life tragedies! How the little temptations to temper and injustice and unreasonableness overcome us! How childishly we give in to the little weaknesses!

"The little ills of life," says Thackeray in one of those wonderful asides that are half the charm of his books, "are the hardest to bear, as we all very well know." What would the possession of one hundred thousand a year, or fame and applause of our countrymen, or the loveliest and best beloved woman—of any glory and happiness or good fortune, avail to a gentleman, for instance, who was allowed to enjoy them only with the condition of wearing a shoe with a couple of nails or sharp pebbles inside of it? All fame and happiness would disappear and plunge down in that shoe. All life would revolve around those little nails."

When a lover in the ecstacy of the wonderful passion says to his beloved, "I would be willing to die for you," she thinks he has expressed the acme of devotion, and only realizes that there is something bigger than being able to make one big sacrifice when she finds that he is not willing to live for her, in other words, that he is not big enough for the little things.

"Help me this day to be big enough for the little things."

How is that for a morning prayer?

Ruth Cameron

FOOD REFORM.

One of the objects of the National Food Reform Association is to encourage really useful and practical lessons on domestic economy in the schools. In the fourth annual report appears a statement by a medical man to the effect that the money spent in so-called cookery teaching in English board schools for the last thirty years has practically been wasted, and each generation has progressed in waste rather than in thrift and domestic economy. He complains that he never yet met with an Englishwoman who could cook potatoes properly—in their jackets. Another correspondent expresses the view that incessant eating has more to do with ill-health than anything else. People, he says, are not really more temperate by temperance legislation, but simply abstain from alcohol and have a perfect orgy in the way of sweets and tea, which he believes are now doing more harm to the nation than alcohol. "We have," he adds, "a great deal of insanity and nerve disease here; it is chiefly amongst the teetotalers." We hope the writer does not wish to convey that the people should indulge more in alcoholic drinks. Incessant drinking would be worse than incessant eating. Emphasis is laid by the report on the waste which commonly occurs in the preparation and cooking of food. The food commodities procured by householders at present would, if properly and frugally utilised, not only provide a better dietetic standard, but would also maintain in comfort a far larger population.—Irish Independent.

A PIANO BARGAIN

Here is your chance. We have a large upright Grand Piano, with a full metal plate, ivory keys and mahogany case. Regular cost of this piano is $550.00. It is practically as good as the day it left the factory. The case has the appearance of a new piano. The tone will satisfy the most critical ear. This piano can now be sold for $375.00. It simply means that you will

SAVE $175

by taking advantage of this exceptional offer. We will sell for $25.00 cash and $10.00 per month.

SAANICH IS GROWING FAST

DEVELOPMENT OF WHOLE PENINSULA

Transportation and Good Roads Principal Necessities of That District To-day

The Saanich peninsula, dependent on Victoria, and to a large extent, though not as largely as it ought, supplying Victoria with the necessaries of life, is rapidly developing. The general opinion is that there will be a zone five miles from the city hall in which suburban conditions will obtain, and the remainder of the district will be devoted to agriculture. No clearer indication of the line of demarkation which is to separate the two zones can be found than in the conflicting elements which govern the municipality of Saanich, the controlling authority for the whole of the southern end of the peninsula. The northern end is a farming community without anything in common with the suburban areas of Victoria, where rapid development is taking place, while between them lies a fringe of semi-suburban land, whose owners are not unwilling to have the advantages of an urban population, but scarcely willing to pay for it. With the exception of the town of Sidney, the whole of the northern area, now an unorganized district, is rural in type, and for that reason a proposal was launched some months ago to incorporate Sidney as a separate municipality. Good roads and transportation are the crying needs of the whole peninsula. The municipality in the south, and the government in the northern part are improving the thoroughfares, although a good deal wants doing in places along roads where the broad tyres of automobiles have cut a rut in the soft earth, and the removal of projecting stones is necessary. A few more signs on the cross roads would be excellent for visitors, and would help to guide many who are now puzzled at the road intersections. The Victoria automobile club could help the local authorities in this regard considerably.

The day has come at last for permanent work on the roads of the district which are of a suburban character, and the letting of the contract for three roads this year is the beginning of what will shortly prove a big improvement in the suburban portion of the district.

The improvement of the whole main road from the end of Quadra street, at the city boundary to Royal Oak, is one which is strenuously sought, and which would mean much for the district. If the road was newly macadamized, and the grade by the pumping station reduced by a small fill, it would make a splendid highway along which there is always a great deal of travel. For scenic advantage the peninsula has much to commend it.

Commercial development is going on, the sawmill at Sidney, and the cement works at Tod Inlet, both being examples of industrial activity which will be increased as time goes on.

The transportation problem is to be solved by the Saanich extension of the B. C. Electric Railway and the improvement in Victoria & Sidney Railway. The prospect of these factors has advanced property in Sidney, assisted by reports that the V. & S. is to pass into the hands of other interests.

TO EXTEND TIME.

Automobile Association and Provincial Government Petition for Extension for Foreign Cars.

To request the federal government to extend the time under which foreign motors may be allowed entrance into this country is the joint object of the Victoria Automobile Association and the provincial government. At present the customs regulations provide for the deposit of a substantial bond for the return of cars into the States and the time limit is only one week.

The average tourist to this province, however, wants more than one week in which to see the beauties of British Columbia and in which to taste of the hospitality of its people. Representations have been received from many motor associations in the Pacific states, in which it is stated that the extension would mean a larger number of tourists for this country. It is only a matter of departmental regulation and it is believed that no objection can be made to the time limit in British Columbia as is now done in Ontario and Quebec.

The point is, for this province, naturally an important one, as visiting tourists spend large sums of money here and everything that expedites the traffic means added revenue. Mr. Thomson, the engineer in charge of Strathcona Park, endorses the movement enthusiastically as he believes that added facilities such as the measure would provide, would bring many more tourists to the park.

Dance at Sidney Friday night.

KILLED BY TROLLEY CAR.

New York, Oct. 23.—Trying to save the life of his daughter, who had strayed into the path of a trolley car speeding down a Lexington avenue hill late last night, Samuel Goldfeder was struck and fatally injured and the girl instantly killed. While the two bodies lay under the wheels the mother and wife of the two stood among the spectators watching transit employees trying to lift the car. As the mangled bodies were drawn forth she recognized them and fell unconscious and to-day lay in a serious condition on a hospital cot adjoining the one upon which her husband was lying.

WOMEN STORM BUTCHER STALLS

High Price of Meat Results in Riot in Berlin Municipal Market

Berlin, Oct. 23.—Hundreds of Berlin housewives joined in a wild riot today because the butchers in the municipal markets refused to handle meat imported so as to reduce the cost of living.

The principal troubles occurred in the Wedding district, which is entirely inhabited by working people. Hundreds of women who went to the municipal market hoping to profit by reduced prices, found that the butchers had agreed not to deal in meats imported by the municipality. They stormed the butcher stalls, seized all the native-raised meat, trampled it on the ground and fought with the butchers. The police were forced to close the market to stop the riots.

The municipality declares its intention of punishing the butchers by cancelling their licenses.

AGRICULTURAL EXPERTS.

Australian Commission Has Completed Tour of the United States.

Washington, D. C., Oct. 23.—An Australian commission of agricultural experts, after an inspection tour of the United States, has completed a report which will be mailed to the home government virtually recommending the adoption of American methods of exterminating cattle tick. The commission now here in consultation with department officials is headed by Percy Cowles, chief inspector of the Australian department of agriculture.

TWO BURNED TO DEATH.

Bulh, Minn., Oct. 23.—A policeman who was taking Mrs. Nicholas Mattson to jail on a charge of drunkenness, stopped at a school for her fifteen-year-old son to go home and care for her other two children. The boy, finding the house cold and the children crying, lighted a big fire in a grate. He then went out to procure something to eat, and returning, found the house burned to the ground and in the ruins the charred bodies of his brother and sister, aged respectively three years and eleven months.

SELF-CONFESSED MURDERER.

Indianapolis, Ind., Oct. 23.—Frank Willie Smith, a negro, to-day confessed to the police that he killed Frank Foxall and Philip Lepper, white, near the state fair, October 2 last. The negro was arrested in Louisville and returned here. Smith, in his confession, said the white men called him names and began shooting.

DRINK CURE A MIRACLE?

No, Just Sound Science.

Many drunkards are sent to jail when what they need is medicine. Drink has undermined their constitutions, inflamed their stomach and nerves until the craving must be satisfied if it is not removed by a scientific prescription like Samaria.

Samaria Prescription stops the craving, restores the shaking nerves, builds up the health and appetite and renders drink distasteful, even nauseous. It is odorless and tasteless and dissolves instantly in tea, coffee or food. It can be given with or without the patient's knowledge.

Read what it did for Mrs. G. of Vancouver:

"I was so anxious to get my husband cured that I went up to Harrison's Drug Store and got your remedy there. I had no trouble giving it without his knowledge. I greatly thank you for all the peace and happiness that it brought already into my home. The cost was nothing according to what he would spend in drinking. The curse of drink was putting me into my grave, but now I feel so happy and everything seems so different and bright. May the Lord be with you and help you in curing the evil. I don't want my name published."

Now if you know of any unfortunate needing Samaria treatment, tell him or his family or friends about it. If you have any friend or relative who is forming the drink habit, help him to release himself from its clutches. Write to-day.

A FREE TRIAL PACKAGE of Samaria Prescription with booklet giving full particulars, testimonials, price, etc., will be sent absolutely free and postpaid in plain sealed package to anyone asking for it and mentioning this paper. Correspondence sacredly confidential. Write to-day. The Samaria Remedy Co., Dept. 75, 49 Colborne St., Toronto, Canada; also for sale at Hall & Co.'s Drug Store, corner Yates and Douglas Streets, Victoria, B. C.

HEAVY FIGHTING IS IN PROGRESS

(Continued from page 1.)

The capture of the heights near the town of Novipazar after stubborn fighting is regarded as an important victory for the Servians.

Details of the Servian casualties have not been given, but they are not believed to have been heavy.

Extraordinary scenes were witnessed in the towns and villages of Old Servia when they fell into the hands of the Servian troops. The invaders were greeted with open arms and tobacco and refreshments were pressed upon the soldiers by the inhabitants who placed everything they possessed at the disposal of the military authorities.

Greeks Report Victory.

Athens, Oct. 23.—The Greeks yesterday afternoon attacked the Turkish guards in the defiles of Sarandaporo river on the road from Elassona to Servia. They met with vigorous resistance.

General P. Danglis, the commander of the Greek army, sent a dispatch about yesterday's battle to the war office from the Turkish village of Desanitza, timed 9.30 last evening, saying: "Our troops have approached the Turkish position and remain there. Only darkness stopped the battle, which will be resumed to-morrow morning."

The Greek army defeated the Turkish troops this morning beyond Elassona, after a vigorous, attack and the Turks are new retreating to the town of Servia, according to a dispatch from Crown Prince Constantine of Greece, commander-in-chief of the Greek army.

The Crown Prince telegraphed that the Turkish army, composed of twenty-two battalions of infantry and six batteries of artillery, was compelled to abandon its position and retire before the Greek onslaught. The order has been given for a general pursuit.

The Crown Prince has established his headquarters at Khan-Hadjigogo.

Sultan and Czar.

New York, Oct. 23.—A cable dispatch from Paris contains the following account of the Balkan war:

"When the Sultan of Turkey gave orders for army mobilization he sent to the Czar of Bulgaria a sack of millet with the following letter:

"'Ferdinand Effendi, mobilize if you like, but be assured that there are as many soldiers in Turkey as there are grains of millet in this sack. Now, if you wish, declare war.'

"The Czar's reply was in kind. He sent a very much smaller sack filled with tiny grains of a most virulent red pepper of the country. With it went the following dedication: 'Dear Sultan: The Bulgarians are not numerous, it is true, but be assured that to stick your nose into their affairs is like sticking it into our national condiment. Try it and see; they'll sting you so sharply that the whole of Asia will not be able to save you.'"

FIRE DESTROYS EVAPORATOR.

Lucknow, Ont., Oct. 23.—John Joyn's apple evaporator was burned to the ground. The loss is about $18,000, with no insurance.

FRECKLE-FACE

New Remedy That Removes Freckles Or Costs Nothing.

Here's a chance Miss Freckle-Face, to try a new remedy for freckles with the guarantee of a reliable dealer that it will not cost you a penny unless it removes the freckles, while if it does give you a clear complexion, the expense is trifling.

Simply get an ounce of othine—double strength, from D. E. Campbell, and one night's treatment will show you how easy it is to rid yourself of the homely freckles and get a beautiful complexion. Rarely is more than one ounce needed for the worst case.

Be sure to ask for the double strength othine, as this is the only prescription sold under guarantee of money back if it fails to remove freckles.

NOTICE TO ELECTORS

Those wishing to qualify to vote as Householders and Licensees at the next municipal election, who are not in a position to make the declaration in the Assessor's Office within the usual office hours, will have the privilege of making said declaration in the Assessors Office between the hours of 7 o'clock and 9 o'clock in the evening of every day in the week, for the remainder of the month of October instant, excepting Saturday, Sunday and Monday next (Thanksgiving Day), as the said office will be opened during these hours for that purpose.

WELLINGTON J. DOWLER,

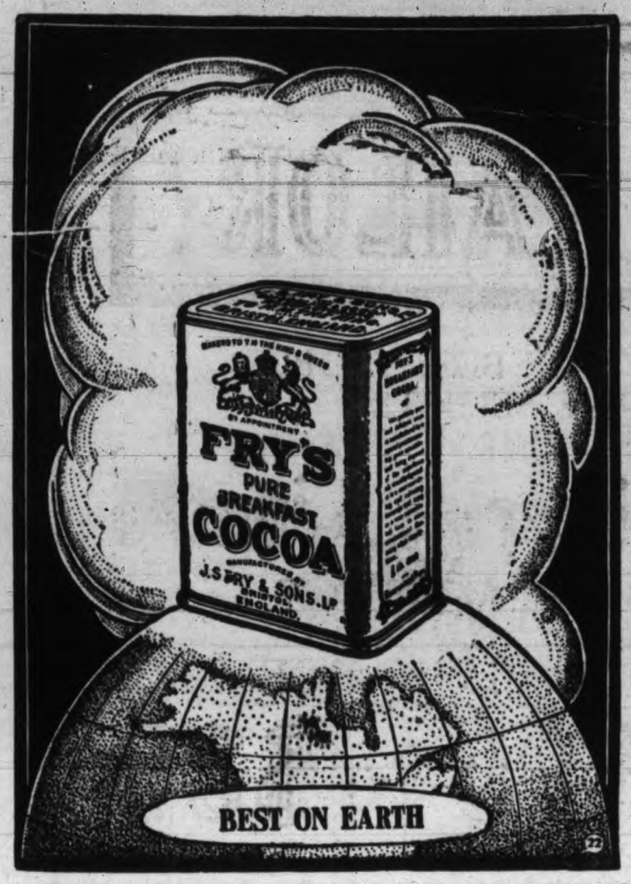
Box D., Thoburn P. O.



OUR LETTER BOX

NOTICE TO CORRESPONDENTS.

Letters for publication in Daily Times must be received before 10 a. m. When received after that hour they will go over until next day.

While unobjectionable anonymous communications will be published, the name and address of every writer of such letters must be given to the editor.

ESQUIMALT HOUSEHOLDERS.

To the Editor: In the Times of last evening appeared a report of proceedings at a council meeting recently held at Esquimalt in which reference is made to an opinion alleged to have been given by me to Mr. McAdam, one of the councillors of the new municipality, on the right of householders to vote at the next municipal election to be held for Esquimalt. In view of the report as given in your columns it is only fair that publicity be given to my version of what occurred at the interview with the councillor, and if Mr. McAdam chooses to contradict what I am about to state I am quite content that his contradiction be accepted at its true value.

A gentleman called on me a few days ago who stated that he was one of the new councillors for Esquimalt and who appeared to be somewhat perturbed over a rumor that had reached him to the effect that householders were not entitled to vote at the January municipal election in Esquimalt. I informed him that the solicitor for the municipality was the proper person to whom to apply for advice, and he then stated that the municipality had no solicitor as yet and that he merely wished to have my view on the matter as undoubtedly a similar question had arisen in the case of other newly-formed municipalities.

I then read over to the councillor, clause by clause, the declaration required to be made by householders in township municipalities, laying special emphasis on clause 4, which reads:

"That I have paid directly to the said municipality all rates, taxes, or assessments which are not directly chargeable to land and which amount is not less than two dollars, due by me to the said municipality for the current year, other than water rates or taxes or license fees for dogs," and pointed out that as there were no taxes legally due to the corporation of Esquimalt for the current year no one could truthfully make the above declaration and consequently no householder could vote at the January election. I also pointed out that as this declaration had to be made, subscribed and delivered to the proper officer in the month of October, a householder in a municipality that was incorporated in November or December could not have his name inserted in the voters' list for the January election following, and a householder in Esquimalt, which was incorporated in October, was in no better position than was a householder in a municipality incorporated in, say, the month of December.

I also informed the councillor that the road tax of two dollars could not be imposed or collected by the municipality until a by-law had been passed and that a householder could not truthfully make a declaration that he had paid his poll-tax until such a by-law had been passed and the tax became legally due to the corporation. As a matter of fact, a householder cannot qualify to vote at the 1912 municipal election unless the municipality was incorporated on or before the 1st day of January, 1911.

J. P. McLEOD.

Specialist Did Skin Trouble No Good

Very Itchy and Disfiguring. Got a Little Cuticura Soap and Ointment and Was Cured.

"For two summers I suffered with skin trouble on my arms, and on my legs from my knees down. My arms were badly disfigured, and I kept them covered. It came like the hives, and was very itchy. I consulted a specialist, who gave me medicine, as well as an ointment, but seemed to do no good. It was beginning to appear on my face.

"I got a little Cuticura Ointment and some Cuticura Soap. The first touch of Ointment seemed to relieve, and before the Cuticura Ointment was finished I was cured. I have not the least sign of trouble. I think it would have spread over my whole body if Cuticura Soap and Ointment had not cured me. I am delighted with them, and do feel pleased to think I have something I have confidence in. I tell all my friends about them, and I think Cuticura Ointment is the best I ever saw." (Signed) M. J. Boddy, 73 McCaul St., Toronto, Dec. 22, 1910.

Cold-Sore Began to Heal With First Use of Cuticura Ointment.

"Cuticura Ointment cured a very bad cold-sore that gave me hours of severe pain and loss of sleep. I tried lots of other remedies but nothing did me any good till I tried Cuticura Ointment, and from the very first application it began to heal and now there is not even a scar left." (Signed) Mrs. W. Boyce, Mermaid Farm, P.E.I., Jan. 8, '11.

For more than a generation Cuticura Soap and Cuticura Ointment have afforded the speediest, safest and most economical treatment for skin and scalp troubles, of young and old. Although they are sold by druggists and dealers everywhere, a liberal sample of each may be obtained free, from the Potter Drug & Chem. Corp., sole props., 57 Columbus Ave., Boston, U. S. A.

DEATH BY DROWNING.

Body of Man Found on Rocks at Fraser Road Identified As That of Thomas Moss.

The body of the man found washed up on the rocks at the foot of Fraser Road, Esquimalt, Monday morning, was identified yesterday by Frank Clegg, of the firm of Alvo von Alvensleben, Ltd., as that of Thomas Moss, formerly a real estate salesman. The body was identified by the clothing, it being the same, said Mr. Clegg, as that which deceased wore when last seen alive by him.

Further identification was given by the name in the clothing. At the inquest yesterday Mr. Clegg said that he believed the deceased had a wife and family residing in California. He knew of no relatives here. The medical evidence went to show that deceased died from drowning, and that one leg was broken, but there was no evidence to show how this had happened. The jury returned a verdict in conformity with the medical testimony.

"IT'S THE CLIMATE."

N. S. W. and New Zealand Hens Win Egg-Laying Competition and Will Not Go Home.

An egg laying contest has just been brought to a conclusion under the auspices of the B. C. Poultry Association and the Vancouver Exhibition Association. The results were distributed between the northern and the southern hemispheres, New South Wales and New Zealand hens capturing the first two prizes. Dr. W. H. Medd's white Leghorns from Mt. Tolmie were third, and every other prize was won by hens from the vicinity of Victoria. There were exhibits from twelve other centres, mostly mainland points. The winning hens have been purchased to go to Ottawa, and the winners of the second prize will come to Victoria.

J. S. Terry, of the livestock branch of the department of agriculture, is preparing for a second contest. It will be held this winter in Victoria. Full information regarding it can be had at the provincial government offices. The winning list from the competition just closed is as follows:

Class I.

First prize, $100—Pen No. 2, White Leghorns, Mr. J. Stewart, Berowra, N. S. W., Australia.

Second prize, $50—Pen No. 9, Ranguiru Egg Farm, Otaki, New Zealand.

Third prize, $25—Pen No. 10, White Leghorns, Dr. W. H. Medd, Mt. Tolmie, Victoria.

Fourth prize, $10—Pen No. 19, White Leghorns, Mr. E. T. Hanson, Cowichan Station.

Class II.

First prize, $100—Pen No. 33, Rhode Island Reds, Mr. A. E. Smith, Maywood P. O., Victoria, late of Edmonds, B. C.

Second prize, $50—Pen No. 38, White Wyandottes, Mr. G. Adams, Box 840, Victoria.

Third prize, $25—Pen No. 31, Rhode Island Reds, Mr. J. J. Dougan, Cobble Hill.

Fourth prize, $10—Pen No. 26, Barred Plymouth Rocks, Mr. V. Cleeves, Sannichton.

HAD MAJORITY OF OVER TWO THOUSAND

J. T. Turriff, M. P. for East Assiniboia Annihilated the Tories of His District

J. G. Turiff, member for East Assiniboia who, with Mrs. Turriff is visiting the city, is one of the doughtiest warriors in the Liberal ranks and is a most effective and resourceful debater. He is in his element when questions affecting the west arise and it is then that his political opponents find him a formidable adversary. His speeches in the House of Commons during the reciprocity debate were exceptionally strong and, no doubt, considerably contributed to the huge majority of 2,200 he subsequently rolled up in East Assiniboia. Perhaps no man in the House of Commons has a wider knowledge of conditions in the prairie provinces, much of which was gained as commissioner of Dominion lands from 1898 to 1904.

Mr. Turriff is a man of strong views and does not mince matters in his speeches in the House. He believes that reciprocal trade relations between Canada and the United States are inevitable, the Dominion's rapid development, especially in the west, making this a vital necessity. This country must have more markets for what it produces and it cannot ignore the illimitable one at its very door.

Mr. Turriff describes Sir Wilfrid Laurier's tour of Ontario as a sustained triumph. "What impressed me particularly," he said, "were the numerous banners I saw bearing the significant legend: 'We are back again.' Sir Wilfrid is in splendid health and spirits and is heartily enjoying himself. Other shoulders are now bearing the burdens of state and the resignation of Mr. Monk with the unrest it implies has made the premier's load a very heavy one."

Mr. Turriff has been in public life, with a few years' interruption, since 1884, when he entered the local legislature as the member for Moose Mountain, now one of the constituencies of Saskatchewan. He was the representative of that district for seven years. In 1891 he ran against Hon. E. Dewdney, then minister of the interior. He was commissioner of Dominion lands from 1898 to 1904, when he was elected to the House of Commons.

INVITATION TO THEATRE.

C. Denham Proffers Invitation to Australian Cricket Team for Monday Next.

In connection with the forthcoming visit of the Australian cricketers who are to arrive on Friday next, the following letter has been sent to the visitors' captain by Manager Denham of the Victoria theatre:

S. E. Gregory, Captain Australian Cricket Team.

Dear Sir:—I have great pleasure in extending an invitation to the Australian cricket team to attend W. H. Brady's great comedy success, "Bought and Paid For," on Monday evening, October 28, at the Victoria theatre at 8.20.

Acceptance of same will greatly oblige.

Yours very truly,
C. DENHAM.

THE PASSING SHOW

Majestic Theatre.

A good variety of high-class pictures is on the bill to-day and Thursday. "The Chief's Blanket" shows how, when a great chief's body is placed at the burial ground, his sacred blanket is placed over it and a sentinel is left to watch that this, his last resting place, is not desecrated. In this picture a mountain outlaw appears and succeeds in stealing the blanket, having given the sentinel doctored whiskey. When the Indians discover this they exile the unfaithful sentinel until he can recover the blanket. "Bread Upon the Waters" is the dramatic story of an ex-convict and his battle against society. It tells the human side of the unequal struggle for existence. "The Warwick Chronicle" is more than ordinarily interesting. "A Trip to the Muskoka Lakes in Northern Ontario" is full of beautiful scenery. "Two Gay Dogs" depicts the comical experiences of two amusement park revellers and their wives. It is a laughable, breezy, summer comedy.

The Empress Theatre.

There are many amusing situations in the little comedy entitled "Duffy's Rise," which James F. Leonard and Miss Clara Whitney are producing at the Empress theatre this week. The sketch deals with the sudden rise to riches of an Irishman who looks back with regret to the days when he carried the hod and takes ill to the noveau rich ideas of his wife.

Glen Ellison, an entertainer who is making his second appearance at the Empress theatre, is winning much applause with his song numbers and clever impersonations.

Two comedy acrobats and gymnasts, Falls and Falls, present a lively act. The two men are capable performers and have some amusing tumbling feats, which add much to the interest in the act.

Pritzkow and Blanchard have a musical and comedy melange which is interesting. The act is billed as "A Mixed Affair," and it is all that, for it includes a variety of things from witty dialogue to monologue, and solos and duets.

Howell and Scott, two Hebrew comedians, have a good line of humor and sing some bright parodies which amuse.

In addition to the pictures shown by the Empresscope, another series of baseball slides of scenes during the recent series between the Boston and New York baseball teams are being shown.

"Bought and Paid For."

The characters in George Broadhurst's sensational comedy drama, "Bought and Paid For," which William A. Brady, Ltd., will present at the Victoria theatre Monday and Tuesday, October 28 and 29, are most attractive, chiefly because they belong to the middle class which works for its living and measures its income in combination of two figures—and figures generally quite small. Again, the telephone girl is the heroine of the story, though in quite another way from that in which she figures in other plays. Here she meets a multi-millionaire, successful business man and financier, and agrees to marry him, though she is not sure she loves him. He wants to honor and protect her, and though not certain that he loves her in just the way she wants a man to love her, he believes that ultimately love will come for both, and sure enough it does later and they begin life anew. A cast of uncommon note will interpret the roles.

Since placing this beautiful seafront property on the market three weeks ago, we have disposed of a great part of it. The demand continues heavy. Many inquiries are received every day. In a short time there won't be one of these quarter acres available at first prices. The development of Esquimalt's harbor facilities and railway operations are boosting this property now. With the grading of roads and the installation of the Esquimalt Water Works Company's system complete the demand will far exceed the supply. Then watch values climb.

PRICES $600 UP

MORE AWARDS.

H. R. H. Duke of Connaught Supplements Bronze Medals for School Children.

H. R. H. Duke of Connaught, governor-general of Canada, has donated twelve supplementary bronze medals as prizes to some of the schools of the province. The medals are to serve as momentoes of the recent visit of the governor-general's party, and are given to the students standing first in the entrance examination in those schools where bronze medals were not awarded in July. In those places where bronze medals were given in July the supplementary medals are awarded to the second pupils on the list. The awards are as follows:

Victoria—Harry Cross (George Jay school.)

Kamloops—Doris M. Sterry.

Kelowna—Mary Day.

Nanaimo—Rowena Peto.

Nelson—Isabel D. Forin.

New Westminster—Beatrice M. Knowdell (Girls' Central).

Penticton—Irene A. H. Huntley.

Prince Rupert—Edna J. Jeffrey.

Summerland—Edith A. Bristow.

Vancouver—Mamie M. McCarthy (Alexandra School).

Vancouver, North—Laurie M. Gibbon.

Vernon—Georgiana MacKinnon.

Y. M. C. A. MEETINGS.

New Literary Class Being Started—Important Football Meeting.

There will be a special meeting of the football enthusiasts of the local association held in the Blanchard street building this evening, when all players and those interested are requested to attend. The meeting will be held in the Old Reading Room at 8.30 prompt.

A literary class is being started at the Y. M. C. A. This has no connection with the educational course as outlined by Mr. Raymond, but is the outcome of individual endeavor among a certain section of the members. The idea is to hold a class once or twice a week and during each session to make acquaintance with some of the best English classics, to form a basis for a really good course of reading in English literature. It is hoped that many of the members will see their way clear to join this useful organization.

The next meeting of the harriers will be held to-morrow evening as usual.

Good music, good floor, good supper, at Sidney, Friday night.

WEATHER BULLETIN.

Daily Re[illegible] arranged [illegible] the Victoria Meteor[illegible] easy ter[illegible]ent.

Victoria, Oct. 23.—5 a.[illegible] are conditions are low over the [illegible] and the Canadian western provinces. [illegible] area is moving inland and is centra[illegible] in Alberta with a trough of low pressure stretching southward to Arizona. Further east the barometer is high over the great lakes and the adjoining states. Heavy rain has fallen on the Pacific slope and temperatures are lower. In the prairie provinces the weather continues fair and cold.

Forecasts.

For 36 hours ending 5 p. m. Thursday.

Victoria and vicinity—Southerly and westerly winds, chiefly cloudy, with rain.

Lower Mainland—Light to moderate winds, continued unsettled, with rain or sleet.

Reports at 5 a. m.

Victoria—Barometer, 29.68; temperature, 42; minimum, 40; wind, 8 miles S.; rain, .24; weather, clear.

Vancouver—Barometer, 29.66; temperature, 42; minimum, 40; wind, 4 miles S. E.; rain, .38; weather, clear.

Kamloops—Barometer, 29.54; temperature, 36; minimum, 36; wind, 4 miles E.; weather, part cloudy.

San Francisco—Barometer, 30.02; temperature, 52; minimum, 52; wind, 6 miles W.; rain, .12; weather, clear.

Edmonton—Barometer, 29.32; temperature, 32; minimum, 32; wind, 4 miles W.; rain, .02; weather, cloudy.

Winnipeg—Barometer, 29.90; temperature, 36; minimum, 32; wind, 24 miles S.E.; weather, clear.

Victoria Daily Weather.

Observations taken 5 a. m., noon and 5 p. m., Tuesday:

Temperature.

Highest	52
Lowest	41
Average	46

Rain, .11 inch.

Dated this First day of October, 1912.

Evening Clothes

SKILL of no ordinary kind is required in the making of Dress Suits and Frock Coats. The shoulder-shaping and the draping of the garment call for the artistic skill which only the few possess.

Semi-ready Evening Clothes have long held their pre-eminent place because the makers are tailors who work year in and year out on this particular work. They are proficient and efficient.

Because of their skill and efficiency we can sell Semi-ready Dress Suits at $25 and $30 that would cost twice as much and yet not possess half the quality of make by the once-in-a-long-while tailor.

Dinner Jackets (Tuxedos) at $20. Dress Suits, $25, $30, $35 and $40. Frock Coat and Vest, $20, $25 and $30. Finished to your exact measure in an hour—delivered promptly, guaranteed.

MAKING BID FOR NEW SETTLERS

Private Colonization Company Has Been Organized in Australia

Australia is to take a leaf out of the book of the Canadian Colonization Co. and establish a private immigration concern. The Argus, Melbourne, says a number of leading business people and landowners of Victoria have for some time been considering the desirability of establishing an organization to deal with immigration and land settlement on a commercial basis. A Victorian organization has been formed to give effect to the ideas of the promoters. It is intended to induce settlers with capital and experience in farming pursuits to come from abroad to take up farms in this state, to be prepared by the organization from large estates which will be purchased and subdivided. The organization will be known as the Australian Farms Ltd., and will consist of a limited liability company. A large amount of capital has been obtained, and it is intended, while running the scheme on a commercial basis, to carry on the work in such a way that only a fair return of interest upon capital shall be expected.

The organization has been in contemplation for over a year, and before launching out the promoters made extensive inquiries as to the probabilities of success in applying to Australia methods which have been found valuable in other countries. From reports obtained in America there appeared to be every prospect of conducting an Australian immigration company on successful lines, and of proving of service both to investors and settlers. The company was assisted to this conclusion by the fact that the small farmer in Australia has exceptional facilities for successful operations.

Inquiries made amongst farmers in the United Kingdom show that a large number of them would be induced to come to Australia and take up land under the conditions that will be offered. Inquiries have commenced to flow in to the company from agents abroad. The specific objects of the organization are:

1. To purchase land and subdivide it into areas suitable for agriculture, horticulture and dairying.
2. To prepare farms for settlers.
3. To provide facilities for settlers to work upon the share system; and
4. To obtain suitable settlers from abroad.

These operations are to be conducted on terms favorable to the settlers, while giving reasonable returns to shareholders. All the shareholders are upon an equal footing, and the promoters retain no special advantage in shares, debentures, or cash, nor have any agreements been made that will benefit them in such directions as the acquisition of land. While a large amount of capital has been made available by Victorians, arrangements have been made for whatever financial support may be desired to be obtained from London.

UNCLAIMED MONEY.

Twenty Millions in Banks of Great Britain Which Nobody Owns.

Twenty millions of unclaimed money in the coffers of British banks—derelict gold which nobody owns, and which the banks are naturally pleased to take care of! Gold more than sufficient to pave every square foot of Cheapside with sovereigns.

The sum total may be exaggerated. But make a liberal deduction, and you still have many millions to which no rightful owners make a claim. There is no bank in the whole length of Great Britain (or elsewhere) which has not its lists of these bank balances that may be said to go a-begging. Some are for trivial sums, scarcely worth the trouble of pocketing; some are for amounts running into thousands.

Some years ago, when Mr. Goschen's conversion scheme was in the air, it was found that the Bank of England alone had nearly 11,000 of these dormant accounts. Forty of them had more than $50,000 apiece to their credit; one balance was written in six figures—$907,990. The total at the bottom of the long list was $39,248,875. This amount was very largely made up of unclaimed dividends on Government stock.

Scottish banks have, it is said, $45,000,000 of this overlooked gold. English banks at least double this sum. How does it come there? And what becomes of it?

It seems inconceivable that so much money, for all of which there must have been owners at some time or other, should be thus lost to sight. A score or more of simple causes account for the seeming impossibility. A man may, for private or business reasons, have accounts with more banks than one. He dies, his executors know nothing of any but his usual banks; the balances at the others remain unclaimed.

He may die abroad, or disappear leaving no clew to his banking affairs; he may even forget that such and such an account is not closed. In these and many similar ways—mostly the result of carelessness—money is left in the hands of bankers to swell the dormant funds.

For seven years the bankers keep the accounts open, prepared to pay over the balance to any who can prove a title to it. This term expired, they regard the forgotten gold as their own. Five million dollars of such ownerless money went to build London's splendid law courts. The city, it is said, has more than one magnificent bank building reared from the same handy material. The Bank of England, one learns, provides pensions for clerks' widows out of such a fund.

But, whatever becomes of it, these millions of "mystery gold" are always growing, fed by man's carelessness or forgetfulness, their secrets hidden away in thousands of musty bank ledgers.

A MISUNDERSTANDING.

"The reporter's life is a happy one. When he suffers an indignity, the source of that indignity is usually beneath consideration, or else the insult is due to some misunderstanding."

The speaker was Albert J. Beveridge, himself a one-time reporter. He continued:

"I know a reporter who went to a house the day after a wedding and said to the servant who answered his ring:

"'Can you let me have some details, please, of yesterday's ceremony?'

"The servant frowned.

"'No, I can't,' she said. 'They ate every crumb. And I think you ought to be ashamed, an able-bodied young man like you, going around begging for cold details.'"

COLD IN THE CHEST?

RUB WELL WITH ZAM-BUK!

For bad colds on the chest, rub the chest and between the shoulders well with Zam-Buk at night.

If you suffer from catarrh or cold in the head, just insert a little Zam-Buk at the base of the nostril, and as the balm becomes warm, inhale the healing essences which vaporize.

Sores in the nostril, which are sometimes set up by catarrh, will yield to Zam-Buk treatment.

Mrs. N. S. Babcock, of Matawatchan, Ont., says: "For a long time I had a very disagreeable sore on the inside of the nostrils, which gave me great pain and caused much annoyance. I feared it would turn to cancer, and all I tried proved unavailing. I was ordered to try Zam-Buk, and I am glad to say that the sore that defied all other remedies was overcome by one box of Zam-Buk and is now quite healed."

Zam-Buk will also be found a sure cure for cold sores, chapped hands, frost bite, ulcers, eczema, blood-poison, piles, cuts and skin injuries generally. All druggists and stores, 50c. box, or Zam-Buk Co., Toronto. Try Zam-Buk Soap, 25c. tablet!

PRIMARY FEEDER CABLE

Sealed tenders will be received by the undersigned up to 4 p. m. on Monday, Nov. 4th, 1912, for the supply and installation of Primary Feeder Cables on Government Street South, plans and specifications of which can be seen at the office of the Purchasing Agent, tenders to be marked on envelope, "Tenders for Primary Feeder Cable."

The lowest or any tender not necessarily accepted.

W. GALT,
Purchasing Agent.

City Purchasing Agent's Office, City Hall, Oct. 19th, 1912.

NOTICE TO RESIDENTS ON GORGE ROAD

Until the work of paving the Gorge Road has been completed, the residents there, are hereby notified that it will be impossible for the Fire Department to use this road, hence they are requested to take extra precautions against fire, and, in case of fire, to telephone the Department, giving the name of the street intersecting the Gorge Road nearest the fire.

WELLINGTON J. DOWLER,
C. M. C.

City Clerks Office, Victoria, B. C. October 19th, 1912.

CIVIC NOTICE

RE MUNICIPAL ELECTION, 1913.

The attention of persons desiring to qualify as "HOUSEHOLDERS," or "HOLDERS OF TRADE LICENSES," to vote at the Municipal Election to be held on the 2nd Thursday of January, 1913, is drawn to Section 8 of the "Municipal Elections Act," which provides that "in the case of the holder of a Trade License, or in the case of a Householder, he, or she, shall during the month of October in each year, make and cause to be delivered to the Clerk of the Municipality, a Statutory Declaration made and subscribed before a Supreme or County Court Judge, Stipendiary or Police Magistrate, Commissioner for taking affidavits in the Supreme Court, Justice of the Peace, or Notary Public, in form, and to the effect of Form 1 in the schedule to the said Act in the case of the holder of a trade license, and of Form 2 in said schedule in the case of a householder."

"HOUSEHOLDER" shall extend to and include any person of the full age of 21 years who occupies a dwelling, tenement, hotel or boarding house, who has been a resident in the Municipality from the first day of January of the current year, and who shall, unless exempted by the provision of the proviso at the end of subsection (157) of Section 53 of the Municipal Act (which exempts certified efficient militiamen and persons over the age of 60 years from paying road tax), have paid directly to the Municipality all rates, taxes of assessments, which are not chargeable on land, which rates, taxes or assessments so paid shall amount to not less than two dollars, due to the municipality for the current year, other than water rates or taxes, or license fees for dogs."

Section 9 of the said Act further provides that "No declaration shall be accepted by the Clerk of a City Municipality unless it be delivered within 48 hours after it is made."

Section 5 further provides that "No person who is not a British subject shall have his name placed upon any municipal list of voters."

Forms of declaration may be obtained and the necessary declarations made at the office of the City Assessor, 2nd floor, City Hall, Douglas street.

WELLINGTON J. DOWLER,
C. M. C.

Victoria, B. C., October 1st, 1912.

Why Coquitlam Is Getting the Industries

When members of the Vancouver Council and of the Vancouver Board of Trade visited Coquitlam the other day as guests of the council of that municipality, they learned something that amazed them—something that explained the strong tendency of new industries to locate at Coquitlam.

They found that the Coquitlam Terminal Company had reserved from speculation and for industrial use the whole waterfrontage—two miles long—and also two miles of industrial trackage, which means four miles of trackage frontage.

They found that the company was spending thirty thousand dollars on the finest industrial railway layout west of Winnipeg, and ten thousand dollars more on the harbor survey, all of which costs the manufacturer who locates in Coquitlam not one cent, directly or indirectly because the industrial sites are all sold by the Coquitlam Terminal Company to actual users at the cost of the land to the company.

Coquitlam, in respect to natural advantages, railway advantages, commercial advantages and the attitude of the townsite owners and the public authorities, presents to manufacturers who are now coming to the Vancouver District advantages that can not be excelled or even equalled by any portion of the Vancouver Metropolitan District.

The Coquitlam Terminal Company welcomes enquiry relative to industrial sites at Coquitlam, and guarantees liberal terms and most substantial encouragement to industries proposing to locate at Coquitlam, including assisting in financing where required.

The industrial investor in Coquitlam will find that he is not exposed to the mercy of "real estate sharks" and "curbstone brokers." On the contrary, he will deal with a powerful corporation conducted on the broadest lines of fair dealing, a corporation that owns the townsite, and so controls the situation that it can take care of any prospective industry, whatever its requirements, whether one industrial lot or a hundred acres—all level; trackage or waterfrontage, or both—thrown in.

The particular and careful attention of the manager of the Coquitlam Terminal Company will be given to every person or corporation desiring to investigate the merits of Coquitlam as a manufacturing location.

BIRTHDAY CALENDAR

IF THIS IS YOUR BIRTHDAY

Avoid dealing with strangers and be careful what you agree to do. Spend some time in quiet thought about your surroundings and prospects. Try to look at things from the viewpoint of another.

Those born to-day will have high ambitions, and in spite of many obstacles will ultimately win out. They should give some attention to recreation and the arts, in order to keep their powers of enjoyment alive for the time of their good fortune.

Birthday Congratulations TO

Allan, John Roberts (Ottawa); born, Balderson, Perth, Ont., 1867; stockbroker and capitalist; once champion golfer of Ottawa.

Bryan, George James, B. A. (Calgary); born, Hadlow cove, Que., 1868; principal of Alberta Normal school.

Campbell, Glen (Winnipeg); born, Fort Pelly, Sask., 1863; farmer and rancher in early life; Conservative M. P. P., 1902-1908; Conservative M. P. for Dauphin, 1908-1911; now inspector of Indian agencies.

Carman, Hon. Robert Baldwin, M. A., K. C. (St. Catherines, Ont.) born, Iroquois, Ont., 1843; county judge of Lincoln; served in Fenian raids of 1866.

Couture, Guillaume (Montreal); born, Montreal, 1851; organist and composer; founder of Montreal Philharmonic society.

Gamble, Francis Clarke (Victoria, B. C.); born, Toronto, 1848; in railway service, 1869-1880; engineer of federal department of public works, in British Columbia, 1887-1897; public works engineer of British Columbia, 1898-1911; now chief engineer of railways for British Columbia.

Geoffrion, Victor, B. C. L., K. C. (Montreal); born, St. Simon, Bagot, 1851; Liberal M. P. for Chambly-Vercheres, 1899-1911; when defeated.

Green, Solomon Hart, B. C. L., M. P. P. (Winnipeg); born, St. John, N. B., 1885; Liberal M. P. P. for North Winnipeg since 1910.

Halpenny, Jasper, M. A., M. D. (Winnipeg); born, Perth county, Ont., 1869; honorary secretary of Manitoba Medical Association.

Hayward, William Henry, M. P. P. (Duncan, B. C.); born, Dover, Eng., 1867; Conservative M. P. P. for Esquimalt, 1900-1903; now Conservative M. P. P. for Cowichan.

Hewson, Hon. Charles Edward, K. C. (Gore Bay, Ont.); born, Painswick, Simcoe, 1856; district judge of Manitoulin since 1908.

Paquet, Eugene, M. D., M. P. (St. Aubert, Que.); born, St. Agapit, Lotbiniere, 1867; Conservative M. P. for L'Islet since 1904; one of the Conservative whips in the Commons.

Thompson, Harry C. (Winnipeg); born, Moorefield, Ont., 1877; city treasurer of Winnipeg.

Tremain, Hadley Brown, M. A., Ph. D., M. P. (Windsor, N. S.); born, Port Hood, N. S., 1874; Conservative M. P. for Hants since 1911.

PRISONER PROMPTS COUNSEL.

Confers With Lawyer During Hearing of Murder Charge.

Salem, Mass., Oct. 23.—Joseph Ettor took an unusually active interest in the examination of witnesses yesterday, in his trial with Arturo Giovannetti and Joseph Caruso, for the murder of Anna Lopizzo during the Lawrence strike.

As counsel for the defence cross-examined Lawrence police officials relating to his movement, Ettor, standing in the prisoner's cage, conferred with his attorney almost continually.

Michael Moore, a Lawrence policeman, testified he saw Ettor before daylight on January 29 with a crowd of strikers, when he and Officer Charles Wadlin arrested one of them for interfering with some girl strikers.

"I saw Ettor in a doorway," Moore said. "I heard him say: 'Don't let the police take that man to the station; take him away from them.'"

Officer Wadlin also described the incident.

On cross-examination, Moore admitted that he was once convicted of stealing and of assault and sentenced to a reformatory.

KILLED ON RAILWAY.

Nicola, Oct. 23.—George Lindley, son of Henry Lindley, of Lower Nicola, met his death on the railroad at a point near the Pooley ranch, between Nicola and Merritt. It is presumed that he was asleep when killed. According to statements by the railroad crew, the dead man was first caught sight of as the train rounded the slight curve near where he was killed, and as the train was running at about 35 miles an hour there was but little chance for the engineer to pull up.

Lindley owned a ranch located on the road between Lower Nicola and Canford, and his presence on the railway is accounted for by the fact that he was working for J. Menzie, who was threshing for Harold Matthews at the Pooley ranch. Several small children are left.

THROWING THE BOOMERANG.

Something More Than Muscle Is Required.

Boomerangs are undoubtedly one of the most curious and interesting and most remarkable weapons in the world, considering their crudeness. The tales that have been told about the feats that can be performed with them by an expert are not myths by any means.

An Englishman who has been investigating the subject in Australia and who has reported his results and made exhibition throws for King George says that by selecting a boomerang of suitable shape and by knowing the knack of giving it just the right twist the natives of Queensland and New South Wales can make them do things so startling that they seem bewitched.

The boomerangs are usually made from a limb or root of a tree that has the proper crook, or sometimes they are made by heating a green stick in the fire and then bending it. They are worked to the desired shape by scraping with flint instruments and smoothing with bits of glass. They are usually made rounding on one side and flatish on the other. One form of boomerang used in war has a hook at one end.

When this instrument is thrown at an enemy he puts up his own boomerang to ward off the blow. This action causes the hook to catch on his own bomerang and brings the hooked weapon sideways in such a way that it deals him a hard blow on the side of the head almost in spite of anything he can do to parry it.

Making the boomerang perform a figure eight in the air is comparatively a common feat and all sorts of complicated figures are produced, including a double eight. The test of a sure thrower is to make the stick come back obediently to his feet after engaging in these flights, so he will not have to stoop to pick it up.

One very useful throw which is often used by the natives in hunting wild fowl and other small animals consists in standing behind some barrier which cuts off the view and then hurling the instrument in a direction away from the game so that it then turns in its flight and goes straight among them, where it performs a number of gyrations and is pretty sure to cause considerable carnage.

Amateurs have often tried to learn the trick of throwing a boomerang, but it takes long practice to do much with it. There are a number of boomerangs from Australia and the Pacific islands in the government collections at Washington, and several scientists have succeeded in throwing them in such a way at least as to make every one within half a mile fearful of being hit. They are a rather ticklish instrument to fool with, for unless a person is acquainted with their ways they are liable to turn in the air and give some one a rap when least expected.

It is impossible to make the boomerang work in a high wind, though a little breeze is necessary, as in kite flying. You throw across the wind; that is if the wind is from the west you throw either to the north or south according to whether the boomerang is flattened on one side or the other. There is no absolutely standard shape for a boomerang, as many people think. In fact, many different shapes are used, according to conditions.

In throwing the instrument more knack than actual muscle is required, though the movement must be rapid and straight. It is thrown at an angle usually of about 45 degrees in the air, and just as it leaves the hand it is given a slight upward jerk which imparts to it a spinning motion. It is this spinning motion, like the curve of a thrown baseball, that produces the eccentric results.

WOMAN DETERMINED TO END HER LIFE

Leaps Into Cistern After Shooting Herself—Friend Found Wounded

Salina, Kas., Oct. 23.—Mrs. Sadie Ward, wife of Carl Ward, is dead, and Mrs. W. R. Cox is in a local hospital seriously injured as the result of a mysterious double shooting here Monday.

The Wards and Coxes have been living in the same house. The Wards had planned to move into other apartments. The women lunched together. Mrs. Ward went to her new home, rushed into a bedroom and shot herself four times near the heart. She was disarmed but rushed outdoors and plunged headfirst into an open cistern and was dead before her body was recovered.

Mrs. Cox was found wounded in her home. It is not known how she was shot, whether it was the result of a quarrel or with suicidal intent.

MISTAKEN IDENTITY.

Man Believed to Have Been Dead Returns Home Alive and Well.

Seattle, Wash., Oct. 23.—Charles Anderson, 40 years old, returned to his home here Monday alive and well three weeks after a man believed to have been Anderson, and who was so identified by Anderson's wife, had been buried. Anderson, who was in ill-health and who left home six weeks ago because he feared he was becoming a hindrance to his wife, read of his own death in the newspapers, but did not send word to his wife that she had made an error in identifying a body recovered from Elliott Bay until yesterday. Mrs. Anderson was positive in her identification of the drowned man, correctly describing his personal effects before she saw them. The mark over the grave bearing the name Charles Anderson will be replaced by one with the word "unidentified."

FAVORS PRESIDENT TAFT.

Andrew Carnegie Will Work for His Re-election.

New York, Oct. 23.—Mr. and Mrs. Andrew Carnegie and their daughter were among the passengers arriving on the steamship Baltic. They have been abroad since last June and Mr. Carnegie said he was glad to get home.

"I am going to register," he said, "and I shall vote for Mr. Taft."

It was learned that Mr. Carnegie had prepared a long argumentive statement in favor of President Taft's campaign before leaving England, but when the wireless told of the attempted assassination of Mr. Roosevelt the statement was relegated to the waste-basket or thrust away in the trunk of the Laird of Skibo.

"Politically I favor Mr. Taft," said Mr. Carnegie. "I am going to work for his re-election and perhaps make a speech or two."

SHOOTS HIS WIFE.

Man Declares He Killed Woman in Self-Defence.

San Francisco, Cal., Oct. 23.—"I've just killed my wife," said a voice on the telephone at police headquarters yesterday. "You'd better come get me in a hurry before I kill myself."

At the address given the police found Mrs. Alice Currier lying dead on the kitchen floor. George, her husband, told the police that his wife had attacked him in a delirium resulting from typhoid fever, with a knife and a pistol, and that he had shot her in self-defence.

As the woman lay on the floor, the husband said she told him: "Well, George, you'd better finish me." So he shot her again. Currier was formerly an inmate of the Napa insane asylum.

COUNTY TREASURY LOOTED.

Officials Report That $291,148 Has Been Paid Out Illegally in Five Years.

Columbus, Ohio, Oct. 23.—According to the report of State Examiners officials of Darke County are said to have paid out illegally the sum of $291,148 within the last five years. The report states that the public treasury was "boldly looted by padding bills, paying for work never done, paying for contracts twice over and paying for labor and material at a discount and extravagant prices."

One of the accused is now in the penitentiary, another sentenced and several indicted.

HAIR HEALTH

If You Have Scalp or Hair Trouble, Take Advantage of This Offer.

We could not afford to so strongly endorse Rexall "93" Hair Tonic and continue to sell it as we do, if it did not do all we claim it will. Should our enthusiasm carry us away, and Rexall "93" Hair Tonic not give entire satisfaction to the users, they would lose faith in us and our statements, and in consequence our business prestige would suffer.

We assure you that if your hair is beginning to unnaturally fall out or if you have any scalp trouble, Rexall "93" Hair Tonic is without question the best remedy we know of to eradicate dandruff, stimulate hair growth and prevent premature baldness.

Our faith in Rexall "93" Hair Tonic is so strong that we ask you to try it on our positive guarantee that your money will be cheerfully refunded if it does not do as we claim. Two sizes, 50c and $1.00. Sold only at our store—The Rexall Store.—D. E. Campbell.

You Beer Drinkers

Don't Drink Beer from Light Glass Bottles

Read the following opinion of a scientist, an authority who has experimented and therefore knows that "light starts decay even in pure beer."

"We have tested beers repeatedly, placing the bottles in the direct sunlight, and testing the same after one, two, three and five minutes exposure, found that the beer with three and five minutes exposure became undrinkable on account of the peculiar odor developed. The detrimental effect of light upon beer can be successfully counteracted by the employment of brown or dark colored glass bottles, and such bottles are, therefore, recommendable."

—Wahl-Henius Institute of Fermentology.

The Schlitz Brown Bottle is only another step for absolute purity in Schlitz beer.

We have adopted every invention, every innovation, every idea that could make for purity.

Schlitz was first brewed in a hut. Today our agencies dot the earth. Our output exceeds a million barrels a year.

Schlitz

See that crown or cork is branded "Schlitz."

CHAUFFEUR INDICTED.

Charged With Manslaughter in Connection With Fatality at Vancouver.

Vancouver, Oct. 23.—A true bill indicting Richard Toynbee, a chauffeur, on a charge of manslaughter in connection with the death of J. S. Gray, was returned by the grand jury in the assizes Monday evening.

At the opening of the assize court yesterday, A. H. Macneill, crown prosecutor, asked that a warrant for Toynbee be ordered but that it be not issued as R. C. Spinks, who will appear for Toynbee, had promised to produce him for trial.

Toynbee is the man who was discharged in the police court by Magistrate Shaw on a similar charge, the magistrate finding that the killing of Gray was accidental. The accident occurred at the corner of Fourth avenue and Cypress street while Mr. Gray was waiting for a street car. Toynbee had turned out and driven on the wrong side of the street, knocking down the unfortunate pedestrian. Gray died from his injuries next day. Toynbee was formerly a driver in the employ of the police department.

Upon the facts of the case coming to the notice of the attorney-general, Crown Prosecutor A. H. Macneill, K. C., was requested to prepare an indictment and submit to the grand jury, the attorney-general remarking that owing to the large number of persons killed in Vancouver by automobiles it was desirable for juries to pass upon these cases.

C. P. R. TO ENLARGE HOTEL.

Winnipeg, Oct. 23.—The extensive alterations to the Royal Alexandra Hotel and the C. P. R. station are about to be definitely authorized by the authorities, and work may begin at any time. Probably the work will be commenced in about four weeks. The complete improvements will cost about one million dollars. The extensions and alterations will be so general that the whole appearance of the C. P. R. block will be changed, and the improvements will affect the hotel and station, both of which will be practically doubled in size. A large grill room, and ballroom and banqueting hall, besides 300 new bedrooms will be the principal additions to the hotel. The station itself will be practically doubled in size by moving the front forward, and so bringing it level with that of the Royal Alexandra.

CALGARY STREET PAVING.

Calgary, Alta., Oct. 23.—Half a million dollars' worth of paving, for which contracts were let last spring to the Bitulithic and Canadian Mineral Rubber Companies, may be forfeited because of a contract stipulating that the work unfinished by October 31, should revert to the city.

The average price received by these companies for their work is about $2.65 per square yard. Since the contracts were let the city established a municipal plant which has laid its initial block of sidewalk, under disadvantageous circumstances, at about $2. This has had the effect of inaugurating a movement to declare all contracts unfinished at the end of this month, forfeited.

BURNED TO DEATH.

Remains of Logger Found in Ruins of Buildings in Washington Town.

Centralia, Wash., Oct. 23.—A disastrous fire, of undoubtedly incendiary origin, and which resulted in the loss of one life, broke out in a row of saloons facing the old depot in Centralia Monday morning, and before the progress of the flames could be checked, had resulted in the total destruction of three saloons, a poolroom, barber shop and restaurant. The loss is estimated at $50,000, the greater part of which is covered by insurance. The body of George Cameron, a logger, was found in the ruins, the body being burned beyond recognition.

MURDERER CAPTURED.

Condon, Ore., Oct. 23.—"Bob" Morgan, who disappeared after the killing of Miss Virgie Hart Thursday last, has been captured two miles from here. Miss Hart, who recently came here from Kentucky, was followed to this city by Morgan, who was an unfavored suitor. The young woman was passing along the street early in the evening when she was shot and instantly killed and U. B. Crane was injured by a bullet when he attempted to take Morgan's gun from him.

MUSIC

Taught Free

HOME INSTRUCTION

Special Offer to Readers of The Times

In order to advertise and introduce their home study music lessons in every locality the International Institute of Music of New York will give free to our readers a complete course of instruction for their piano, organ, violin, mandolin, guitar, cornet, banjo, 'cella or sight singing. In return they simply ask that you recommend their Institute to your friends after you learn to play.

You may not know one note from another; yet, by their wonderfully simple and thorough method, you can soon learn to play. If you are an advanced player you will receive special instructin.

The lessons are sent weekly. They are so simple and easy that they are recommended to any person or little child who can read English. Photograph and drawings make everything plain. Under the Institute's free tuition offer you will be asked to pay only a very small amount (averaging 14 cents a week) to cover postage and the necessary sheet music.

No one should overlook this wonderful offer. Tell your friends about it—show this article to them.

The International Institute has successfully taught others and can successfully teach you, even if you know absolutely nothing whatever about music. The lessns make everything clear.

Write to-day for the free booklet, which explains everything. It will convince you and cost you nothing. Address your letter or postal card to International Institute of Music, 98 Fifth Ave., Dept. 415 B, New York, N. Y.

MISER'S HOARD.

Man Dies From Effects of Starvation, But Had Money Hidden in Shack.

Detroit, Mich., Oct. 23.—Adam George, who toiled for years on a little piece of land near Dearborne, a few miles west of this city and lived in a tumbledown shanty, died two weeks ago from the effects of starvation. A short time before his death he informed his relatives that he had money in the bank.

Search of the shack has disclosed that he owned a farm valued at $12,000, stock and grain worth $3,000, and a bank account of $1,800. In addition cash to the amount of $2,400 was discovered hidden on the place.

An old vest yielded $200, but the favorite hiding places were tin cans, several of which were found crammed with five, ten, and twenty-dollar bills, some of them so old and soiled it was almost impossible to ascertain their denomination.

TRAPPER MURDERED.

Quebec, Oct. 23.—Investigation reveals the fact that Alfred Morin, a trapper, whose body, with a bullet wound in the head, was found by friends in his shanty near Notre Dame Des Anges by two friends, was murdered by poachers about whom he had complained. They had tried to trap him in muskrat traps and this failing it is believed they murdered him in his shanty. No arrests have been made yet, but the police are searching for two poachers who have left the neighborhood.

HEAVY SELLING MARKS OPENING

Canadian Pacific Sells Off Five Points From Yesterday—Improvement Near Close

(Courtesy F. W. Stevenson & Co.)

New York, Oct. 23.—It was an exciting day for the stock market. Commencing at the opening there was heavy selling from all quarters, and it looked as though something drastic in the way of liquidation was to be accomplished. All issues were affected, most conspicuously Canadian Pacific, which sold off five points from yesterday. It was during the last hour that a turn for the better was seen, and buying both for foreign and New York account saved the situation. The money situation is being carefully watched, especially because of requirements necessary to care for the deliveries on sales for foreign accounts.

UNFILLED STEEL TONNAGE.

New York, Oct. 23.—According to the steel trade there will be rather a pronounced falling off in unfilled steel tonnage during the current month. One manufacturer estimates that steel will show a shrinkage of close to 1,200 tons.

GRANBY SMELTER SHARES LOWER

Weakness in Boston and New York Reflected on Local Exchange

Victoria, Oct. 23.—Practically all issues kept around yesterday's levels on the local stock exchange to-day, two notable exceptions being Portland Canal M. Co. and Granby Smelter, the latter being a dollar a share lower, a reflection of weakness in Boston and New York, where all securities acted erratically all day because of European war unsettlement. Relative to Granby: Less than $1,300,000 will be required to complete the development and equipment work at Hidden Creek and put that property on a producing basis. As Granby has about $800,000 of cash and quick assets, and is earning from $100,000 to $140,000 a month, it can readily meet this amount without calling on stockholders for assistance. The only point for consideration is whether stockholders are willing to forego dividends for another year. If bonds were issued and sold to raise the needed money, dividend payments could be resumed immediately at the rate of $6 or $7 a share annually. Some are in favor of such a course, but others think it best to pay for the new equipment, etc., from earnings, and thus avoid any increase in capitalization. The directors meet next month.

WINNIPEG GRAIN.

Winnipeg, Oct. 23.—Further advances in prices of futures to-day indicate that developments in Eastern Europe are considered as of importance in grain circles. There is a good export demand and firms in this line were free buyers of October. There is also fair cash trade, but offerings are by no means free. Heavy receipts, however, tend to keep prices down. For the week ending Monday 8,867 cars were inspected, which should sum up over 10,000,000 bushels. Argentine crop prospects are excellent. The weather though favorable to-day has symptoms of change, being cloudy generally over the Canadian west. Receipts were 1,282 cars inspected and 1,000 in sight.

Wheat—Oct., 90@92; Nov., 90¼@90¾; Dec., 89@89¼; May, 91¼@92¾.

Oats—Oct., 35¼@36; Nov., 35¼@36; Dec., 33¾@34¾.

Flax—Oct., 134@135¼; Nov., 133@134¼; Dec., 126@129.

% % %

GRAIN MARKETS.

Kansas City, Oct. 23.—Cash wheat unchanged to ¼ higher; corn unchanged.

Chicago, Oct. 23.—Cash wheat unchanged; corn steady; oats ¼ to ½ up.

Berlin, Oct. 23.—Wheat closed ¼ lower.

Antwerp, Oct. 23.—Wheat closed ¼ higher.

Budapest, Oct. 23.—Wheat closed ¼ lower.

Omaha, Oct. 23.—Cash wheat ¼ higher; corn and oats unchanged.

ACTIVITY IN THE GRAIN MARKET

Sharp Upturn in Prices at Opening — Continental Quotations Higher

(Courtesy F. W. Stevenson & Co.)

Chicago, Oct. 23.—Great activity marked the opening of the wheat trade to-day and there was a sharp upturn in prices. The change in the tone of the trade was entirely due to reports coming from abroad regarding possible developments at the Dardanelles. One rumor claimed that the Greek fleet had practically threatened a blockade. The trade did not consider such rumors seriously until the continental markets became stronger and higher. Figures on world's wheat production from the international institute at Rome were very bearish. Heavy northwest receipts acted as a check on early buying. The truth is all these natural influences were ignored by the trade, while the great uncertainty exists in regard to political developments with the important Dardanelles the centre of war activity. Foreigners became active buyers of Manitoba wheat at Winnipeg according to late messages.

Even with the help of the advance in wheat, corn made but small gains for the day. Oats were firmer.

U. S. EXPORTS TO SOUTH AMERICA

Officials Studying Probable Volume of Trade Through Panama Canal

Washington, D. C., Oct. 23.—The Latin-American division of the state department is observing closely export trade from the United States to South American countries on the Pacific coast with a view to determining the probable volume of such traffic through the Panama Canal.

The value of goods exported to the countries along the west coast of South America last year was $24,349,241, of which Chile took about 61 per cent., Peru 24 per cent., and Ecuador the remainder. Five-sevenths of the cotton cloth exported to South America went to countries which would be directly affected by the Panama Canal.

UGH! HOW CHILDREN HATE CASTOR OIL

Delicious "Syrup of Figs" Best to Cleanse Their Little Clogged Bowels

Look back at your childhood days. Remember the physic that mother insisted on—castor oil, calomel, cathartics. How you hated them, how you fought against taking them.

With our children it's different. The day of harsh physic is over. We don't force the liver and 30 feet of bowels now; we coax them. We have no dreaded after effects. Mothers who cling to the old form of physic simply don't realize what they do. The children's revolt is well-founded. Their little stomachs and tender bowels are injured by them.

If your child is fretful, peevish, half sick, stomach sour, breath feverish and its little system full of cold; has diarrhœa, sore throat, stomach-ache; doesn't eat or rest well—remember—look at the tongue, if coated, give a teaspoonful of Syrup of Figs, then don't worry, because you surely will have a well, smiling child in a few hours.

Syrup of Figs being composed entirely of luscious figs, senna and aromatics simply cannot be harmful. It sweetens the stomach, makes the liver active and thoroughly cleanses the little one's waste-clogged bowels. In a few hours all sour bile, undigested fermenting food and constipated waste matter gently moves on and out of the system without griping or nausea.

Directions for children of all ages, also for grown-ups, plainly printed on the package.

By all means get the genuine. Ask your druggist for the full name "Syrup of Figs and Elixir of Senna" prepared by the California Fig Syrup Co. Accept nothing else.

FAIRFIELD DISTRICT—6 roomed house. Snap price; cash payment no object. Owners only. Write at once. Box 583 Times. o23

TO THE SMALL INVESTORS wanting a safe, sure investment, and can spare $10 monthly, I have lots in the fastest growing town along G. T. P. Write or ask for Mr. Colby, 1319 Douglas St. o30

FOR SALE—Splendid 7 roomed bungalow, standing on half an acre, overlooking Foul Bay, near car. Particulars, 'phone L1492. o25

WE HAVE 160 ACRES on Gabriola Island, having 6 acres cleared, with full rights to coal and timber, of which there is plenty; no waste land on the place; only half an hour's run by launch from Nanaimo; half mile from wharf and waterfront; adjoining land was sold recently for park purposes at a higher figure than we can deliver this for; other surrounding properties are held at a higher figure; the price that could be obtained for the timber alone would go far towards paying for price of the land; this is, without doubt, a fine opportunity for someone wanting a cheap farm, as some of the land was formerly cleared, and would be easily worked again. The price is $100 per acre, and a quarter cash will handle it. We have inspected this land and it is O. K. Wm. Dunford & Son, Ltd., 233 Pemberton Block. o23

THE VICTORIA & SIDNEY RAILWAY will be taken over by the Canadian Northern Railway. This means that the value of property in and around Sidney will be very greatly enhanced. Before the announcement is made you can buy direct from owner three beautiful, clear and level waterfront lots, 50x134, 50x129 and 50x119, for $800 each; terms, a third cash, balance 6, 12 and 18 months. Box 1903 Times. o25

QUEEN WILHELMINA ILL.

The Hague, Oct. 23.—Queen Wilhelmina has been suffering for several days from a slight indisposition. This, according to an official bulletin, tends to dispel the hope which Her Majesty entertained for the birth of an heir to the throne. The bulletin adds that the condition of the Queen is satisfactory.

KILLED BY EXPLOSION.

North Bay, Ont., Oct. 23.—The Energetic Explosive Company's factory at Haileybury was blown to pieces today.

Several persons are known to have been killed and the property loss is heavy.

The death took place yesterday of Cecil Emerson Hodge Gold, the 9-year-old son of Mr. and Mrs. Thomas F. Gold, of 202 Edward street, Victoria West. The funeral services will be held at the above residence on Thursday at 2.30 o'clock, Rev. Robert Connell officiating.

REAL ESTATE.

MEETING OF SUNDAY SCHOOL LEAGUE

Committees Appointed and Much Preliminary Work Accomplished

There was a meeting of the board of governors of the newly-formed Sunday School League last evening in the Y. M. C. A., when the following gentlemen were in attendance: Hon. President Joseph Patrick; President H. G. Beall; Vice-President J. E. Andrews, Secretary G. W. Robinson.

The first business transacted was the acceptance of two resignations, namely, of George McCandless, the treasurer, and of W. F. Bailey, one of the board of governors. Successors to these were appointed in the persons of J. Thomas, who was elected treasurer, while the following gentlemen were elected to the board of governors: Frederick Schroeder, of the James Bay Methodist; W. J. Cook, of the Burnside Road Baptist; H. E. Robertson, of St. Andrew's Presbyterian, and H. Parry, of the First Presbyterian.

The following standing committees were elected according to the provisions of the constitution: Finance, registration, publication. For the first named Messrs. Andrews, Thomas and King were chosen; for the second, Messrs. Robinson, Schroeder and Cook; for the third, Messrs. Robertson and Parry.

It was decided after discussion that the league would follow up only two lines of athletic activity in the sports of Association football and basketball. Special committees were chosen to promote the ends of these pastimes. For the basketball section, J. M. Thomas, A. Middleton and A. Wills were elected to committee, while for the "soccer" football J. E. Andrews, J. Finlay and W. Maynard.

Long discussion of the modes of ensuring hearty co-operation followed the election of the committees and the secretary of the league was authorized to write to the several Sunday schools and ask for their application and entries.

CONCERT TO-MORROW.

Proceeds Will Be Devoted to Mr. Dan Black, Incapacitated Through Accident.

A grand concert will be held in the Victoria Theatre to-morrow evening under the auspices of the Caledonian Societies and Amalgamated Society of Carpenters.

The proceeds of the concert will be for the benefit of Dan Black who met with a serious accident seven months ago and is still unable to follow his employment. At the concert Mr. Black will render selections upon "Wee Macgregor," the smallest concertina in the world. Among the other talented artists who will appear are the following: Madame Marie Burnette, mezzo soprano; Mrs. Jesse Longfield, contralto; Miss Letty Drinkle, soprano; Miss Dorothy Cook, child vocalist; Miss Mary Shearer, Highland dancer; Miss Campbell, who is an international dancer and a gold medalist; Mrs. W. F. Hastings, harpist; Mrs. Ridgard, accompanist; Robert Morrison, baritone; John Dobbie, baritone; Mr. Lougheed, ballad vocalist; Mr. Ralph, elocutionist; George Eastwood, cornet soloist; William Sanson, champion club swinger of the Pacific Coast; Jack Melville, Scotch comedian; Harry Dumbleton, coon song and dance artist; Jack Lindsay, football monologist; Private Donald Cameron, piper; and Jack Fraser, character comedian.

The doors will be open at the theatre to-morrow evening at 7.30 and the first item will commence promptly at eight o'clock. Tickets may be obtained either from the committee of the above societies or at the door. It is hoped that a large attendance will be present to show their interest and sympathy for one who has been under the spell of fortune's frown for so long. The admission fee is fifty cents.

VICTORIA TAXPAYERS

October 31st inst., will be the last day on which

REBATE

of 1-6 will be allowed on 1912 TAXES.

Please remit or call early to avoid rush on last day.

On account of only registered owners being assessed this year, and also of the great many transfers of real property taking place, some will not have received their 1912 Tax account, and in order that those who desire information respecting Taxes may obtain same, my office will be kept open evenings (except on Saturday) between 7.30 and 9.30 o'clock.

Payment of Taxes can only be made between the hours of 9 a.m. and 5 p.m., and up to 1 o'clock on Saturday.

EDWIN C. SMITH,
Treasurer and Collector.

Victoria, B. C., Oct. 11, 1912.

CANADIAN NAVY BUILT AT HOME

LIBERAL MEMBER ON VISIT TO COAST

J. G. Turriff, M. P., Refutes Statements About Saskatchewan Election

"The federal Liberal members," said J. G. Turriff, M. P., for East Assiniboia, "are looking forward to the coming session with confidence, and are entering the fight on the navy question with a permanent policy for the development of the navy, in place of an ambiguous one, whose possibilities cannot be foreseen."

Mr. Turriff arrived at the Empress hotel yesterday from Vancouver with Mrs. Turriff, taking advantage of a lull in political and private business to make a visit to the far west, which Mrs. Turriff had not previously seen. They only made a short stay here, planning to return to Vancouver today. The member for Assiniboia is looking well, and full of enthusiasm after a tour of eastern centres in the wake of Sir Wilfrid Laurier.

Pacific Unit.

Mr. Turriff, speaking of the navy, continued: "I am entirely in sympathy with the official Liberal policy of a Canadian navy, manned by Canadians, built by Canadians, and at the disposal of the British Admiralty in war time. There must be a Pacific unit, for the defence of these coasts in case of a change in the Oriental situation, a necessity particularly imperative in view of the fact that these shares are only two weeks' steaming from the great nations of Asia; with millions seeking expansion overseas. I think, myself, that many Liberal members may be prepared to vote for an emergency contribution to the British Admiralty if the government says such a state of affairs exists, and if the premier is prepared to recommend the step to the House as one of urgency for which he is willing to take the responsibility. But the Liberals will not modify the position they have taken with regard to the permanent policy of developing a navy in Canadian waters, building up new industries, and also encouraging the investment of capital in shipbuilding, which will be available also for the construction and repair of mercantile marine.

Reciprocity.

"The West is just as strong for reciprocity as it ever was, and the western farmer must have a wider market. I notice that Mr. Wylie, the member for Maple Creek, has recently been here, and declared the result of the election in July was obtained through what he calls the alien vote. This is amusing coming from Mr. Wylie. As a matter of fact, in his own constituency, out of 2,700 names there were only 500 which had been on the register in a previous election, and yet that 'alien vote' gave him a comfortable majority. I spoke in 18 constituencies during the election, and many times we had Conservative speakers on the platform, but never was a word said about the Scott government swamping the constituencies with alien voters. In old established districts like South and North Qu'Appelle, and Moose Mountain the majorities for reciprocity were enormous, and all along the main line of the C. P. R. where settlement has been in existence for years the Liberal majorities were strong. Redistribution will greatly strengthen our hands at Ottawa in the fight for larger markets for grain, a demand which cannot be resisted by any government much longer.

"We want a western outlet for wheat, and with the opening of the Panama canal there will be a great surplus to be handled that way, although there are, of course, certain disadvantages, like the passage through a warm zone. If the wheat has to be sacked at the Pacific port of departure, it will add slightly to the cost of handling, but these drawbacks will be more than outweighed by the opportunity for getting clear of the grain earlier than at present possible by way of the Great Lakes.

A Fine Harvest.

"The harvest has been splendid on the prairies, although kept back somewhat by the rains. When I left Regina threshing was general in Saskatchewan, and while there will be a certain car shortage, it will probably not be as large as in former years. While to British Columbia the prosperity of the prairies is most important, there is one direct way in which a good harvest affects the coast cities. As nine-tenths of the prosperous farmers when they retire on a competency desire a more equable climate than that of the prairie plateau, they come to the coast to settle, and you will have a large influx this year making investments.

"The greatest single asset of the coast is its climate, and the tourist possibilities are as yet by no means fully understood. Valuable as are the timber and fisheries, climate goes a long way towards making or marring a community."

Speaking of Professor Aaronsohn's discovery of a grade of native wheat in Palestine, reported in the Times yesterday, Mr. Turriff said if it was found that wheat could be grown in the arid districts of Asia and Africa it would revolutionize the trade of the world, and its effect on the Canadian wheat industry could not be estimated. However, in the same way alfalfa had been brought to its present development on this continent, United States government botanists having traced the original stock to Turkestan, and crossed it with local varieties to the great improvement of the plant, affording boundless possibilities for the dry districts of the United States.

The Finest Garment for All Year All'round Wear is the Raincoat

It's like an old friend, "tried and true"—and gives the needed protection, whether from rain, cold, sleet or snow, just when you want it.

We are showing a great assortment of Raincoats for Fall. Garbadines, English Tweeds, Scotch Cheviots, Irish Homespuns and Cravenettes.

IMPORTANT SALE
OF
Pure Bred Poultry

Instructed by Mr. J. V. Cooper, we will sell at his poultry ranch

Cadboro Bay
ON
Wednesday, Oct. 30
2 P. M.
PURE-BRED WHITE LEGHORNS

Consisting of: 400 Pullets, laying, and about 1,200 Hens. These birds will be sold in crates of 25, ready for shipping. Also 2 Incubators, 14 Brooders, new 1-in. Hose, almost new Lever Pump, Dump Cart, lot of 1-in., Iron Pipe, Wheelbarrow, Garden Tools, Cultivator and Plough, Grindstone, Hand Feed Cart, Drinking Pans and a large quantity of Wire Netting.

The following is an extract from The Agricultural Journal of B. C., in regard to Mr. Cooper's chickens:

"The ranch was started in 1905 with the object of finding out if there was any money in poultry, the plant, after 6 years, shows a net profit of over $2.75 per head." The flock is now composed of pure-bred White Leghorns, all bred on the ranch. Pullets are never bred from; they have to prove their worth before going into the breeding pen. In 1911, out of 1,300 birds, Mr. Cooper's profit after deducting labor and expenses, amounted to $2.70 per hen."

These birds can be seen any time on Saturday or Sunday.

Poultry fanciers would do well to attend this sale. Mr. Cooper's reason for selling is that he is leaving the city. Any further particulars can be had from

FINANCIAL QUESTION IS CRUCIAL PROBLEM

City Public Works and Treasury—School Boards and Council Responsibility

The municipal coach is slowing up for the year, and there will be little done now till fresh appropriations are available to complete the work undertaken, and to carry through work which ought to be done immediately, but for which funds do not exist. Expropriation work having closed down, the widening schemes are being held up accordingly. Although the owners benefited ultimately pay for the widening of streets, the city has to carry the cost meanwhile, and with the Douglas street widening costing nearly half a million dollars, and another very large sum being tied up in Pandora avenue, these two cases alone serve to add to the borrowings upon which the city has to pay interest. Reference has been made recently several times to the closing up of by-laws in order to enable the debentures upon them to be sold, or at any rate placed with the others upon the market.

There must always be a certain divergence of opinion between the financial and constructional branches of the city work, because while it is the duty of the engineering department to make a good job of the works in hand, it is the manifest obligation of the financial department to see that they are not outrunning the constable, and check them up. Money has to be found, and to find it is the duty of one branch, while the function of the other is to spend it to the best advantage.

As municipal finance in this province is arranged, the council has less control through its financial officers over school expenditure than any other, for the board merely indicates that such and such bills are to be met, and they have to be paid.

RUSSIAN CROWN PRINCE ILL.

St. Petersburg, Oct. 23.—The condition of the Russian crown prince is causing the greatest anxiety to the imperial court and among the general public.

That the illness of the crown prince is serious is indicated by the telegraphic summons sent to Dr. Rauchfuss, the court physician, who attends the imperial children, to proceed at once to Spala, in Russian Poland, where he arrived to-day
